### ARLINGTON COUNTY, VIRGINIA

# Comprehensive Annual Financial Report

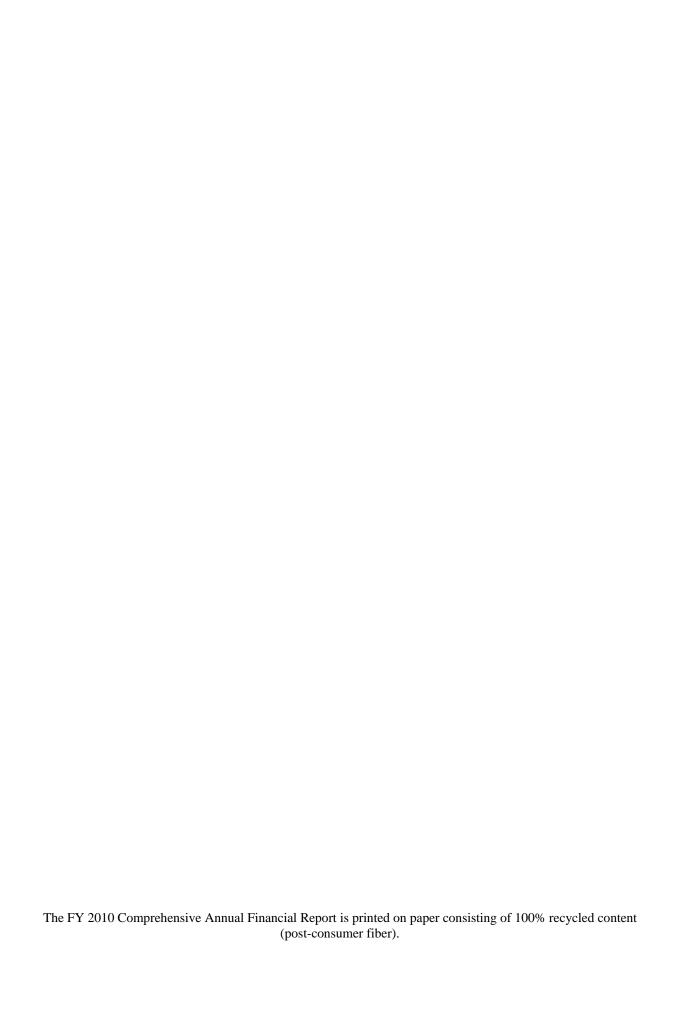

#### FISCAL YEAR 2010

(July 1, 2009 - June 30, 2010)

#### DEPARTMENT OF MANAGEMENT AND FINANCE

Mark J. Schwartz, Director Barbara A. Wiley, Comptroller

### **Vision**

"Arlington will be a diverse and inclusive world-class community with secure, attractive residential and commercial neighborhoods where people unite to form a caring, learning, participating, sustainable community in which each person is important."

ARLINGTON COUNTY BOARD

#### <u>Mission</u>

**High Quality Service** 

#### Leadership Philosophy

We believe that people want to do the best job possible. When all of us share responsibility for creating a work environment with clear goals, mutual support and opportunities for continuos learning, Arlington County can best achieve its goals. We will realize our full potential through teamwork, respect for each other, sharing information, and support for individual creativity and initiative.

### DEPARTMENT OF MANAGEMENT AND FINANCE

2100 Clarendon Blvd., Suite 501 Arlington, VA 22201 TEL 703.228.3415 FAX 703.228.3401 EMAIL dmf@arlingtonva.us

October 28, 2010

Chairman Fisette and Members of the County Board:

Section 15.2-2511 of the Code of Virginia requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with Generally Accepted Accounting Principles ("GAAP") and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report (the "CAFR") of Arlington County, Virginia (the "County") for the fiscal year ended June 30, 2010.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in the report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements have been audited by Clifton Gunderson LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2010, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Arlington County financial statements for the fiscal year ended June 30, 2010, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

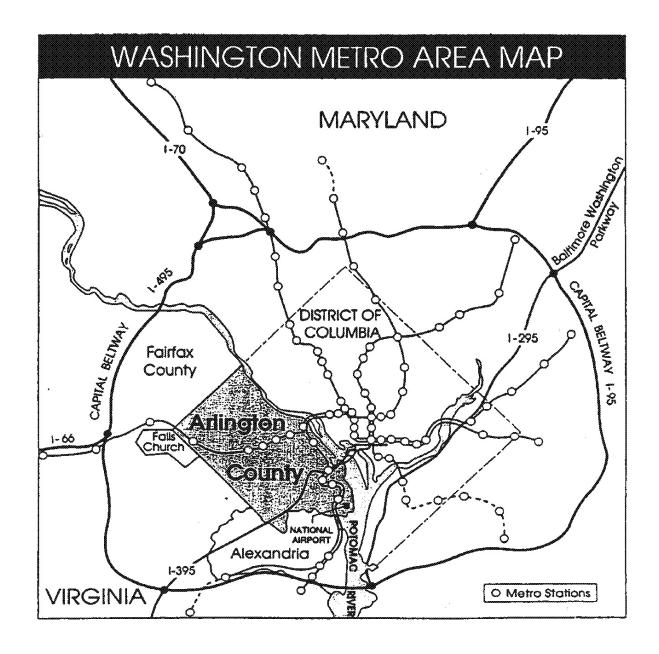

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. The reports are available in the last section of the CAFR under the heading Federally Assisted Programs.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter or transmittal is designed to complement the MD&A and should be read in conjunction with it. Arlington County's MD&A can be found immediately following the report of the independent auditors.

#### **Profile of the Government**

Arlington, Virginia is a world-class residential, business and tourist location that was originally part of the 10-mile square parcel of land surveyed in 1791 to be the Nation's Capital. It is the geographically smallest self-governing county in the United States, occupying slightly less than 26 square miles. Arlington maintains a rich variety of stable neighborhoods, quality schools and diversified land use. Home to some of the most influential organizations in the world – including the Pentagon – Arlington stands out as one of America's preeminent places to live, visit and do business.

The geographical area of the County is 25.7 square miles of which 4.6 square miles is under the control of the Federal Government. There are no cities or towns within the County giving Arlington County both city and county functions, and thereby establishing Arlington County as one of the few urban unitary forms of government in the United States. The Virginia Supreme Court held in 1923 that the County is a continuous, contiguous, homogeneous entity and therefore cannot be

subdivided for the establishment of towns, nor can any part of the County be annexed by neighboring jurisdictions. The land in Arlington County is almost totally developed; there are no farms and few areas of vacant land. In addition to single family neighborhoods, there are sizable concentrations of high-rise commercial and office space, especially in the Rosslyn-Ballston and Jefferson Davis/Crystal City Metrorail subway corridors.

As required by Virginia Law, the County seeks to have real property in the County assessed annually at 100% of fair market value. The assessed value of taxable real property on January 1, 2010 was \$54.0 billion. The County government's adopted budget for all funds for Fiscal Year 2010 totaled \$1,192.2 million, which included \$438.6 million for public primary and secondary education The legislative and policy-making body of the County is the five-member County Board whose members are elected at-large for staggered four-year terms. The County Board appoints the County Manager who serves as the chief executive and administrative officer. It is the County Manager's responsibility to appoint the department heads. Arlington County was the first county in the United States to choose by referendum the Professional County Manager form of government in 1932.

Arlington County is also financially accountable for a legally separate school system (the "Schools") which is reported separately within the County financial statements. The five-member School Board is elected by the citizens. The School Board appoints the Superintendent of Schools as the chief administrative officer for the County's public school system. The School Board has no taxing authority or authority to issue debt and receives its spending authority from the County Board. Additional information on this legally separate entity can be found in Note 1.I.A in the notes to the financial statements.

In addition to the County and School Boards, other elected County officials include the Commonwealth's Attorney, the Commissioner of Revenue, the Treasurer, the Sheriff, and the Clerk of the Circuit Court. The Commonwealth of Virginia's General Assembly appoints the judges of the Circuit Court, the General District Court, and the Juvenile and Domestic Relations Court.

Because of its unique unitary structure, the County provides a full range of local government services often associated with both cities and counties. These services include public safety (police and fire protection), judicial (courts, prosecuting offices and detention center), water and sewer, health, welfare and social services, public improvements, streets and highways, planning and zoning, community planning and development, libraries, parks and recreation, education and general administrative services. With respect to streets and highways, the County is one of only a few of the ninety-five counties in the Commonwealth of Virginia which are responsible for street and highway construction and maintenance; in the other counties, the Virginia Department of Transportation is the responsible entity. Also, the County is one of the few jurisdictions in Virginia that has fully melded the State health function into its County government organization.

The annual budget serves as the foundation for Arlington County's financial planning and control. All departments of the County are required to submit requests for appropriation to the County Manager by November of each year. The County Manager uses these requests as the starting point for developing a proposed budget. The County Manager's proposed budget for the following fiscal year is presented to the County Board in February.

Public hearings on the proposed budget and tax rates are held in March; the County Board also holds a series of work sessions during which preliminary funding decisions regarding proposed operating and capital programs are considered. Final County Board decisions are incorporated into the appropriation, tax, and budget resolutions for the fiscal year. These resolutions are generally approved by the County Board in April and a separate Adopted Budget document is issued subsequent to the Board approval. Under Virginia law, the County Board must adopt a School Board budget no later than May 1 of the current fiscal year.

The annual budget is prepared by fund, department, program and type of expense within departments/programs. Department directors may make transfers of appropriations within a department with Department of Management and Finance approval. Transfers of appropriations between departments, and transfers between funds require the approval of the County Manager and County Board. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented in Exhibit 5 as part of the basic financial statements for the governmental activities. For governmental funds, other than the general fund, with appropriated annual budgets, these comparisons are presented in the supplemental subsections of this report, in Exhibits B-3, B-4, B-5, B-6 and B-7. For the discrete component unit Schools, these comparisons are presented in Exhibit G-3.

#### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates.

#### **Local Economy**

Arlington County is a financially secure community that enjoys a breadth of quality governmental and school services. Beyond world-famous sites and attractions in the nation's capital, and located just across the Potomac River, Arlington is a lively hub of commerce, culture, recreation and tourism, supported by one of the most diverse, educated and affluent populations in the world. In addition, the County contains substantial office, residential, and rental development that serves to diversify its property tax base. The outlook for the Arlington economy is stable, in spite of a recession nationally and regionally. Arlington's economy is outperforming national and regional averages, as evidenced by key metrics related to office demand, retail sales, and tourism all showing stable or improved levels over the past two years. Arlington's 2010 tax base is approximately divided between 43% commercial and 57% residential properties, enabling the County to maintain a competitive property tax rate in the Washington DC region. In 2010, the tax rate was \$0.958 per \$100 of assessed value. Assessed valuation of real property has decreased 7.2% this year, due to decreases in both residential assessments and commercial sectors. CY 2010 assessments represent the first year-over-year decrease in the tax base since 1995.

The Arlington blend of urban sophistication and neighborhood charm is unmatched in the region. High-rises, national and regional corporate and association headquarters, bustling Metro stations, upscale hotels, a dynamic and diverse retail sector, a diverse cultural scene, an exciting nightlife with more than six million square feet of retail space, over 500 restaurants and live theaters make Arlington a premier place to live, work, play and stay. Arlington is the epitome of smart growth and new urbanism. Since 1960, some thirty-eight million (38M) square feet of office and commercial space has been built in the Rosslyn-Ballston or Jefferson Davis corridors, which also contain ninety percent (90%) of Arlington's over 10,000 hotel rooms. This excludes federally owned office buildings such as the Pentagon, which is the headquarters of the U.S. Department of Defense. In addition, more than 7,000 new residential units have been delivered in the past three years and over 1,000 remain under construction. No community in America has had a stronger commitment to transit-oriented development. In the 2nd quarter of 2010, the County's office vacancy rate was 8.6%. The residential unemployment is very low, averaging 4.4% for FY 2010, below regional, state, and national averages. Arlington's per capita income and property wealth indicators are among the highest in the nation.

In July 2010, the County's outstanding financial management, solid reserve levels, controlled expenditure growth and significant steps taken to reduce the County's total liability for post-retirement benefits were cited as reasons Standard and Poor's, Moody's, and Fitch's Investor Services reaffirmed the County's top AAA/Aaa/AAA ratings. AAA/Aaa/AAA rating validates that Arlington's financial position is strong, with ample liquidity, sound general fund reserves, a competitive tax structure, and excellent financial planning. The continued growth of high wage jobs in the technology, research and financial services sectors, high per-capita retail sales and strong operating reserves serve to establish Arlington County, as of June 30, 2010, as only one of 35 counties in the United States with top bond ratings from all three major bondrating agencies.

#### **Long-Term Financial Planning**

The Arlington Vision adopted by the Arlington County Board in 2001, provides the overarching framework for our strategic and operational decision making. The vision provides the continuity necessary to execute both short and long-term policy and resource The annual budget serves as Arlington's annual operations plan. Multi-year strategies are incorporated into a Management Plan, which supports the Board's vision and is updated annually. Five core themes are contained in the 2010 Management Plan that support the Board's vision:

#### **Arlington Vision**

"Arlington will be a diverse and inclusive world-class urban community with secure, attractive residential and commercial neighborhoods where people unite to form a caring, learning, participating, sustainable community in which each person is important."

- Arlington County Board

Economic Sustainability

- Social Safety Net
- Capital Program
- Environmental Sustainability
- **Employer of Choice**

The budget adopted by the County Board for fiscal year 2011, despite a reduction in some services, protects our core values – maintaining fiscal prudence and sustainability while promoting a safe and diverse community that cares for those in need and rewards and preserve the workforce. The General Fund budget increase is the second smallest in the past 25 years, a 1.0% increase from FY 2010, with no new programs supported by local tax revenues. The approved budget includes a combination of program reductions and revenue increases as well as increased the level of operating reserves and set aside a stabilization fund to address the continuing economic uncertainties in the upcoming fiscal year. The approved budget includes \$13.7 million in budget reductions on top of the \$19.8 million in FY 2010 reductions. The FY 2011 adopted budget represents a sustainable balance between responsible taxation and fee policies, and strategic investment in the community for today and the future. By maintaining core services and enhancing the safety net, the adopted budget demonstrates that Arlington's economy remains strong, even as the country struggles towards economic recovery.

#### Taxes and Fees

The budget is the single most important policy document that a governing body enacts annually. Obviously, the budget has to be "balanced" fiscally. The Arlington County Board works equally hard to adopt a budget that also is balanced in policies, programs and values. It is committed to a diverse community, which means diverse needs and interests. The Board approved a CY 2010 real estate tax rate of \$0.945 cents per hundred dollars of assessed value, an 8.0 cent increase over CY 2009. In addition, the stormwater tax rate was increased 0.3 cents, from \$0.01 to \$.013, for a combined tax rate of \$0.958 cents. Arlington remains one of the best values for the dollar among local jurisdictions and Fairfax City is the only jurisdiction in Northern Virginia with a tax rate lower than Arlington.

