ARLINGTON
VIRGINIA

Goal of ART Service Data Dashboard:

To capture, visualize, and share with the public, ART's service performance data as an interactive source, with graphs, tables, and summary text, to maintain data transparency

Other Notes:

- Useful to tell a story pre and post pandemic

- Useful to observe trends at a systemwide and route level

- Future Direction:

- Looking to add more service performance metrics

- Timeline of phase out PDFS and ensure accessibility

- Create customer response channel

- Incorporate TAC feedback by 3/24