A greater share of the tax burden is carried by the commercial sector, relative to homeowners, than any of its neighbors. This is the fiscal benefit of "smart growth." Because of the assessment method used for automobiles, it also has one of the lowest effective personal property tax rates. Consistent with past practice, the County Board approved increased fees for programs that are self-supporting, including solid waste collection and recycling, water and sewer services, permit and other fees associated with the Community Planning and Housing Development (CPHD) Development Fund. Fees were also raised for a variety of parks and recreation programs.

#### **Protecting the Most Vulnerable**

The FY 2011 adopted budget increased spending \$1.4 million for safety net programs to help residents most severely hurt by the economy. The increase meets the demand for essentials such as food and housing assistance. Funds that had been used for homeowner grants were redirected to enhance rental assistance to those most in need. The FY 2011 budget also added \$1 million in additional funds to the Affordable Housing Investment Fund.

#### **Education**

Like most local governments, Arlington's largest single expenditure is for schools. The public school system represents more than a third of total general fund spending, and accounts for almost half of local tax dollars. The transfer amount is based on the revenue sharing agreement for allocating County taxes between the County and the Schools. For FY 2011, the Schools will receive 49.1% of the local tax revenues included in the formula, which remains flat from FY 2009. The County's total funding transfer to the Schools increases 2.3% in FY 2011, fully funding an increase in School enrollment. The County is proud of the continuing accomplishments of its students and schools. Achievement has been rising for all student groups, while the achievement gap has narrowed. While SAT participation rates remained essentially flat from 2009 to 2010, Arlington experienced marked increases in SAT test averages over the same time frame and continues to outpace state and national averages. In addition, Standard of Learning pass rates have increased, and more students are taking advanced classes. In June 2010, Newsweek's annual ranking of high schools places all four Arlington Public Schools high schools in the top one-half percent of high schools in the United States. Arlington's commitment to schools is especially significant given that this County gets less help than other jurisdictions; under the state funding formula, less than 20% of School funding comes from sources other than local taxes. In Prince William County, for instance, more than half the cost of schools is paid by the state, while Arlington pays over 80 percent of the cost of educating our students.

#### **Internal Control and Budgetary Accounting**

The County's management team is responsible for designing, implementing and monitoring internal controls to protect the assets of the government from loss, theft or misuse and to ensure the financial statements are prepared in conformity with generally accepted accounting principals. Internal controls are intended to provide reasonable, but not absolute, assurance that

these objectives are met. The concept of reasonable assurance recognizes that the costs of controls should not exceed the benefits that are expected from the controls.

The annual fiscal year budget serves as the annual operating plan, and is one of the three major strategic documents in the County regarding planning, in conjunction with the Annual Management Plan and the County Comprehensive Plan. Annual appropriations are adopted for the General, Utilities, Special Revenue and Internal Service Funds. Appropriations are controlled at the department level. Management can transfer funds within a department's budget as long as the total departmental appropriation is not changed without approval from the County Board. The County Board must approve changes to adopted appropriation levels. These changes can be in the form of allocations from previously established contingent accounts, appropriations from new or additional revenues, especially grants from the state or federal government, and from reappropriations from a previous fiscal year.

A six-year capital improvement program is developed and approved separately from the operating budget. The School Board prepares a separate operations budget, supported to a large degree by transfers from the County General Fund.

In the FY 2010 budget, the County Board approved the establishment of a \$10 million Budget Stabilization Fund, to be used if needed due to unanticipated economic deterioration, impacts from budget reductions and additional safety net requirements. The Budget Stabilization Fund was used in FY 2010 to cover State reductions for public safety, revenue shortfalls, and expenses associated with the voluntary separation program. In the FY 2011 budget, the County Board approved a mix of \$2.3 million of one-time funding and \$1.1 million in ongoing funding for a total of \$3.3 million in the Budget Stabilization Fund. In addition, the County Board approved one-time funding to increase the Operating Reserve from 3.25% to 3.5% of the General Fund budget.

#### **Capital Improvement Program**

The County Manager biennially submits a six year Capital Improvement Program (CIP) to the County Board. The CIP addresses all known facility and infrastructure needs of the County, including the needs of the Arlington County Public Schools. The CIP includes a detailed description of each capital project, identifying every source of funding, including pay-as-you-go (PAYG), bond financing, and master lease financing. The source of funding is largely determined based on the useful life of the project. Bond-funded projects typically have a useful life at least as long as the period over which the bonds will be repaid (generally twenty years). Master lease-financed projects generally have useful lives of three to ten years and typically include furniture, equipment, rolling stock and technology purchases. PAYG funds provide greater flexibility and are appropriated annually from general fund revenues. Each project budget identifies the financial impact on the operating budget, if any. The County balances the use of debt financing sources against the ability to utilize PAYG funding for capital projects. While major capital facility projects will generally be funded through bonds, the County attempts to maintain an appropriate balance of PAYG vs. debt, particularly in light of the County's debt capacity and analysis of maintenance capital needs. As part of each biennial CIP process, the County conducts a comprehensive assessment of its maintenance capital needs. The CIP includes an analysis of the impact the CIP has on the County's debt capacity, debt ratios and long-term financial plan.

On June 15, 2010 the Arlington County Board adopted a Capital Improvement Program (CIP) for fiscal year 2011 to 2016, totaling \$1.2 billion for the County and Arlington Public Schools. Highlights include:

- Continued planning and development for the Long Bridge aquatics and fitness center.
- Columbia Pike streetcar and redevelopment of the corridor.
- Street redevelopment and transit initiatives in Crystal City.
- Separate allocations for Park Land Acquisition & Open Space and Facilities Infrastructure & Land Acquisition. Strong
  commitment to Metro in the six-year plan, with \$85.8 million in new funding (plus \$35.8 million in previously
  authorized bond funding and existing state aid) budgeted for the agency's capital needs between FY 2011 and FY 2016.
- Full funding of the CIP adopted by the School Board, including Wakefield High School.
- Focus on maintaining existing infrastructure, facilities, and technology.

#### **Debt Management**

The County prudently uses debt instruments, including general obligation bonds, revenue bonds, industrial development authority (IDA) revenue bonds, and master lease financing in order to provide re-investment in public infrastructure and to

meet other public purposes, including inter-generational tax equity in capital investment. The County adheres to the following debt affordability criteria (excluding overlapping and self-supporting debt).

- 1. The ratio of net tax-supported debt service to general expenditures should not exceed ten percent, within the six-year projection.
- 2. The ratio of net tax-supported debt to full market value should not exceed four percent, within the six-year projection.
- 3. The ratio of net tax-supported debt to income should not exceed six percent, within the six-year projection.
- 4. Growth in debt service should be sustainable consistent with the projected growth of revenues. Debt service growth over the six year projection should not exceed the average ten year historical revenue growth.
- 5. The term and amortization structure of County debt will be based on an analysis of the useful life of the asset(s) being financed and the variability of the supporting revenue stream. The County will attempt to maximize the rapidity of principal repayment where possible. In no case will debt maturity exceed the useful life of the project.
- 6. The County will refund debt when it is in the best financial interest of the County to do so. When a refunding is undertaken to generate interest rate cost savings, the minimum aggregate present value savings will be three percent of the refunded bond principal amount.

#### **Cash Management Policies and Practices**

The Treasurer's Office pools substantially all cash and investments for County and School purposes (County funds) in pooled and separate cash and investment accounts. Separate accounts correspond with specific contractual and/or legal restrictions. Each Fund's equity share of the total pooled cash and investments is included on the accompanying balance sheet under the caption "Equity in Pooled Cash and Investments". The Treasurer conducts banking and investment activities as authorized by The Code of Virginia, Chapter 44 – Security for Public Deposits Act; Chapter 45 – Investment of Public Funds Act; Chapter 46— Local Government Investment Pool Act; and Chapter 47 – Government Non-Arbitrage Investment Act. The Code of Virginia delineates additional authority and obligations of the Treasurer in 58.1-3123 through 58.1-3172.1. In addition, the County Treasurer has a formal, written investment policy which further governs the types of allowable investments and procedures for investing the county's operating funds. The Investment Policy received a Certification of Excellence from the Association of Public Treasurers of the United States and Canada (APT) in August 2007. The APT Certification is effective for a five year period. The County established a Finance Board pursuant to Code of Virginia Sections 58.1-3151 et. seq.

The Treasurer's investment policy sets forth a number of investment parameters such as investment objectives, asset allocations and maximum maturities. The stated investment objectives, in priority order, are: preservation of principal, liquidity and yield. Pursuant to this policy, the Treasurer does not invest County operating funds and bond proceeds in "derivative" securities, engage in securities lending, or invest in mortgage backed securities guaranteed by the Government National Mortgage Association (GNMA). Further, the Treasurer does not invest in reverse repurchase agreements. The Treasurer's general intent is to place and manage all bond proceeds with and through the State Non-Arbitrage Program (SNAP).

The Pension Trust Fund is also authorized to make investments as deemed appropriate by its Board of Trustees and in compliance with the U.S. Department of Labor regulations. It is required by County ordinance to maintain at least twenty percent of its portfolio in fixed income investments.

Investments in the Pension Trust Fund consist of investment instruments, domestic and international stocks and bonds, U.S. Treasury notes and bonds, and real estate and real estate notes which are held in the County's name by the Fund's Trustee who serves as the Pension System's agent. Temporary investment funds on deposit with financial institutions were fully insured by the Federal Deposit Insurance Corporation up to \$250,000 for each Retirement System participant. Investments are recorded at fair value based on quoted closing market prices except for real estate funds reported in the Pension Trust Fund. For alternative investments, which include real estate investments, where no readily ascertainable market value exists, management, in consultation with the general partner and investment advisors, has determined the fair values for individual investments based upon the partnership's most recent available financial information. In accordance with its adopted investment policy, the Retirement System has invested in foreign currency forward contracts, which are valued at fair market value, as a risk management tool.

All interest earned on cash and investments pooled by the County is recorded in the County's General Fund as legally allowed, except for separate cash and investments accounts or funds legally entitled to interest earned.

#### **Risk Management and Reserves**

The County is exposed to various risks of loss relative to property, liability, revenue and personnel. The systematic identification and analysis of exposures to risk, implementation of risk control and loss mitigation techniques, and utilization of appropriate risk financing alternatives encompasses the management of these risks. It is the general philosophy of the County to retain risks internally up to economically prudent retention levels and account for necessary claim settlements in the General Fund. For excess exposure levels, specialized exposures and where commercial insurance is available at cost-effective premiums, the County will transfer some risk to commercial insurance carriers through the purchase of insurance policies, while maintaining the integrity of the County's strategic self-insurance objectives. The major self-insurance programs are workers' compensation, employees' health insurance, and the self-insured retention portion of general, automobile, and public officials' liability. For each major self-insurance program the County uses the professional services of a third-party administrator to adjudicate claims and recommend appropriate reserves for outstanding claims. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The amount of settlement did not exceed the insurance coverage for each of the last three years.

In addition, the County has designated a General Fund balance self-insurance reserve of \$5.0 million as of June 30, 2010. The County also maintains a General Fund operating reserve that totaled \$35.1 million as of June 30, 2010. Since its establishment in FY 1986, this operating reserve has not been used, but has been increased steadily. By adopted County Board policy, the operating reserve, previously set at two percent of the General Fund budget, is now at least 3.75 percent with a goal of increasing to five percent of the General Fund budget.

#### **Pension Benefits**

The County participates in two separate pension systems. The Virginia Retirement System (VRS) covers most School Board employees and some County employees affiliated with State agencies. VRS is administered by the State, which bills the County for a portion of the employer's share of contributions. The Arlington County Employee's Supplemental Retirement System ("the System") covers all other County employees. The Arlington County Code requires the System to have an actuarial valuation at least biennially. For the year ended June 30, 2010, the County's annual pension cost of \$42.9 million equaled 100% of the required contributions due.

#### **Other Post-employment Benefits (OPEB)**

In addition to the pension benefits described above, the County provides post-employment health care benefits to all permanent employees who meet the requirements under the County's or the State's pension plans. Eligibility is contingent upon the retiree being eligible for one of the County's current health plans at the time of retirement. The County Board considers and approves these benefits annually as part of the Adopted Budget process. As of June 30, 2010, 1,496, and 1,650 retirees were both eligible and received benefits from the health and life plans, respectively. Funding for these benefits is made on a pay-as-you-go basis.

In June 2004, the Government Accounting Standards Board (GASB) issued Statement Number 45, Accounting and Financial Reporting by Employers for Post Employment Benefits Other Than Pensions. The County, beginning in fiscal year 2008, accounted for and reported in its financial statements the cost of Other Post Employment Benefits (OPEB) – health insurance, life insurance and other non-pension benefits provided to its retirees. GASB 45 required that the cost of our OPEB commitments be accounted for and reported in the same manner as pensions.

In an actuarial analysis dated June 30, 2010, the County's actuary estimated an OPEB liability of \$199.5 million (for the Fiscal Year ending June 30, 2010) with an Annual OPEB Cost (AOC) of \$16.7 million and a net OPEB obligation of \$0.3 million. The County Budget for FY 2011 fully funds the AOC.

In an actuarial analysis dated, June 30, 2010 the Schools' actuary estimated an OPEB liability of \$98.7 million (for Fiscal Year ending June 30, 2010) with an AOC of \$9.4 million and a net OPEB liability of \$18.6 million. In addition the Schools have a \$0.7 million health care reserve which will be contributed to the OPEB trust in FY 2011 if not needed for other purposes. The Schools' Budget for FY 2011 fully funds the AOC.

Both the County and Schools will receive annual actuarial updates and continue to monitor health care costs and consider additional plan design changes if necessary.

#### **Annual Disclosure**

As required by the U.S. Securities and Exchange Commission Rule 15c2-12, the County has agreed, for the benefit of the owners of County bonds, to provide to Electronic Municipal Market Access (EMMA) system operated by the Municipal Securities Rulemaking Board (MSRB) and to any appropriate state information depository ("SID"), if any is hereafter created, certain financial information (the "Annual Report") not later than 270 days after the end of each of its fiscal years, commencing with the fiscal year ending June 20, 1996. The financial information which the County has agreed to annually provide includes "Debt Statement", "Total General Obligation Debt Service", "Ten-Year Summary of General Fund Revenues and Expenditures", "General Fund Balance", "Principal Tax Revenues by Source", "Property Tax Levies and Collections", "Historical Assessed Valuation", "Local Sales Tax Revenue", "Business and Professional License Tax Revenues", "Description of County's Wastewater and Water Systems", "Debt Payable From or Secured By County's Wastewater and Water Systems", "Financial Information and Operating Data for the Utilities Enterprise Fund, as of the Preceding Fiscal Year, including Description of Revenues and Expenses, Largest Users, Summary of Rates and Fees, and a Historical Summary of Debt Service Coverage". These are included as Exhibit S-3 and Notes to the Financial Statements #9, Table I, Table I-1, Table J-1, Table D, Table D-1, Table D-2, Table C, Table E, Table H, Table F, Exhibits S-8, S-9, and G-2, Table S, Table V, Table J-2, Exhibit D-1, D-2, and D-3, and Table U. The Virginia Resources Authority requires certain additional financial information to be disclosed annually. The financial information which the County has agreed to provide annually includes "Certificate of No Default signed by the Finance Director", "Certificate of Consulting Engineer", "Evidence of Comprehensive General Liability Insurance". These are included in Tables Q, T and W.

#### **Awards**

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to Arlington County, Virginia for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2009.

The GFOA presented the Award for Distinguished Budget Presentation to Arlington County, Virginia for its FY 2011 budget. This award is the highest form of recognition in governmental budgeting.

The School Board's Adopted FY 2010 Budget received the Government Finance Officers Association Distinguished Budget Presentation Award for the seventh year in a row as well the Association for School Business Officials International Meritorious Budget Award for the first time.

#### **County Acknowledgements**

The County continues to maintain a strong financial position through responsible and progressive management of financial operations, by thorough bond official statement disclosure practice, and sound accounting and financial reporting practices. We strongly support the efforts of the Auditor of Public Accounts of the Commonwealth of Virginia, the Governmental Accounting Standards Board, and the Government Finance Officers Association of the United States and Canada to improve accounting and financial reporting standards. The implementation of standards provides, in the County's opinion, a sound framework for a truly "comprehensive" annual financial report. The preparation of this Comprehensive Annual Financial Report was made possible by the efficient and dedicated services of the staff of the Department of Management and Finance. In addition, this report could not have been completed without the active participation of the Treasurer's Office, the Office of the Assistant Superintendent of Finance in the Arlington Public Schools, the County Attorney's Office, the Commissioner of Revenue's Office, and the staff of the County's Retirement Office.

We would like to express our sincere thanks to the staff of the Department of Management and Finance, and to all others who have contributed to the preparation of this report.

Respectfully submitted,

Michelle G. Cowan, Director

Department of Management and Finance

Barbara A. Wiley, Comptroller

Department of Management and Finance

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

# Arlington County Virginia

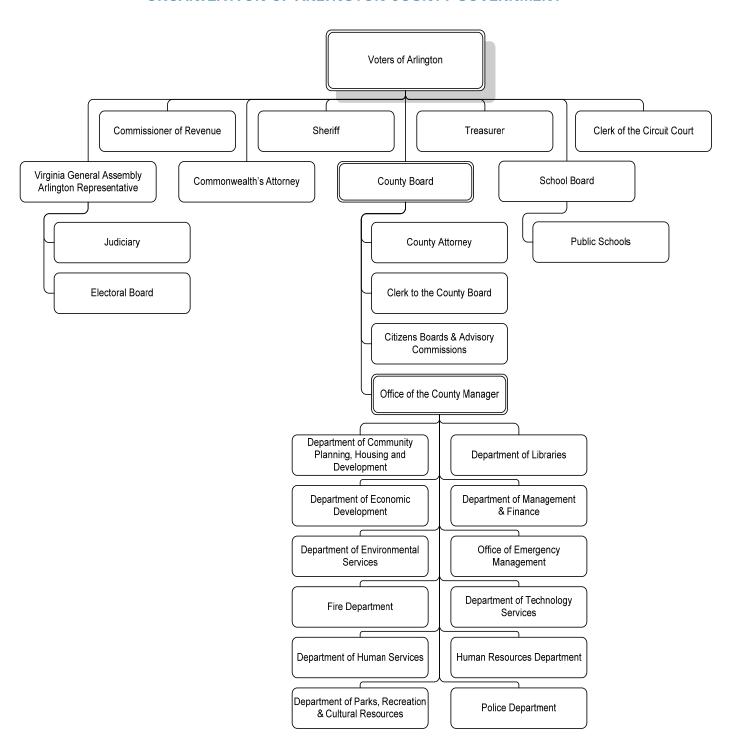

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

# Independent Auditor's Report

The County's financial statements and accounting systems are audited each fiscal year by an independent public accounting firm. The audits are conducted in accordance with generally accepted auditing standards, governmental auditing standards and the "single audit" concept applicable to Federally Assisted Programs.

The independent auditor's report on the County's financial statements is contained in this section. The reports required under the "single audit" concept are included in the Federal Grant Activity section of this report, entitled "FEDERALLY ASSISTED PROGRAMS:

#### **Independent Auditor's Report**

The Honorable Members of the County Board Arlington County, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Arlington County, Virginia (the County), as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Gates Partnership discretely presented component unit. These financial statements were audited by other auditors whose report thereon dated March 31, 2010, has been furnished to us, and our opinion on the basic financial statements, insofar as it relates to the amounts included for this discretely presented component unit, is based solely on the reports of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditor provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditor, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof, and the respective budgetary comparison for the general fund, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2010 on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying supplementary information, such as the introductory section, other supplementary information, as listed in the table of contents, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying other supplementary information has been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, in our opinion, based on our audit, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Arlington, Virginia October 28, 2010

Clifton Gunderson LLP

The Management's Discussion and Analysis (MD&A) is intended to provide the narrative introduction and overview that users need to interpret the Basic Financial Statements. MD&A also provides analysis of some key data presented in the Basic Financial Statements.

#### **Management's Discussion and Analysis**

As management of Arlington County, Virginia ("the County"), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County and its component units-Schools, and Gates Partnership for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on page 1 of this report. All amounts, unless otherwise indicated, are expressed in millions of dollars.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. The government-wide financial statements include not only the County itself (known as the primary government), but also its component units, a legally separate school system ("Schools") for which the County is financially accountable and Gates Partnership for which the County has the ability to impose will and fiscal dependency. Financial information for these component units is reported in separate columns from the financial information presented for the primary government itself.

The statement of net assets presents information on all of the primary government's and its component units' assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Government-wide financial statements distinguish functions of the County and Schools that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County and Schools include: public safety (police and fire protection), judicial (courts, prosecuting offices and detention center), health, welfare and social services, public improvements, streets and highways, community planning and development, libraries, parks and recreation, education and general administrative services. The business-type activities of the County include the water and sewer functions, the public parking garage operation, and planning and zoning.

The government-wide financial statements can found in Exhibits 1 and Exhibits 2, and Exhibits 6 through 10 of this report.

**Fund financial statements**. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County and Schools, like other state and local governments, use fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County and Schools can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement

of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains 18 individual governmental funds which are presented as 16 individual funds in the fund statements; the Schools maintain 8 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and general capital projects fund, which are considered to be major funds. Data from the 18 County governmental funds are combined into a single, aggregated presentation; data from the Schools 8 governmental funds are combined into a single, aggregated presentation as a component-unit, a presentation mandated by state law. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in the report. The County adopts an annual appropriated budget for its general fund and special revenue funds, including Schools. Budgetary comparison statements have been provided for these funds to demonstrate compliance with this budget.

The governmental fund financial statements can be found in Exhibit 3, Exhibit 3(A), Exhibit 4, Exhibit 5, Exhibit A-1 through Exhibit C-2, Exhibit G-1 through Exhibit G-3, Exhibit X and Exhibit Y of this report.

**Proprietary funds**. The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its water and sewer operations, its public parking garage operations, including the Eighth-Level Ballston Public Parking Garage, the Community Planning Housing Development (CPHD) Development Fund and for the Trade Center, George Mason University, Enterprise Resource Planning and Emergency Communication Center Projects. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its fleet of vehicles, for its printing operation, and for its jail industries function. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer operations and public parking garage operations, including the Eighth-Level Ballston Public Parking Garage, the CPHD Development Fund and the Trade Center, George Mason University, Enterprise Resource Planning and Emergency Communications Projects. The water and sewer operations and public parking garage and Emergency Communication Center are considered to be major funds of the County. Conversely, the three internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found in Exhibits 6, 7, 8 and Exhibit D-1 through Exhibit E-3 of this report.

**Fiduciary funds**. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those are not available to support the County's own programs. The OPEB trust funds are used to account for the assets held in trust by the County and Schools for other post employment benefits. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found in Exhibits 9 and 10, Exhibit F-1 through Exhibit F-4 and Exhibit G-4 and Exhibit G-5 of this report.

**Notes to the financial statements**. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found in the section titled "NOTES TO THE FINANCIAL STATEMENTS" of this report.

#### **Statement of Net Assets**

The following table (Table A-1) reflects the condensed statement of net assets for FY2010 and FY2009:

# Table A-1 Condensed Net Assets June 30, 2010 With Comparative Totals for June 30, 2009 (in millions of dollars)

Note: Totals may not add due to rounding.

#### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of government's financial position. In the case of the governmental activities, assets exceeded liabilities by \$472.6 and in the case of the business-type activities, assets exceeded liabilities by \$611.7 for a primary government total of \$1,084.3 at the close of the most recent fiscal year. In the case of the Schools, assets exceeded liabilities by \$358.3, and in the case of the Gates Partnership, assets exceeded liabilities by \$27.3.

By far the largest portion of the primary government's, Schools', Gates Partnership's net assets (85.0%) reflects the investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The primary government and Schools use these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the primary government's, and Schools' investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the primary government's and Schools' net assets, (11.0%) represents resources that are subject to external restrictions on how they may be used. Any remaining net assets are classified as "Unrestricted net assets".

In Virginia, state law provides that a school board is a separate legal entity and has long held that school boards hold title to all school assets. However, whether separately elected or appointed by the governing body, Virginia's local school boards do not have the power to levy and collect taxes or issue debt. Purchases of school equipment, buildings or improvements (fixed assets) to be funded by debt financing require the local government to issue the debt. To accommodate GASB 34, a new state law was passed to allow the County and Schools to consider the debt-financed School assets owned by "tenancy in common" and would permit the County to display these assets in the County column. The County has chosen not to do so. Accordingly, in the government-wide financial statements, the "school debt" is reflected in the governmental activities column of the primary government, although the capital assets are reflected in the "Component-unit Schools" column. The final "Total" column, which displays the "Unrestricted capital assets" for the entire government, gives a more complete picture of debt-financed capital assets.

#### **Statement of Changes in Net Assets**

The following table (Table A-2) displays the changes in net assets for FY 2010 and FY 2009:

#### Table A-2 Changes in Net Assets Year Ended June 30, 2010 With Comparative Totals for June 30, 2009

Note: Totals may not add due to rounding.

To summarize, the activities of the primary government and component units increased/(decreased) net assets as follows:

•	Governmental activities	\$58.3	43.2%
•	Business type activities	\$57.3	42.5%
•	Component-unit Schools	\$16.3	12.1%
•	Component-unit Gates Partnership	\$2.9	2.2%
	TOTAL	\$134.8	100.0%

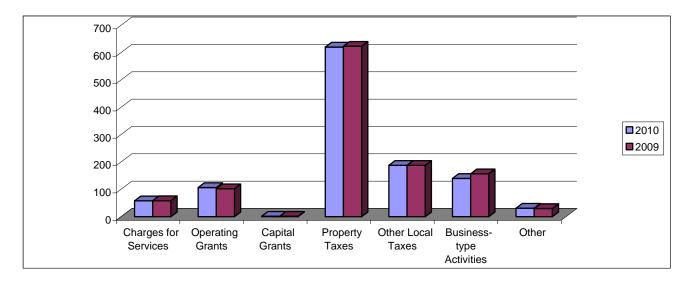

**Revenues.** Revenues for the County's governmental activities were \$1,006.4 for fiscal year 2010. General revenues from governmental activities increased \$1.9, primarily due to a moderate increase in operating grants and contributions and miscellaneous offset by a decrease in property taxes and interest earnings.

Taxes constitute the largest source of County revenues, amounting to \$808.5 for fiscal year 2010, a decrease of \$3.0 over fiscal year 2009. Real estate taxes (\$527.6) increased \$3.8 by the modest increase 2.7 cents in real estate rate but the average household bill will be offset by the decrease in real estate and personal property assessments. Personal property taxes (\$93.0) decreased \$6.8 primarily due to the assessed value of cars (especially SUVs) depreciated greatly from FY 2009 to FY 2010. Declining car values were a result of poor economic conditions, especially high gas prices and tightened credit markets.

The other local taxes revenue category, which includes taxes on business licenses, general sales tax, hotel rooms, restaurant meals, utility purchases, car rentals, cigarettes and other totaled \$187.9 which represents no change from the previous year. Program revenues are derived directly from the program itself and reduce the net cost of the function to the County. Total program revenues from governmental activities were \$166.8. Operating Grants and Contributions represent the most significant of these revenues, totaling \$106.8. Other program revenue categories were Charges for Services, totaling \$58.2 and Capital Grants and Contributions, totaling \$1.8. For additional information and comparative results, see Table A-2.

Business-type activities generated revenues of \$138.9, primarily from charges for services, which totaled \$121.5 The decrease in total revenue of \$18.1 is mainly attributable to \$2.4 in service fees, a reduction in Capital Grants Contributions of \$0.5 and the elimination of a one time \$2.9 operating contribution in the CPHD Development Fund in FY2009. The Utilities, Ballston Public Parking Garage, the 8<sup>th</sup> Level Ballston Public Parking Garage and the IDA Revenue Bonds experienced a decrease in interest income of \$2.2 due to a decrease in interest earnings on bond proceeds.

Chart A-3
Primary Government Sources of Revenue
For Fiscal Years 2010 and 2009
(in millions)

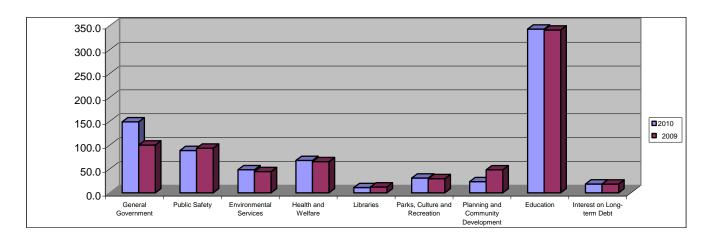

**Expenses.** Total cost of all the County's governmental activities for fiscal year 2010 was \$948.1, representing an increase of \$38.9 from fiscal year 2009. As the chart below indicates, education continues to be the County's largest program. Education expenses totaled \$343.1, an increase of \$2.0 over fiscal year 2009. General government expenses represent the second largest expense, totaling \$195.8 in fiscal year 2010. General government expenses increased \$37.9 over fiscal year 2009 primarily from snow removal costs of more than \$5.0 in FY 2010, increased spending on affordable housing investment funds, \$1.8 increase in employee compensation and an additional of \$6.9 contribution into the OPEB Trust.

Expenses for the County's business-type activities totaled \$81.6 which provided water and sewer utility services, parking operations, planning and zoning services.

The Schools contributed an additional \$4.7 into the Retiree Welfare Benefit Trust in FY2010.

The following (Chart A-4) displays the net costs of the governmental activities:

For Fiscal Years 2010 and 2009
(in millions of dollars)

#### Financial Analysis of the Government's Funds

As noted earlier, the County and Schools use fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's and Schools governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the County's and Schools financial requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$291.5, an increase of \$28.0 in comparison with the prior year. Approximately, 49% of this total amount (\$142.8) constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period (\$32.6), 2) to build facilities from general obligation bond proceeds and PAYGO monies (\$116.2).

The general fund is a major governmental fund of the County. At the end of the current fiscal year, unreserved fund balance of the general fund was \$136.9 while total fund balance reached \$137.0. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total expenditures. In FY2010, both unreserved fund balance and total fund balance represents 14.4% of total general fund expenditures.

The fund balance of the County's general fund decreased by \$1.4 during the current fiscal year primarily due to a slowdown in the real estate market from the economic downturn.

The general capital projects fund is another major fund of the County. At the end of the current fiscal year, there was no unreserved fund balance of the general capital projects fund while total fund balance reached \$43.6. As a measure of the general capital project fund's liquidity, it may be useful to compare total fund balance to total expenditures. Total fund balance represents 73.3% of total general capital project fund expenditures.

The fund balance of the County's general capital projects fund increased by \$22.2 during the current fiscal year. In FY2010, the County spent less funds on capital outlay (\$58.3 in FY10 compared to \$66.5 in FY09).

**Proprietary funds**. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets (deficits) of the Utilities Fund at the end of the year amounted to \$92.9, the Ballston Public Parking Garage Fund amounted to (\$15.6), the Trade Center Fund amounted to (\$3.4), George Mason Fund amounted to (\$0.6), the ERP Fund amounted to (\$3.5), 8<sup>th</sup> Level of the Ballston Public Parking Garage amounted to \$0.6, and the CPHD Development Fund amounted to \$6.4. The total change in net assets of the Utilities Fund was \$57.7, CPHD Development Fund was \$2.4, the 8<sup>th</sup> Level of the Ballston Public Parking Garage Fund was (\$1.6), the Emergency Communications Center Fund was (\$0.1), the Trade Center Fund was (\$0.4), George Mason (\$0.1), and the ERP Fund was (\$0.8) respectively. Other factors concerning the finances of these funds have been addressed in the discussion of the County's business-type activities.

#### **General Fund Budgetary Highlights**

The difference between the original budget and the final budget was \$92.8, consisting of a \$20.1 increase in federal and state grants, other miscellaneous revenue and additional supplemental appropriations from prior year fund balance for variety of projects. Significant changes to appropriation levels include the following:

- \$49.5 million in net increases allocated to Non-departmental for affordable housing from carryover of incomplete
  projects from prior years, loan repayments and funding from the Housing Reserve Fund; and master lease financing,
  contingency funding and employee compensation adjustments as a result of FY 2009 closeout.
- \$5.9 in net increases from grants and seized assets funding to the Police Department, Office of Emergency Management, and Fire department for equipment purchases, training, targeted overtime, and emergency preparedness. This figure also includes an allocation for employee compensation as a result of FY 2009 closeout. The increases were partially offset by a decrease of \$0.5 million in reductions due to the loss of grant funding.
- \$4.0 million net in increases allocated to the Department of Environmental Services for carryover of incomplete projects from prior years, and additional funding relating to commuter services programs, energy efficiency and taxicab data analysis. This figure also includes an allocation for employee compensation as a result of FY 2009 closeout. The increases were partially offset by a decrease of \$0.2 million in reductions due to state budget cuts.
- \$0.4 million net in increases allocated to the Judicial Administration. This includes grant funding relating to domestic violence and gangs, an allocation for employee compensation as a result of FY 2009 closeout, and carryover of incomplete project for prior years for equipment and supplies. These increases are net of a reduction of \$0.6 million due to state budget cuts.
- \$1.1 million in increases allocated to Planning and Community Development from carryover of incomplete projects from prior years for planning and grant-related activities, additional Community Services Block Grant stimulus funding for homelessness prevention, and additional Base Realignment and Closure (BRAC) grant funding. This figure also includes an allocation for employee compensation as a result of FY 2009 closeout.
- \$0.6 million in net increases allocated to the General Government from carryover of incomplete projects from prior years, and an allocation for employee compensation as a result of FY 2009 closeout. The increases were partially offset by a reduction of \$0.2 million due to state budget cuts.
- \$5.6 million net increases allocated to the Department of Human Services through carryover of incomplete projects for prior years as well as new grants for a wide variety of services for persons with mental illness, substance abuse services, emergency assistance, transportation, and employment and health services. This figure also includes an allocation for employee compensation as a result of FY 2009 closeout. These increases are net of a \$0.5 million reduction due to state budget cuts.
- \$1.2 million in net increases allocated to the Department of Parks, Recreation, and Cultural Resources primarily in grant funding for the new cultural center. Grants were also received for meals for summer camp and senior center participants, park preservation, and arts activities. The funding increase also includes the allocation of employee compensation funding resulting from FY 2009 closeout. The increased amount is net of a \$0.3 million reduction due to the transfer of swimming pool operations to the Arlington Public Schools.
- \$24.5 million increase in transfers out to the Schools as a result of FY 2009 closeout.

The difference between the final budget and actuals was \$101.2 which consisted of a \$100.4 favorable expenditure variance partially offset by \$0.8 favorable revenue variance. The favorable expenditure variance consisted of the following:

- \$48.2 favorable in non departmental for the affordable housing investment fund, lease purchase and consultants.
- \$0.9 favorable in Planning and Community Development primarily due to position vacancies.
- \$1.0 favorable in Environmental Services due to expenditure reductions in contracts and consultants.

- \$7.2 favorable in Department of Human Services primarily due to position vacancies, delays in spending grant funds (which will be carried over and expended in FY 2011), and under expenditures in contracts and consultants.
- \$8.0 favorable in Public Safety primarily due to position vacancies, saving in consultants, supplies, equipment and
  under expenditures of seized assets and grant funding which will be carried forward and expended in the next fiscal
  year.
- \$1.4 favorable in Judicial Administration primarily due to position variances, and under expenditures in contracts and court costs.
- \$0.6 favorable in Libraries primarily due to position vacancies and under expenditures in contracts.
- \$33.7 favorable in the schools transfer; unspent balances will be carried over to the next fiscal year for the schools.

Additional information on the County's statement of revenues, expenditures and changes in fund balance budget and actual can be found in Exhibit 5 in Basic Financial Statements of this report.

#### **Capital Asset and Debt Administration**

Capital assets. The County's investment in capital assets for its governmental, business type activities, and component units as of June 30, 2010 amounts to \$2,060.0 (net of accumulated depreciation). This investment in capital assets includes land, building and systems, improvements, machinery and equipment, park facilities, roads, highways, and bridges and intangible assets.

Major capital asset acquisitions during the current fiscal year from the general capital projects fund included the following:

- \$5.5 Parks and Recreation center improvements including athletic fields and courts, field and court lighting, picnic shelters, parking lot/ park entry roadway renovations.
- \$11.6 Government facilities improvements including relocation of the Department of Human Services headquarter.
- \$5.5 Facility maintenance renovation including American with Disabilities Act and continuing the property condition assessment process initiated in FY 2004.
- \$8.1 Information Technology investments including Circuit Court audio and visual, Enterprise Record Management system, PC replacement, network and telephone systems and public safety mobile data computers.
- \$1.0 Contributions capital funding to several regional organizations such as Northern Virginia Regional Park Authority, the Peumansend Creek Regional Jail Authority, Northern Virginia Community College and the Northern Virginia Criminal Justice Academy which provide beneficial services to Arlington residents and visitors.

Other capital assets were constructed using bond funds.

The following table (Table A-5) displays the capital assets:

# Table A-5 Capital Assets June 30, 2010 With Comparative Totals for June 30, 2009 (net of depreciation, in millions of dollars)

Note: Totals may not add due to rounding

Additional information on the County's capital assets can be found in Note 5 in Notes to the Financial Statements of this report.

**Long-term debt.** At the end of the current fiscal year, the primary government and component units had total long-term liabilities outstanding of \$1,273.9. Of this amount, \$1,045.2 comprises bonds, notes payable and related accrued interest and capital leases backed by the full faith and credit of the government.

The remainder of the County's debt (\$228.7) represents bonds secured solely by specified revenue sources (i.e., revenue bonds) (\$157.8), workers compensation reserves (\$4.4) and accrued compensated absences (\$66.5).

The following table (Table A-6) reflects the long-term debt:

# Table A-6 Long-term Debt Outstanding June 30, 2010 With Comparative Totals for June 30, 2009

Note: Totals may not add due to rounding

The County's total debt increased by \$65.4 during the current fiscal year. The key factors in this increase of \$41.3 on IDA Revenue bonds, increase of \$40.3 on VRA note payable and net decrease of \$15.9 on general obligation bonds. The County maintains a "AAA" rating from Standard & Poor's and Fitch Investor Services and a "Aaa" rating from Moody's Investor Service for general obligation debt.

Additional information of the County's long-term debt can be found in Note 9 in Notes to the Financial Statements of this report.

#### **Economic Factors and Next Year's Budgets and Rates**

- The unemployment rate for the County is currently 4.3%, which is a reduction of 0.5% from a year ago. This compares favorably to the Northern Virginia's average unemployment rate of 7.0% and the national average rate of 9.6%.
- The vacancy rate of the County's office buildings increased slightly from 8.5% to 8.6%.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the County's budget for the 2010 fiscal year.

#### **Requests for Information**

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Department of Management and Finance, 2100 Clarendon Boulevard, Suite 501, Arlington, Virginia, 22201, or at www.arlingtonva.us/dmf.

<sup>\*\*</sup> General fund is responsible for bond-financed school capital assets

# **Basic Financial** ARLINGTON Statements

Basic Financial Statements are the core of general-purpose external financial reporting for state and local governments. Basic Financial Statements have three components:

- Government-wide financial statements which include the Statement of Net Assets and the Statement of Activities.
- Fund financial statements which include separate sets of financial statements for governmental funds, proprietary funds and fiduciary funds.
- Notes to the financial statements.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### **NOTE 1. Summary of Significant Accounting Policies**

The accompanying financial statements are prepared in accordance with generally accepted accounting principles ("GAAP") as applied to government units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The government's significant accounting policies are described below.

#### I. Accounting Policies

#### A. The Financial Reporting Entity

Arlington County, Virginia (the "County") is a jurisdiction of the Commonwealth of Virginia and is governed by a five-member County Board. As required by GAAP, these financial statements present the County (primary government) and its component units, the Arlington County Public Schools (the "Schools"), and the AHC Limited Partnership-10/AHC Limited Partnership-11 ("the Gates Partnership"), entities for which the primary government is considered to be financially accountable. As discretely presented component units, the Schools, and Gates Partnership are reported in separate columns in the combined financial statements, to emphasize that they are legally separate from the County.

#### **Discretely Presented Component Units**

Arlington County Public Schools (the "Schools") is a legally separate entity that provides educational services to citizens of the County. It is administered by a five-member School Board that is elected by the citizens. The Schools is fiscally dependent on the County since it is not legally authorized to raise taxes or issue debt. The Auditor of Public Accounts of the Commonwealth of Virginia ("APA") is responsible for all financial reporting by jurisdictions within the Commonwealth. APA has determined that the Schools must be displayed as a discretely presented component unit in all the comprehensive annual financial reports of primary governments in the Commonwealth, which have responsibility for school systems. The Schools does not issue separate component unit financial statements and has a June 30 year-end.

AHC Limited Partnership-10 (AHC-10) and AHC Limited Partnership-11 (AHC-11) (collectively "the Gates Partnership") are legally separate Virginia limited partnerships. AHC-10 is comprised of a managing general partner, the New Gates Corporation; a housing credit limited partner, Wachovia Guaranteed Tax Credit Fund, and a master tenant limited partner AHC-11. AHC-11 is comprised of a managing general partner Gates Housing Corporation and an investor limited partner Wachovia Affordable Housing Community Development Corporation.

Debt (Series 2006) was issued by the Industrial Development Authority of Arlington County, Virginia and the proceeds loaned to the Gates Partnership in order to acquire, rehabilitate, and equip a 464-unit multifamily apartment complex for rental to individuals and families of low-income known as the Gates of Ballston (the Project). The debt is projected to be repaid from the revenues generated by the Project. AHC-10 owns the Project, is the borrower on the debt, and leases the Project to AHC-11 under a master lease agreement; AHC-11 rents the Project units to subtenants, pays all operating expenses, and is responsible for making monthly lease payments to AHC-10. The Gates Partnership also has a mortgage note with the Virginia Housing Development Authority and a promissory note with the County. Subject to appropriation, the County will only be responsible for reimbursement of the debt service payments to the extent that the debt service reserve of the Gates Partnership is insufficient to make the required debt service payments. The County does not hold the corporate powers of the Gates Partnership, does not appoint the principals of the Gates Partnership, and does not have the ability to remove principals at will. Under certain conditions, it does have the ability to modify or approve the Gates Partnership's budget, modify or approve rate or fee changes, and influence decisions about management or operations. It can also approve issuance of bonded debt and govern the Gates Partnership's use of revenues, if these acts would adversely affect the ability of the Gates Partnership to make debt service payments. The criteria of imposition of will and fiscal dependency mandate the inclusion as a discrete component unit.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

Complete financial statements of AHC Limited Partnership-10 and AHC Limited Partnership-11 may be obtained from Arlington Housing Corporation, 2300 Ninth Street, Suite 200, Arlington, Virginia 22204.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities* are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from the legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Governmental Accounting Standards Board Statement No. 34 "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments ("GASB 34") established that the basic financial statements and required supplementary information should consist of the following sections:

- *Management's Discussion and Analysis* (MD&A).
  - MD&A will introduce the basic financial statements and provide an analytical overview of the government's financial activities.
- Basic financial statements. The basic financial statements include:
  - Government-wide financial statements, consisting of a statement of net assets and a statement of activities.
  - Fund financial statements consisting of a series of statements that focus on information about the government's major governmental and enterprise funds, including its blended component units. Fund financial statements also should report information about the government's fiduciary funds and component units that are fiduciary in nature.
  - *Notes to the financial statements* consisting of notes that provide information that is essential to a user's understanding of the basic financial statements.
- Required supplementary information (RSI). In addition to MD&A, this Statement requires budgetary
  comparison schedules to be presented as RSI along with other types of data as required by previous
  GASB pronouncements.

The County has followed the guidance of the Government Finance Officers Association of the United States and Canada ("GFOA") and included the required budgetary comparison for the major governmental fund as Exhibit 5 in the Basic Financial Statements section. It has included the other data required by previous GASB statements in the Notes to the Financial Statements in the Basic Financial Statements. Therefore, the CAFR does not include a separate RSI section.

The government-wide financial statements are reported using the *economic resources measurement focus* and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements with the exception of agency funds which have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 45 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

#### D. Funds

The Funds used by the County and its component units are organized under the following broad categories.

Governmental Fund Types: Governmental Funds are those which are used to account for most general governmental functions of the County and the Schools. The acquisition, use and balances of the County and Schools' expendable financial resources and the related liabilities (except those accounted for in Proprietary Funds) are included in these Funds. The measurement focus of these Funds is based upon determination of, and changes in, financial position rather than upon net income determination. The following are the County's and the Schools' Governmental Fund Types.

The *General Fund* is the government's major governmental fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Revenues derived primarily from property and other local taxes, State and Federal distributions, licenses, permits, charges for services, and interest income are accounted for in this Fund. A significant part of the Fund's revenue is transferred to the Schools to finance their operations, pay-as-you-go capital projects, and debt service requirements.

The *Special Revenue Funds* are used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes. The Funds used for the Schools include the school operating, school cafeteria, school special grants, school debt service, school community activities, and school comprehensive services funds. County travel and tourism promotion, the Rosslyn and Crystal City business improvement districts, community development block grants, and Section 8 housing grants are also accounted for in these funds.

The *Capital Projects Funds* are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). These activities include the General Capital Projects Fund that provides funding for Transportation Infrastructure, Capital Asset Preservation Program (CAPP), Information Technology CAPP, Parks & Recreation CAPP, Neighborhood Conservation (NC) Program, Neighborhood Traffic Calming (NTC) Programs, Stormwater Drainage Infrastructure, and Northern Virginia Transportation Authority (NVTA).

**Proprietary Fund Types**: Proprietary Funds are used to account for County operations which are similar to those often found in the private sector. The measurement focus of these Funds is the determination of net income through matching revenues earned with the expenses incurred to generate such revenues. The operations of such Funds are generally intended to be self-supporting. The following are the County's Proprietary Fund Types.

The *Enterprise Funds* account for the financing of services to the general public where the operating expenses involved are usually recovered in the form of charges to users of such activities. Enterprise Funds consist of the Utilities (water and sewer), the Ballston Public Parking Garage, the Emergency Communications Center, the Trade

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

Center, the George Mason Center, the Enterprise Resource Planning (ERP), the Eighth-Level Ballston Public Parking Garage Funds and the Community Planning Housing Development (CPHD) Development Fund. The Trade Center, the George Mason Center, the ERP, and the Emergency Communications Center and the CPHD Development Fund are considered enterprise funds because the County has made a policy decision to establish charges to recover a portion of the cost of operating these funds.

The government reports the following major proprietary funds:

The *Utilities Fund* accounts for the activities of the water pollution control plant and the water distribution system.

The Ballston Public Parking Garage Fund accounts for the activities of the parking garage operation.

The *Emergency Communications Center* accounts for activities involved in constructing and equipping an emergency operation and emergency communications center.

The Ballston 8<sup>th</sup> Level Parking Garage Fund accounts for the activities of the 8<sup>th</sup> floor of the parking garage operation.

The *CPHD Development Fund* accounts for fee-supported operations of CPHD inspection services and planning divisions.

Additionally, the government reports the following fund types:

*Internal Service Funds* account for fleet management, jail industries, and printing services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis.

**Fiduciary Fund Types**: The Fiduciary Funds account for the assets received and disbursed by the County government acting in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. The County reports the following fiduciary fund types:

The *Private-purpose Trust Funds* are used to account for resources legally held in trust to provide for capital costs of repairs to the waste-to-energy plant and other solid waste purposes, resources used for the construction of IDA Skating facility on the eighth level of the Ballston Public Parking Garage, and funds set aside for various social service programs.

The *Pension Trust Fund* accounts for the activities of the Arlington County Employees' Retirement System, which accumulates resources for pension benefit payments to qualified employees.

The *Other Post-Employment Benefits (OPEB) – County Trust Fund* accounts for the assets held in trust by the County and beneficiaries of its OPEB plan.

The *Agency Funds* account for assets held by the County as an agent for individuals, private organizations, other governmental units and/or funds. The assets include in Agency funds are for Special Welfare Programs in the Department of Human Services, Friends of Library donations, Parks and Recreations donations, Commission Funds reserved for Canteen and Inmates.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Utilities Fund, of the

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

Ballston Public Parking Garage Fund, the Emergency Communications Center Fund, the Trade Center Fund, the George Mason Center Fund, the Enterprise Resource Planning (ERP) Fund, the Eighth-Level Ballston Public Parking Garage Fund, CPHD Development Fund of the government's internal service funds are charges to customers for sales and services. The Utilities Fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### E. Budgets

Budgets are adopted on the modified accrual basis. Annual appropriated budgets are adopted for the General and Special Revenue Funds. All appropriations are legally controlled at the departmental level. The School Board prepares a separate operations budget for approval by the County Board. The proposed budget includes a recommended program of County and School capital expenditures to be financed from current operations. The County Board also approves a separate six-year Capital Improvement Program. The Budget presentation displayed in Exhibit 5 is formatted differently than the governmental fund statements, but the overall ending balance is identical.

#### F. Equity in Pooled Cash and Investments

The Treasurer's Office pools substantially all cash and investments for County and School purposes (County funds) in pooled and separate cash and investment accounts. Separate accounts correspond with specific contractual and/or legal restrictions. Each Fund's equity share of the total pooled cash and investments is included on the accompanying balance sheet under the caption "Equity in Pooled Cash and Investments." The Treasurer conducts banking and investment activities as authorized by The Code of Virginia, Chapter 44 – Security for Public Deposits Act; Chapter 45 – Investment of Public Funds Act; Chapter 46 – Local Government Investment Pool Act; and Chapter 47 – Government Non-Arbitrage Investment Act. The Code of Virginia delineates additional authority and obligations of the Treasurer in 58.1-3123 through 3172.1. In addition, the County Treasurer has a formal, written investment policy which further governs the types of allowable investments and procedures for investing the county's operating funds. The Investment Policy was last updated on June 1, 2009. The Investment Policy received a Certification of Excellence from the Association of Public Treasurers of the United States and Canada in August 2007. The County established a Finance Board pursuant to Code of Virginia Sections 58.1-3151 et. seq.

The Treasurer's investment policy sets forth a number of investment parameters such as investment objectives, asset allocations and maximum maturities. The stated investment objectives, in priority order, are: preservation of principal, liquidity and yield. Pursuant to this policy, the Treasurer does not invest County operating funds and bond proceeds in "derivative" securities, securities lending, or invest in mortgage backed securities guaranteed by the Government National Mortgage Association (GNMA). Further, the Treasurer does not invest in reverse repurchase agreements. The Treasurer's general intent is to place and manage all bond proceeds with and through the State Non-Arbitrage Program (SNAP).

The Pension Trust Fund is also authorized to make investments as deemed appropriate by its Board of Trustees and in compliance with the U.S. Department of Labor regulations. It is required by County ordinance to maintain at least twenty percent of its portfolio in fixed income investments.

Investments in the Pension Trust Fund consist of investment instruments, domestic and international stocks and bonds, U.S. Treasury notes and bonds, and real estate and real estate notes which are held in the County's name by the Fund's Trustee who serves as the Pension System's agent. Temporary investment funds on deposit with financial institutions were fully insured by the Federal Deposit Insurance Corporation up to \$250,000 for each Retirement System participant.

Investments are recorded at fair value based on quoted closing market prices except for real estate funds reported in the Pension Trust Fund. For alternative investments, which include real estate investments, where no readily ascertainable market value exists, management, management in consultation with the general partner and

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

investment advisors, has determined the fair values for individual investments based upon the partnership's most recent available financial information. In accordance with its adopted investment policy, the Retirement System has invested in foreign currency forward contracts, which are valued at fair market value, as a risk management tool. All interest earned on cash and investments pooled by the County is recorded in the County's General Fund as legally allowed, except for separate cash and investments accounts or funds legally entitled to interest earned.

#### G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from primary government", "due to/from component unit" or "due to/from other funds" (i.e., the current portion of interfund loans to the schools or primary government) or "advances to/from other funds" (i.e., the non-current portion of the interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

"Accounts receivable, net" for the Utilities Fund includes water and sewer services used by customers, but not yet billed. Unbilled revenues are estimated based on the billing cycles of each customer.

All taxes, assessments, service charges and other receivables are shown net of an allowance for uncollectibles. The County's allowance for uncollectible receivables is based upon historic non-collection percentages.

#### H. Inventories and Prepaid Items

Inventories are valued at cost, which approximates market, using the first-in first-out method for inventories in the Utilities and Schools Funds. Inventories acquired by the Utilities Fund and the Automotive Equipment Fund are accounted for using the consumption method. Under this method, inventories are expensed as they are consumed as operating supplies and spare parts in the period to which they apply. Inventories in the School Cafeteria Fund are accounted for using the purchase method. Under this method, the cost is recorded as an expenditure at the time individual items are purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets for both primary government and component unit Schools are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. For infrastructure capital assets, this maintenance is carried in the General Capital Projects (Pay-Go) Fund. Additions to infrastructure capital assets are provided by capital outlays from the Street and Highway bond funds. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment assets of the primary government, as well as of the component unit Schools is depreciated using the straight line method over the following estimated useful lives:

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

Assets	Years
Water/sewer system	75
Parking garage	45
Infrastructure	40
Building/improvements	40
Furniture and fixtures	10
Other capital assets	3-20

Intangible assets, which include computer software purchased or internally generated, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Intangible assets for both primary government and component unit Schools are defined by the government as assets with an initial, individual cost of more than \$50,000 (amount not rounded) and an estimated useful life in excess of one year. Subsequent additions, modifications or upgrades to computer software are capitalized only to the extent that they allow the software to perform a task it previously did not perform. Software maintenance and training costs are expensed in the period in which they are incurred. Interest incurred during the development of intangible assets of business-type activities is included as part of the capitalized value of the assets developed. Capitalized computer software costs are amortized using the straight line method over a period of 5 years.

#### K. Compensated Absences

County employees are granted vacation leave based upon length of employment; a total of 35 days of vacation may be carried over from one year to the next. Teachers do not earn vacation leave. Compensatory leave is granted to some County employees for overtime work on an hour-to-hour basis; no more than 80 hours of compensatory leave may be carried over from one year to the next. The County and the Schools do not place a maximum limitation on the accumulation of sick leave, which may be carried over from one year to the next. Compensatory leave is vested, while sick leave vests under certain limited circumstances.

Accumulated vested unpaid compensated absences for the County and the Schools in both the government-wide and the Proprietary Funds are recorded as an expense and liability of General Fund, Travel and Tourism, Community Development Grant, the Section 8 Housing, Capital Project Funds, Stormwater Fund, Public Recreation Bond Fund, Internal Service Funds, Utilities Fund, CPHD Development Fund, and Schools as the benefits accrue to employees.

#### L. Arbitrage Rebate Liability

The U.S. Treasury has issued regulations on calculating the rebate due the Federal government on arbitrage profits and determining compliance with the arbitrage rebate provisions of the Tax Reform Act of 1986. Arbitrage profits arise when the County temporarily invests the proceeds of tax exempt debt in securities with higher yields. The County treats the estimated rebate payable as a reduction of available financial resources in the fund that earned the arbitrage profit. Accordingly, interest earnings are reduced by the amount of the increase in the estimated rebate payable and a liability is reported in the appropriate fund. At June 30, 2010, the County had an arbitrage rebate liability of \$1,635,210.

#### M. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### N. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

#### O. Comparative data/reclassifications

Comparative total data for the prior year have been presented in the accompanying combining other supplemental information of the financial statements in order to provide an understanding of changes in the government's financial position and operations. However, comparative data have not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand. Certain FY 2009 amounts have been reclassified to conform to the FY 2010 presentation.

#### P. Cash and Cash Equivalents

For Statement of Cash Flows reporting purposes, cash and cash equivalents include cash on hand, demand deposits, equity in highly liquid cash and investments pools, certificates of deposit, repurchase agreements and commercial paper with maturities at time of purchase of three months or less.

#### Q. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes. Actual results could differ from those estimates.

#### R. Implementation of New GASB Pronouncement

The County adopted in FY 2010 a new statement issued by the Governmental Accounting Standard Board ("GASB"): GASB Statement No. 51 ("GASB 51") Accounting and Financial Reporting for Intangible Assets. As stated in GASB 51, this Statement establishes standards for the accounting and financial reporting for intangible assets. GASB 51 requires intangible assets be classified as capital assets and should be recognized in the statement of net assets. GASB 51 also establishes guidance related to the amortization of intangible assets.

The requirements of GASB 51 became effective for fiscal periods after June 15, 2009. The financial reporting impact resulting from the implementation of GASB 51 in FY 2010 was the recognition of intangible assets of \$1,537,651 in the statement of net assets (see Note 5). Since implementing GASB Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, the County has recognized intangible assets as capital assets.

In June 2008, the Government Accounting Standards Board issued Statement No. 53: Accounting and Financial Reporting for Derivative Instruments (GASB 53). The statement established standards for recognizing, measuring and disclosing information regarding derivative instruments entered into by state and local governments. A key tenet of GASB 53 is that derivative instruments be reported on the financial statements at fair value. The requirements of the new Statement became effective for fiscal periods after June 15, 2009. The County and the

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

System adopted GASB 53 during the year ended June 30, 2010. The implementation of this new standard had no impact on the County's or the System's fiscal year 2010 financial statements.

#### II. Reconciliation of Government-wide and Fund Financial Statements

# A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$(714,141,560) difference as follows:

General obligation bonds - general government	\$(306,859,109)
General obligation bonds - Schools	(259,576,015)
Compensated absences - general government	(30,477,799)
Worker's compensation - general government	(4,440,687)
Capital leases - general government	(20,556,593)
Bond issue costs and deferred amount on refunding, net	953,084
Current year Bond premium to be amortized – County	(8,691,590)
Current year Bond premium to be amortized – Schools	(7,546,752)
IDA – Metro and Buckingham Village 1	(41,280,000)
IDA – Buckingham Village 3 Note	(35,666,099)
Net adjustment to reduce fund balance - total governmental funds to arrive at net	
assets of governmental activities	\$(714,141,560)

# B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances – total governmental funds* and changes in *net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets." The details of this \$(66,389,001) difference are as follows:

Capital acquisitions	\$86,792,008
Depreciation expense	(20,403,007)
Net adjustment to increase <i>net changes in fund balances</i> - total governmental funds	
to arrive at changes in net assets of governmental activities	\$66,389,001

Another element of the reconciliation states that "Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds". The details of this difference are as follows:

Deferred property tax revenue 6/30/10	\$265,288,518
Deferred property tax revenue 6/30/09	265,947,173
Net adjustment to decrease net changes in fund balances – total governmental funds	_
arrive at changes in net assets of governmental activities	\$(658,655)

Another element of that reconciliation states that "Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets". The details of this \$(35,425,027) difference are as follows:

Debt issued or incurred:

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### **NOTE 2. Legal Compliance**

The County Manager's proposed budget for the following fiscal year is presented to the County Board in February. Public hearings on the proposed budget and tax rates are held in early spring and are followed by a series of work sessions of the County Board, during which preliminary funding decisions regarding proposed operating and capital programs are reached. Final County Board decisions are incorporated into the appropriation, tax, and budget resolutions for the fiscal year. These resolutions are generally approved by the County Board in April and a separate Adopted Budget document is issued subsequent to the Board approval. Under Virginia law, the County Board must adopt the School Board budget no later than May 1 of the current fiscal year.

Supplemental appropriations may be approved by the County Board subsequent to the adoption of the original budget. In FY 2010 such appropriation amendments totaled \$9,858,878 and are reflected in the amounts presented in the financial statements. In addition, the County Board can approve transfers of appropriations between County departments and the County Manager can approve budget transfers within a department's appropriation. The level of budgetary control in the County is at the department level. Expenditures exceeded the level of control in FY 2010 for Technology Services due to early separation and retirement expenses, County Attorney office due to outside legal services, Treasurer Office due to increased personnel costs, and Electoral Board due to warrantee renewal for voting machines and for June 8th election costs. Management will ensure the departments develop better budget estimates in future years.

The Ballston Parking Garage (an Enterprise Fund) commenced operations in 1986 and has generated sufficient positive cash flow since inception to meet its operating and revenue bond debt service requirements. However, when considering limited liabilities (deferred ground rent and a deferred mortgage payable) and depreciation, the garage has negative net assets of \$(20,055,707) at June 30, 2010. The deferred ground rent and deferred mortgage payable are limited liabilities and are only payable under certain net operating income circumstances. The deficiency has been caused by slower than anticipated commercial development of the areas adjacent to the garage and limitations on parking rates. Under its agreement with The Federated Department Stores Inc., the County was precluded from initially increasing some key parking rates. Management of the County believes that the most recent rate increases and subsequent rate increases in future fiscal years coupled with the completion of adjacent development projects will result in the eventual achievement of a positive equity position.

The Printing Fund (an Internal Service Fund), incurred a negative change in net assets of \$76,813 in FY 2010, resulting in ending net deficit of \$(154,424). Management will evaluate measures to reduce the deficit in FY 2011.

Jail Industries (an Internal Service Fund), incurred a negative change in net assets of \$100,955 in FY10, resulting in ending net deficit \$(116,101). Beginning in FY2011, the Jail Industries program will be transferred to the Sheriff's Office in the General Fund.

#### NOTE 3. Cash and Investments

#### I. County Cash and Investments

The County maintains a cash and investment pool in which each County and Schools fund participates on a dollar equivalent and daily transaction basis. Bank deposits and investments of the Pension Trust are held separately from those of the County.

#### A. Custodial Credit Risk Deposits

At year end, the carrying amount of the County and School deposits was \$249,641,577 and the bank balance was \$256,892,467. Of the bank balance, \$31,344,822 was covered by Federal depository insurance. The bank balances exceeding those covered by Federal insurance are protected under the provisions of the Virginia Security for Public Deposits Act ("the Act").

#### B. Custodial Credit Risk

Custodial risk is the risk that in the event of a failure by a counter party, the County will not able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Treasurer's investment policy requires that all securities be clearly held in the name of Arlington County and held in safekeeping by a third party in compliance with Section 2.2-4515 of the Code of Virginia. As a result, the County has no custodial credit risk.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### C. Investment Policy

In accordance with the Code of Virginia. The Treasurer's investment policy permits investment in obligations of the Unites States or agencies thereof, obligations of State and municipal governments as well as agencies thereof, commercial paper, bankers' acceptances, repurchase agreements, corporate notes, mutual funds and the Virginia Local Government Investment Pool (LGIP), a 2a-7 like pool). Depository accounts and certificates may also be used. Unexpended bond proceeds are invested in the Virginia State Non-Arbitrage Program (SNAP).

#### D. Credit Risk

The Code of Virginia authorizes the investment in various instruments as described above. The County will only invest in securities with a "prime quality" credit rating by at least one nationally recognized rating agency. Prime quality is defined by the Section 2.2-4502 of the Code of Virginia as having a rating of A or better by at least two of the following rating agencies: Moody's Investors Service, Standard & Poor's, Fitch Investors Services or Duff and Phelps.

Credit rating for individual securities held at June 30 are provided in the Investment Maturity table below.

#### E. Concentrations of Credit Risk

The County's policy does not set a limit on the amount that may be invested in any single Federal Agency issuer. Refer to percentages of portfolio categories on the Investment Portfolio table below.

#### F. Interest Rate Risk

As a means of limiting exposure to fair value losses resulting from increasing interest rates, the Treasurer's investment policy states that the maturities in the portfolio are to be reviewed frequently to mitigate the effects of market fluctuations. In no case, however, shall investments be purchased with maturities greater than five years. A Federal Home Loan Mortgage Corporation security with a par value of \$6 million and a maturity date of December 30, 2015 held at June 30 exceeded the 5 year limitation by six months due to an oversight at time of purchase.

At June 30, 2010, the County had the following investments and maturities:

#### Investment Maturity (in years)

	Fair Value	Less than 1 year	1-3 years	3-5 years	Greater than 5 years
Corporate Bonds	\$43,128,062	\$6,826,525	\$30,004,920	\$6,296,617	\$-
Commercial Paper	4,965,826	4,965,826	-	-	-
Government Agency Bonds	45,519,072	1,918,103	5,446,229	32,121,560	6,033,180

Note: Ratings are purchased by the instrument issuer from Moodys, S&P and/or Fitch. Ratings must comply with the investment policy prior to any instrument purchase. In the event of any subsequent rating changes, the new ratings are assessed for continued compliance with the investment policy.

US Bank, as trustee for holders of bonds for the Ballston Parking Garage, is authorized to invest in all investment instruments for the County. As of June 30, 2010, the Trustee Bank had \$14,356,148 in a U.S. government money market fund consisting of securities approved for direct investment. SunTrust is the trustee for Arlington Solid Waste Authority. Alexandria/Arlington Waste Disposal Trust Funds are invested by the City of Alexandria in Local Government Investment Pool. Investments in the amount of \$7,613,559 in state treasurer securities at fair value were held by LGIP at June 30, 2010.

U.S. Bank Trust National Association, as the trustee for the Industrial Development Authority (IDA) Lease Revenue Bonds, is granted and assigned a security interest in the investment instruments by the IDA Authority of Arlington County. As of June 30, 2010, the US Bank Trust National Association had \$14,852,569 in the Trustee Bank.

Bank of New York Mellon Bank (BNYM), as the trustee for the Industrial Development Authority (IDA) of Arlington County, Virginia, is authorized to invest in all investments for the IDA Taxable Economic Development Revenue Bonds (Skating Facility Project). As of June 30, 2010, the Trustee Banks had \$3,068,615 in a U.S. government money market fund. Of the Trustee Bank balance, \$600,000 held by Wells Fargo IDA Bank will be transferred to BNYM Bank in July 2010, and \$2,468,615 held by BNYM.

The County has invested bond proceeds subject to rebate of arbitrage earnings in the Virginia State Non-Arbitrage Program ("SNAP"). SNAP is designed to assist local governments in complying with the arbitrage rebate requirements of the Tax Reform Act of 1986. These programs provide comprehensive investment management, accounting and arbitrage rebate calculation services for proceeds of general obligation and revenue tax-exempt financing of Virginia counties, cities and towns. As of June 30, 2010, the County had \$155,613,407 in the SNAP short term investment.

#### II. Arlington County Employee's Retirement System ("System") Cash and Investments

#### A. Legal Provisions

The System is authorized by the Code of Virginia §51.1-803 to invest funds of the System in conformance with the prudent person rule. Arlington County Code §21-23, §35-21, and §46-22 require that assets of the System be invested with care, skill, prudence, and diligence under circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. Arlington County Code §21-24,

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

§35-22, and §46-23 require that investments be diversified to minimize the risk of large losses unless under the circumstances it is clearly not prudent to do so.

The System's written investment policy provides for investment in all major sectors of the capital markets in order to diversify and minimize total investment program risk. Such sectors include, but are not limited to:

- Common stock, preferred stock, convertible securities, warrants, and similar rights of U.S. and non-U.S. companies.
- Private equity. The System invests in private equity through an experienced fund-of-funds manager to maximize
  diversification by vintage year and investment type. The commitment to private equity totals \$83 million, of which
  \$50.9 million had been funded at June 30, 2010.
- Open and closed end commingled real estate funds and real estate investment trust securities. The System has a
  commitment to fund two real estate partnerships for \$50 million, of which \$48.6 million had been funded at June 30,
  2010.
- Fixed income obligations of the U.S. government and its agencies, mortgage-backed securities, corporate bonds, and
  asset backed securities. In addition, fixed income obligations of non-U.S. governments, companies, and
  supernational organizations in both developed and emerging markets. Limits on concentration, credit quality, and
  duration are governed by the investment manager contract with each manager.
- Foreign currency forwards. The Fund did not have a currency manager in place during 2010. Had it, the credit risk of
  these investments would result from credit worthiness of the counterparties to the contracts.

#### **B.** Investments Restrictions

The following summarizes the primary investment restrictions included in the System's investment policy statement. Individual investment manager contracts may include additional guidelines and limitations.

Fixed income investments must be at least 20% of the Fund's assets at market value. The Fund must be rebalanced if the market weight of fixed income investments falls below 20%, unless the Board, acting on the recommendation of staff or the investment consultant to defer rebalancing, determines that it would not be consistent with the Board's fiduciary responsibility to rebalance (increase fixed income) at that time.

No illiquid investment can be made that causes the allocation to illiquid investments to exceed 15% of System assets.

Unless the Board grants prior authorization, the investment managers may not:

- Invest more than 10% of the market value of each manager's portfolio in the securities of any one issuer, with the exception of the U.S. government and its agencies;
- Hold more than 5% of the outstanding shares of a single company in any manager's portfolio;
- Hold unlisted equity securities that exceed 20% of the portfolio, exclusive of holdings in banks, utilities, and insurance companies;
- Use leverage of any sort for any purpose beyond prudent industry standards,
- Effect short sales of securities; and
- Pledge or hypothecate securities; except in approved security lending programs.

Derivatives are allowed only in cases where their use reduces the cost of a desired transaction and/or improves the risk characteristics of the portfolio. The Board of Trustees may, however, approve the use of derivatives to implement investment processes intended to add value in specifically-designated risk-controlled applications, such as currency management. Any such value-added investment program shall be approved only where:

- The potential exposures have been well defined by the Board and provide for a downside risk range for the Fund within established limits
- The value of the designated Fund assets subject to risk due to the program does not exceed 15% of the Fund's assets

#### **NOTES TO FINANCIAL STATEMENTS**

#### **JUNE 30, 2010**

 In any program where an active overlay strategy combining derivatives with underlying portfolio assets is to be used, the gross amount of any long and short exposures taken on by the overlay shall not exceed the value of the designated Fund assets being overlaid.

#### C. Cash and Cash Equivalent

At June 30, 2010, the System had cash and cash equivalents of \$24,361,975. Cash deposits in bank accounts totaled \$120,388. This amount was insured by the Federal Deposit Insurance Corporation up to \$250,000 for each System participant. Cash totaling \$24,241,587 are invested in the custodian's Short-Term Investment Fund. This account is uninsured and uncollateralized.

#### D. Investments and Risk

The System's investments are recorded at fair value based on the methodology described in Note 2. Summary of Significant Accounting Policies, Investments. The following table presents the fair value of investments by type at June 30, 2010:

Investment Type	Fair Value (in \$000s)
Mortgage Backed Government Pass-Through	\$395
Mortgage Backed Government Pass-Through	413
Corporate Mortgage Obligations (CMOs)	745
Corporate Bonds	161,553
Corporate Asset Backed	8,919
Private Placements	47,064
Municipal Bonds	2,795
Yankee Bonds	6,442
Supernationals	7,290
Non-U.S. Developed Government/Sovereign	28,746
Non-U.S. Developed Corporate	25,528
Non-U.S. Emerging Government/Sovereign	12,923
Convertible Securities	88,639
U.S. Equity	136,853
Non-U.S. Equity	178,923
Alternative Investments	41,787
Real Estate	20,881
Pooled Equity Funds	248,654
Pooled U.S Fixed Income Funds	225,855
Pooled Money Market Funds	24,568
Cash	3,085
Total (1)	\$1,272,058

<sup>(1)</sup> This total does not include contributions receivable, accrued expenses, and disbursement checking account cash.

#### **NOTES TO FINANCIAL STATEMENTS**

#### **JUNE 30, 2010**

#### **Interest Rate Risk**

Interest rate risk is the largest risk faced by an investor in the fixed income market. The price of a fixed income security generally moves in the opposite direction of the change in interest rates. Securities with long maturities are highly sensitive to interest rate changes. The System has interest rate exposure on \$391.5 million of directly owned fixed income securities and on \$225.9 million invested in four pooled U.S. fixed income funds. The System's directly owned fixed income investments and maturities at June 30, 2010 are:

	Fair Value	<u>Investment Maturities (years)</u>			<u>rs</u> )
Investment Type:	(\$000s)	Under 1	<u>1-5</u>	<u>6-10</u>	Over-10
U.S. Treasury	\$-	\$-	\$-	\$-	\$-
U.S. Agency	-	-	-	-	-
Mortgage backed Govt Pass Through	395	-	-	-	395
Mortgage backed Govt Pass Through)	413	-	-	-	413
Corporate Mortgage Obligations (CMOs)	745	-	-	-	745
Corporate Bonds	161,553	1,081	53,012	30,790	76,670
Corporate Asset Backed	8,919	-	6,592	2,302	25
Private Placements	47,064	2,213	23,374	9,636	11,841
Municipal Bonds	2,795	-	-	-	2,795
Yankee Bonds	6,442	-	348	325	5,769
Supernationals	7,290	-	2,055	5,235	-
Non-U.S. Developed Govt/Sovereign	28,746	4,533	24,213	-	-
Non-U.S. Developed Corporate	25,528	1,331	19,697	2,972	1,528
Non-U.S. Emerging Govt/Sovereign	12,923	-	5,136	1,947	5,840
Convertible Securities	88,639	208	61,446	8,466	18,519
Total	\$391,452	\$9,366	\$195,873	\$61,673	\$124,540

Interest rate sensitivity of a fixed income portfolio is best measured by effective duration which reflects the average percentage change in portfolio value due to a 1% change in interest rate. The effective duration of the System's directly held fixed income portfolio at June 30, 2010 is shown below:

#### **NOTES TO FINANCIAL STATEMENTS**

#### **JUNE 30, 2010**

	Fair Value	Effective
Investment Type:	(in 000's)	Duration (years)
U.S. Treasury	\$-	-

Non-U.S. Developed Gov't/Sovereign	28,746	1.61
Non-U.S. Developed Corporate	25,528	3.28
Non-U.S. Emerging Gov't /Sovereign	12,923	5.59
Convertible Securities	88,639	3.96
Total	\$391,452	5.16

#### Custodial Credit Risk

In the event of counter-party failure, the System may not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities held by the counterparty or counterparty's trust department are uninsured and are not registered in the name of the System. The System requires that all investments be clearly marked as to ownership, and to the extent possible, be registered in the name of the System.

#### Concentration of Credit Risk

Per the System's investment policy, only U.S. Government and U.S. Government Agency obligations may exceed 5% of Systems assets. As of June 30, 2010, the System does not have investments in any one organization that exceed 5%.

The System's credit quality distribution for the System's directly held fixed income investments of \$391.5 million at June 30, 2010 is shown below:

#### **NOTES TO FINANCIAL STATEMENTS**

#### **JUNE 30, 2010**

Fixed Income Credit Quality Distribution

				Credit (	Quality

#### Foreign Currency Risk

Foreign investments include equity and fixed income securities, including convertible securities and cash. The Board has authorized specific investment managers to invest in non-dollar denominated securities. These managers have the ability to hedge a portion of their portfolio's foreign currency exposure. The System's exposure to foreign currency risk at June 30, 2010 was as follows:

•				
(in \$000s)	Equity	& Convertible	Cash	Total
Australian Dollar	\$9,053	\$8,111	\$117	\$17,281
Brazilian Real	3,989	5,580	7	9,576
British Pound	14,844	8,305	39	23,188
Canadian Dollar	14,323	28,876	52	43,251
Danish Krone	3,445	-	-	3,445
Egyptian Pound	432	-	-	432
Euro	38,447	21,597	1,801	61,845
Hong Kong Dollar	10,801	1,504	169	12,474
Indonesian Rupiah	836	5,225	-	6,061
Japanese Yen	26,569	5,050	1	31,620
Mexican Peso	432	5,948	-	6,380
New Zealand Dollar	-	10,788	-	10,788
Norwegian Krone	973	1,018	-	1,991
Renminbi Yuan	-	327	-	327
Singapore Dollar	-	2,695	1	2,696
South Korean Won	7	-	-	7
Swedish Krona	6,977	-	-	6,977
Swiss Franc	14,751	2,099	12	16,862
UAE Dirham	-	468		468
Total	\$145,879	\$107,591	\$2,199	\$255,669

#### E. Derivatives

The System's Investment Policy provides external investment managers with discretion to take actions, within approved guidelines, regarding each portfolio's foreign currency exposures using forward currency contracts. These

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

contracts are agreements to exchange one currency for another currency at an agreed upon price and date. Investment managers use such contracts primarily to settle pending trades at a future date. Key risks include counter party non-performance and currency fluctuations. As of June 30, 2010, the System had no open forward currency contracts.

#### F. Securities Lending

Under authorization of the Board, the System engaged in a securities lending program through its custodian, BNYM, for securities held in separate accounts. In accordance with the contract, BNYM may lend any securities held in custody. Maturity matched collateral of cash, cash equivalents or irrevocable letters of credit are held at the minimum rate of 102% for domestic securities and 105% for international. The collateral is maintained by BNYM and all securities on loan are callable at any time. The System does not have the ability to pledge or sell the collateral.

All securities on loan are carried at fair value and the collateral received for securities on loan is listed in the financial statements as an asset of the System, offset by an accompanying security lending obligation.

In the event the borrower becomes insolvent and fails to return the securities, BNYM indemnifies the System by agreeing to purchase replacement securities, or to remit the cash collateral held. There were no such failures by any borrower during the fiscal year nor were there any losses during the year resulting from a borrower or lending agent default.

The System is exposed to credit risk in the investment of the cash collateral by BNYM in a separately managed account. An investment policy provides guidelines for the investment of this cash in high quality debt securities. During fiscal 2009, this policy was modified to allow only investments in US Treasury securities and reverse repurchase agreements.

The program was reduced from \$39 million at the beginning of the year to \$23 million at June 30, 2010, reflecting the System's effort to reduce exposure to security lending related credit risk during the year.

Gross Income from Securities Lending	\$158,741
Less Bank Management Fees	(40,660)
Net Income from Security Lending	\$118,081

The following table presents the fair value of underlying securities and the value of the collateral pledged at June 30, 2010:

Type of Securities Lent	Fair Value	Value of Cash Collateral
Corporate Fixed Income	\$13,134,024	\$13,476,213
U.S. Equity	4,680,672	4,822,268
Non-U.S Governments	2,995,069	3,153,300
Non-U.S. Equity & Fixed	663,578	1,134,254
Total	\$21,473,343	\$22,586,035

At June 30, 2010, the System had \$55.3 million invested in a State Street Global Advisors (SSgA) Treasury Inflation Protection Securities pooled fund that engaged in security lending. Due to significant unrealized losses associated with the investment of the cash collateral received for loaned securities, in October of 2008, SSgA restricted all clients' redemptions. Under these

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

restrictions, the System's maximum allowed withdrawal was 2% of the investment balance per month. The maximum withdrawals were taken in the fiscal year.

At June 30, 2010, 76.6% of the TIPS fund's securities were out on loan. There were no unrealized losses in the cash collateral pool owing to an infusion of cash by SSgA. Subsequent to the end of the fiscal year, in August of 2010, the redemption restrictions on this fund were lifted.

None of the System's other pooled fund investments have material realized or unrealized securities lending related losses.

#### G. Commission Recapture Program

The System participates in a commission recapture program with Frank Russell Company. This program allows the System to recapture a portion of the commissions paid to broker/dealers with which the System has entered into an agreement. All trades are placed subject to the requirement for best execution. Earnings credited to commission recapture income for the fiscal year ended June 30, 2010, were \$13,849.

#### NOTE 4. Receivables, net

Receivables at June 30, 2010 are summarized below.

	Governmental	Business-type	
	<u>Activities</u>	<u>Activities</u>	
Real estate taxes	\$273,490,301	\$-	
Personal property taxes	3,611,059	-	
Business licenses tax	5,299,843	-	
Meals tax	1,082,004	-	
Accounts receivable	46,483,207	20,660,247	
Interest	793,782	3,680	
Total	330,760,196	20,663,927	
Less: Allowance for uncollectible accounts	(2,844,877)	(358,532)	
Net receivables	\$327,915,319	\$20,305,395	

Real Estate assessments are based on 100% of the fair market value of land and improvements as of January 1 of each year; January 1 has also been established as the lien date for real property by state law.

The County Board establishes the tax rates on or about April 1 of each year, at which time the County has the legal right to request payment. Real Estate taxes are due in two equal installments on June 5 and October 5. Included in real estate taxes receivable is the unbilled October 5 installment. This October due amount, totaling \$265,288,518, has also been recorded as deferred revenue since these revenues are not considered to be available to finance current year expenditures.

Personal property tax assessments, relating principally to motor vehicles and tangible property belonging to businesses, are based on 100% of the fair market value of the property as of January 1. Personal property taxes are due on October 5.

The County's allowance for uncollectible taxes and service fees for water and sewer services is based upon historic non-collection percentages.

#### **NOTE 6. Risk Management**

The County is exposed to various risks of loss relative to property, liability, revenue and personnel. The systematic identification and analysis of exposures to risk, implementation of risk control and loss mitigation techniques, and utilization of appropriate risk financing alternatives encompasses the management of these risks. It is the general philosophy of the County to retain risks internally up to economically prudent retention levels and account for necessary claim settlements in the General Fund. For excess exposure levels, specialized exposures and where commercial insurance is available at cost-effective premiums, the County will transfer some risk to commercial insurance carriers through the purchase of insurance policies, while maintaining the integrity of the County's strategic self-insurance objectives. The major self-insurance programs are workers' compensation, employees' health insurance, and the self-insured retention portion of general, automobile, and public officials' liability. For each major self-insurance program the County uses the professional services of a third-party administrator to adjudicate claims and recommend appropriate reserves for outstanding claims. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The amount of settlement did not exceed the insurance coverage for each of the last three years. At June 30, 2010 the current portion of these liabilities was \$5.752 million which represent an estimate of health insurance claims that have been incurred but not reported of \$5.308 million, and are included in the accrued payroll liabilities and the current portion of workers' compensation of \$.444 million. The non-current portion was \$3.997 million which represent an estimate of workers' compensation claims which are included in the long-term liabilities based on a history of such claims. These liabilities are the County's best estimate based on available information.

Changes in the reported liabilities since July 1, 2008 resulted from the following:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year- End
2008 - 2009	•	<u> </u>		
Current	\$6,383,717	\$40,717,094	\$41,230,251	\$5,870,560
Long Term	\$2,358,170	\$2,114,339	\$2,154,238	\$2,318,271
2009 – 2010				
Current	\$5,870,560	\$41,651,966	\$41,770,223	\$5,752,303
Long Term	\$2,318,271	\$4,712,223	\$3,033,876	\$3,996,618

In addition, the County has designated a General Fund balance self-insurance reserve of \$5,000,000 as of June 30, 2010. The County maintains a General Fund operating reserve that totaled \$35,050,026 as of June 30, 2010. Since its establishment in FY 1986, this operating reserve has not been used, but has been increased to its current funding level which is greater than or equal to 3.75% of the General Fund budget.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### **NOTE 7. Operating Leases**

The County leases office space and equipment under various long-term lease agreements. The building lease agreements are subject to various adjustments during the terms of the leases. Future minimum rental payments for each of the following years ending June 30, are as follows:

Fiscal Year	<u>Amount</u>
2011	\$11,971,769
2012	13,589,477
2013	14,163,191
2014	13,920,243
2015	14,333,887
2016-2024	79,655,375
	\$147,633,942

In FY 2003, the County renewed and amended the operating lease agreement of the Court House Plaza to include the ninth floor premises. Total square feet of office space under the new 15 year agreement is 208,433. As part of the Court House Plaza lease agreement, the County receives 50% of the net cash flow generated by office and residential buildings located in the Court House area, subject to a minimum of \$150,000 annually. During the fiscal year ended June 30, 2010, the County received \$2,293,437 under these lease agreements. The County entered into a 75 year lease agreement with Arlington Hotel Associates LLC (LLC) on June 20, 2005 for the construction and operation of a hotel. The lease agreement required the LLC to make a one time lump-sum payment of \$150,000 upon receipt of the first certificate of occupancy and to pay rent in the amount equal to 2% of annual gross revenues thereafter. The total payments received from the LLC during FY10 were \$254,905. The County has also entered into a 45-year lease agreement for approximately 4.41 acres of land for the construction and operation of the Ballston Public Parking Garage. Cumulative lease payments are payable only when the garage attains certain cash flow targets which have not occurred since the inception of the lease. This liability amount of \$8,156,912 is accrued in the Ballston Public Parking Garage Fund, as of June 30, 2010. In FY 2000, the County entered into a long term operating lease agreement for 145,777 square feet of office space and additional garage space to consolidate the operations of its Department of Human Services (DHS) at 3033 Wilson Boulevard. The lease for DHS at 3033 Wilson Blvd expired on August 31, 2010, and a new lease for DHS at Sequoia Plaza, 2100 Washington Blvd commenced on September 1, 2010.

#### **NOTE 8. Capital Leases**

The County has financed the acquisitions of capital assets, including eight Arlington Transit (ART) buses, equipment for Fairlington Community Center, energy performance upgrade for the Arlington County Justice Center, breathing apparatus for the Fire Department, Voice over Internet Protocal (VoIP) voice communication system, a rock crusher, computers, and equipment. Arlington Public Schools has financed the acquisition of computers. Capital leases at June 30, 2010 are summarized below:

	Primary					
	Government	<u>Schools</u>				
Building	\$1,395,842	\$-

#### NOTE 9. Long-Term Debt

#### A. General Obligation Bonds

All outstanding bonds, except revenue bonds, constitute legally binding obligations of the County. The County Board is authorized and required by law to levy ad valorem taxes, without limitation as to rate or amount, on all taxable property within the County to pay the principal and any interest on the bonds. There is no overlapping debt for the County and no legal debt limit for counties in Virginia. There is, however, a requirement that general obligation bonds be approved by the voters at referendum before authorization for sale and issuance. Maturities of general obligation bonds currently outstanding, including interest, excluding premiums, are as follows:

#### **B.** Advance Refunding

On July 15 2009, the County issued \$41,262,678 in Refunding Bonds (2009A, B, & C Refunding) with an average interest rate of 4.116 percent. The bonds were issued to advance refund \$41,535,000 of outstanding 1998 Series, 2001 Series and 2005 Series ("Old Bonds") with an average rate of 4.929 percent. The proceeds of \$44,533,599 were used to purchase U.S Government securities which were deposited in an irrevocable escrow account to provide for the resources to redeem the Old Bonds. As a result, the Old Bonds are considered to be defeased and the liabilities for those bonds have been removed from the Statement of Net Assets.

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$272,322. The difference reported in the accompanying financial statements as a deduction from bonds payable is being charged to operations through year 2029 using the straight line method. The County completed the advance refunding to reduce its total debt service payments over the next 20 years by \$3,139,655 and to obtain an economic gain (difference between the present value of the old and new debt service payments) of \$2,582,044.

On December 10, 2009, the County issued \$65,650,000 in Refunding Bonds (2009D Refunding) with an average interest rate of 4.569 percent. The bonds were issued to advance refund \$65,565,000 of outstanding 2001 Series, 2002 Series, 2003 Series, 2004

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

Series, 2005 Series, 2006 Series, 2007 Series and 2008 Series ("Old Bonds") with an average rate of 4.686 percent. The proceeds of \$73,755,081 were used to purchase U.S Government securities which were deposited in an irrevocable escrow account to provide for the resources to redeem the Old Bonds. As a result, the Old Bonds are considered to be defeased and the liabilities for those bonds have been removed from the Statement of Net Assets.

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$85,000. The difference reported in the accompanying financial statements as a deduction from bonds payable is being charged to operations through year 2029 using the straight line method. The County completed the advance refunding to reduce its total debt service payments over the next 20 years by \$3,091,758 and to obtain an economic gain (difference between the present value of the old and new debt service payments) of \$2,234,138.

#### C. Revenue Bonds – Ballston Public Parking Garage

Revenue Bonds of \$22,300,000 were issued by the County in 1984 to provide for the acquisition and construction of a public parking garage facility. The bonds were issued in the form of Variable Rate Revenue Bonds to mature on August 1, 2017, and are subject to redemption as a whole or in part, at any time, at the principal amount thereof, plus accrued interest at the County's discretion. The bonds are not general obligations of the County and are payable solely from gross revenues arising from the operations of the garage facilities, an irrevocable direct pay letter of credit in the initial principal amount of \$25,648,055 and other funds which may be available to the project. As "credit support" for the project, the County has agreed to consider appropriating funds should a shortfall in revenues affect the payments to the bondholders. Debt service payments on the bonds are further secured by a deed of trust on the garage facilities and related assets. As of June 30, 2010, \$12,300,000 is outstanding under these revenue bonds.

The interest rate on the bonds is determined weekly, using a Variable Interest Index, calculated under the terms of the bond issuance agreements. The rate may be converted to a fixed interest rate at the discretion of the County during the term of the bonds. The initial interest rate was 6.9%, at no time can exceed 15%, and averaged approximately 2.44% in FY 2010. Interest is payable quarterly prior to conversion to a fixed interest rate, and on June 1 and December 1 of each year thereafter until maturity, purchase or earlier redemption. On September 26, 2004, a Letter of Credit (LOC) was issued by Bank of America to support the garage activities. The LOC is valid for a term of five years, expiring in September 2009. On August 21, 2009, an Amended and Restated Letter of Credit and Reimbursement Agreement was signed, and the extended expiration date is September 22, 2011. Interest on drawings is payable at an interest rate publicly announced by the bank. When interest is due to the bondholders, the direct pay letter

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

of credit pays the bondholders by drawing down on the letter of credit and then immediately seeking reimbursement from garage revenues.

Using a usual and customary direct-pay letter of credit mechanism, during FY 2010, the County drew from the letter of credit \$31,241 to pay bondholders for the interest accrued on the revenue bonds. The letter of credit drawdowns were immediately repaid by the County from garage revenues held in trust at the time of the drawdowns. The fees associated with the letter of credit were \$133,002 in FY 2010. Also in FY 2010, \$500,000 of bond principal was repaid from garage revenues in accordance with the terms of the letter of credit agreement.

#### D. Mortgage Debt

The County entered into an agreement (the "Agreement") dated August 1, 1984, for the purchase of an existing parking garage facility at a total purchase price of \$3,929,679. An initial payment of \$500,000 was made on October 22, 1986, with the remaining balance of \$3,429,679 payable annually with 8% interest per annum beginning in FY 1988. Principal and interest are payable solely from revenues derived from garage operations, at \$275,000 and \$375,000 for the first 10 years and the next 17 years, respectively. In any year that there is not sufficient cash flow, payments under the note shall be deferred; however, the note shall be due and payable in full, 45 years from the date of the note. The long-term portion of this mortgage payable at June 30, 2010 was \$569,186. The short term portion of mortgage interest payable was \$17,922,937. At June 30, 2010, all payments have been deferred.

#### E. Virginia Resources Authority Note Payable

VRA Bonds were issued in June 2004 in the amount of \$100,000,000. The proceeds from those bonds were received by the County prior to fiscal year 2010. The interest rate on these bonds is 3.10 percent. The principal outstanding on these bonds at June 30, 2010 was \$84,597,297.

In June 2007, the County entered into a Financing Agreement with the Virginia Resources Authority (VRA). VRA agreed to issue \$4,000,000 (Series 2007 A) and \$76,000,000 (2007 Series B) in Wastewater System Revenue Bonds (VRA Bonds) and lend the proceeds to the County for improvements to the County's water pollution control plant and wastewater system. Interest was charged at a rate of 3.00 percent. The proceeds from those bonds were received by the County prior to fiscal year 2010. The principal outstanding on these bonds at June 30, 2010 was \$3,767,898 on Series A bonds and \$71,590,052 on Series bonds.

In October 2008, the County entered into a Financing Agreement with VRA. VRA agreed to issue \$50,000,000 in Wastewater System Revenue Bonds, Series 2008 and lend the proceeds to the County to continue the improvements to the water pollution control plant. The interest rate on these bonds is 3.55 percent. At June 30, 2010, VRA had provided a loan of VRA bond proceeds in the amount of \$50,000,000, including in FY 2010 bond proceeds of \$1,013,049. The principal outstanding on these bonds at June 30, 2010 was \$50,000,000.

In June 2009, the County entered into a Financing Agreement with VRA. VRA agreed to issue \$35,000,000 in Wastewater System Revenue Bonds, Series 2009 and lend the proceeds to the County to continue the improvements to the water pollution control plant. The interest rate on these bonds is 3.35 percent. At June 30, 2010, VRA had provided a loan of VRA bond proceeds in the amount of \$35,000,000, including in FY 2010 bond proceeds of \$34,937,416. On June 30, 2010, principal outstanding on these bonds was \$35,000,000.

In May 2010, the County entered into a Financing Agreement with VRA. VRA agreed to issue \$1,856,428, \$16,795,849, and \$16,347,723 in Wastewater System Revenue Bonds, Series 2008, 2009, and 2010 respectively, and lend the proceeds to the County to continue the improvements to the water pollution control plant. At June 2010, VRA had provided a loan of VRA bond proceeds in the amounts of \$1,856,428, \$9,456,677, and \$189,992 respectively. These amounts are outstanding at June 30, 2010.

All current and prior bonds are secured by a pledge of County sewer revenues.

#### F. IDA Lease Revenue Bonds (Various County Government Projects)

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

On August 1, 2004, the Industrial Development Authority of Arlington County, Virginia (the "Authority") and U.S. Bank Trust National Association, (the "Trustee"), made an agreement to finance the acquisition, construction, improvement, furnishing and equipping of various capital projects, including the Emergency Communication Center, the Trade Center Project, the George Mason Center Project, and the Enterprise Resource Planning Project. The Authority issued 20 year Lease Revenue Bonds in the amount of \$60,540,000 to finance these projects. At June 30, 2010, \$41,900,000 is outstanding under these lease revenue bonds.

#### G. IDA Revenue Notes (Buckingham Village 3 Acquisition)

On March 23, 2009, the Industrial Development Authority of Arlington County, Virginia (the "Authority") and Sun Trust Bank made an agreement to finance the acquisition of Buckingham Village 3. The County leased the property to a developer, a partnership of Telesis and National Housing Trust (NHT), which immediately began to manage the property and will undertake renovations of the property within 12-24 months. The Authority refinanced its note on May 27, 2010 with the issuance of its \$9,666,099 Taxable Variable Rate Note, Series 2010A and \$26,000,000 Taxable Fixed Rate Note, Series 2010B (the "Buckingham Village 3 Notes"). The County and the Authority entered into a Support Agreement under which the County, subject to annual appropriation, will make debt service payments on the Buckingham Village 3 Notes. Debt service payments have been budgeted in the County's affordable housing investment fund (AHIF).

#### H. IDA Revenue Bonds (Metro Matters Funding and Buckingham Village 1 Acquisition)

On August 13, 2009, the Industrial Development Authority of Arlington County, Virginia (the "Authority") issued \$41,280,000 in Revenue Bonds for the benefit of Arlington County (the "2009 IDA Bonds"). The 2009 IDA Bonds were for the funding of the County's Metro Matters obligation and for the acquisition of property for a park and streets in Buckingham Village 1. \$31,435,000 of the issuance was in the form of taxable Build America Bonds (BABs). Interest on these bonds is subject to a 35% rebate from the IRS. The County has agreed under a Cooperation Agreement between the County and the Authority that subject to appropriation by the County Board, the County will deliver to the Authority sufficient funds to make payments with respect to the 2009 IDA Bonds. Debt service on \$10,800,000 is expected to come from the NVTA Fund revenues which come from a 12.5 cent tax per \$100 of assessed value on commercial real estate.

#### I. Changes in Long-Term Liabilities

During the year ended June 30, 2010, the following changes occurred in liabilities reported in the County and Schools Long-term Obligations.

#### **NOTES TO FINANCIAL STATEMENTS**

#### NOTE 10. Invested in Capital Assets, net of related debt – Component unit - Schools

Virginia state law provides that a school board is a separate legal entity and school boards hold title to all school assets. However, whether separately elected or appointed by the governing body, Virginia's local school boards do not have the power to levy and collect taxes or issue debt. Purchases of school equipment, buildings or improvements (capital assets) to be funded by debt financing require the local government to issue the debt. Accordingly, in the government-wide financial statements, the "school

#### **NOTES TO FINANCIAL STATEMENTS**

#### **JUNE 30, 2010**

debt" is reflected in Exhibit 1 "Statement of Net Assets" in the governmental activities column of the primary government. The net effect of this on the entries to the Exhibit 1 governmental activities for "Non-current liabilities" and "Invested in capital assets, net of related debt" is \$265,263,956 for the Primary Government and the Schools. The effect on the Statement of Activities includes \$5,604,550 which represents the net of school bond proceeds less principal payments on school bonds. This election has no effect on the combined total of the overall government.

#### NOTE 11. Interfund Receivables and Payables

The County has numerous transactions among Funds and Component Units to finance operations, provide services, and construct assets. Activity between funds that are representative of lending/ borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans). The amounts of such transactions not received or paid at June 30, 2010 are reflected in current due to/from accounts of each Fund/Component Unit, as summarized below:

Due to/from other funds:

	Receivables	<u>Payables</u>	
General Fund	\$8,428,831	\$-	
IDA Funds	-	7,678,994	
Urban Area Security Initiative	-	291,224

Total Transfers In	\$431,956	\$247,000	\$21,349,543	\$467,785	\$22,496,284

#### NOTE 12. Reservations and Designations of Fund Balances

Certain portions of fund balances have been reserved or designated by the County Board for specific purposes and are therefore not available for general appropriation as summarized below. Future disbursements relating to these reserved and designated fund balances are accounted for as expenditures in the year in which incurred.

- **a. General Fund** Designated for Self-insurance \$5,000,000 designated by the County Board related to the County's self-insurance program for workers' compensation, general liability and automobile liability where purchased insurance coverage is insufficient to pay claims which may become due.
- **b. General Fund** Designated for Operating Reserve \$35,050,026 designated by the County Board in its "General Fund Operating Reserve" resolution to protect the County's financial position in the event of major "severe unforeseen financial problems" that could cause "severe financial hardship". The amount designated for these purposes was increased from \$30,769,734 to \$35,050,026 during FY 2010.
- **c. General Fund -** Designated for FY 2011 Budget \$12,811,007 designated by the County Board at the time of the adoption of the FY 2011 budget to be one of the elements that financed the FY 2011 Adopted General Fund budget.
- **d. General Fund** Designated for Incomplete Projects, including seized assets \$50,779,229 designated by the County Board to fund in FY 2011 projects approved by the County Board in FY 2010 but not yet completed at the close of FY 2010.
- **e. General Fund -** Designated for Schools \$33,218,860 designated by the County Board at the time of the reappropriation to the FY 2010 budget to be one of the elements which is planned to finance part of the FY 2011 Adopted School Fund budgets.
- f. School Funds Construction funds \$4,549,397 reserved for project construction expenditures and encumbrances.
- g. Special Revenue Funds Section 8 Housing \$5,286,376 reserve equivalent to the net difference between earned Section 8 Housing administrative revenues and actual administrative expenditures since inception of the program. Travel & Tourism \$331,390 reserve equivalent to the net difference between earned revenues and actual expenditures since inception of the program. Rosslyn Business Improvement District \$166,646 and Crystal City Business Improvement District \$112,379 reserves equivalent to the net difference between earned tax revenue and expenditures since inception of the program.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

- h. Capital Projects Funds Construction funds \$116,155,032 reserved for project construction expenditures and encumbrances. Of these funds, \$66,427,376 is reserved in construction bond funds and represents bond proceeds and \$49,727,656 is reserved for transportation and stormwater funds and represents tax revenue.
- **i. Trust Fund -** Reserved for Trusts \$7,500,420 reserved to be held by the Alexandria/Arlington Waste Disposal Trust fund for future plant expenditures and cover any shortfalls should they occur.
- **j. Trust Fund -** Net Assets Held in Trust for Pension Benefits \$1,271,353,890 reserved to fund the Arlington County Employee's Supplemental Retirement System.
- **k. OPEB Trust Fund** Net Asset Held in Trust for OPEB \$23,512,184 reserved to fund the post employment benefits other than pension benefits.

#### NOTE 13. Commitments and Contingencies

#### A. Washington Metropolitan Area Transit Authority

In October 2004, the County and other WMATA contributing jurisdictions signed to the Metro Matters Funding Agreement (MMFA) with WMATA for fiscal year 2006-2010 for \$3.3 billion. The MMFA described funding priorities for system renewal and enhancement projects for Metrorail and Metrobus, and presented a financial plan to implement more than \$3 billion in projects over the six year period of the Agreement which ended in June, 2010.

In July 2010, the Metro Matters Program was succeeded by the WMATA Capital Funding Agreement (the "Agreement"). This Agreement covers \$5.0 billion in capital funding needs throughout fiscal years 2011 - 2016. The FY 2011 - 2016 Capital Improvement Program (CIP) is a 6 year forecast, updated annually, that lays out the specific projects to be funded, along with the sources of funds, in accordance with the Agreement. The CIP may include any capital project or purchase eligible for capital funding and may include projects in such categories as: vehicles and vehicle parts, rail system infrastructure rehabilitation, maintenance facilities, systems and technology, tracks and structures, passenger facilities, maintenance equipment, other facilities, project management, safety and security projects, and preventative maintenance.

Arlington County's contribution of \$80.7 million in funding over a six –year period of this Agreement, is subject to annual appropriation of funds, and other limitations on expenditures or obligations under the applicable law. Arlington County is planning to use General Obligation Bonds and state grants to cover its share of the Capital Funding Agreement needs.

In addition, the County shares the operating costs for WMATA's combined bus and rail system. State aid and Northern Virginia Transportation Commission funds have been utilized to help finance these costs. During FY 2010, the County paid \$20,518,770 million from its General Fund to subsidize WMATA's bus and rail operating costs.

#### **B.** Construction Commitments

As of June 30, 2010 contractual commitments were outstanding in the following funds for the amounts indicated:

 Capital Projects Funds
 \$32,407,015

 Utilities Fund
 46,610,753

 \$79.017,768

These projects include the Transportation Infrastructure Maintenance Capital, Utility Water Distribution System Improvements, Sanitary Sewer System Improvements, Wastewater Treatment Plant Improvements, and Water & Sewer System Maintenance Capital Programs.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### C. Waste-to-Energy Facility

#### **Arlington Solid Waste Authority**

The Arlington Solid Waste Authority (the "ASWA") was created in 1984 and is responsible for oversight of the waste-toenergy facility ("the Facility"). The ASWA consists of the five elected members of the Arlington County Board, the County Manager, who is appointed by the County Board, and the County Comptroller, who reports (as a trustee of the Trust Fund) to the County Manager. The boards of the County and the ASWA have the same membership.

On December 1, 1984, an inter-local joint enterprise agreement was entered into between the Alexandria Sanitation Authority and the Arlington Solid Waste Authority (the "Authorities"). The Joint Enterprise, referred to as the Alexandria/Arlington Resource Recovery Corporation, was formed to design, construct, equip, test, and operate a solid waste disposal facility having an installed capacity of 975 tons per day of mixed municipal solid waste. The facility is located at 5301 Eisenhower Avenue, Alexandria, Virginia. Revenue bonds were issued by the Alexandria Industrial Development Authority and proceeds were lent to the Authorities to construct the facility.

On October 22, 1985, the Facility was sold by the Authorities to a private company ("the Corporation") pursuant to a Conditional Sale and Security Agreement. The sale involved the transfer of construction-in-progress together with marketable securities and other assets. The Corporation assumed the obligation to provide funds adequate to pay the current liabilities and the outstanding revenue bonds payable as of October 22, 1985. This Agreement requires the Authorities to transfer full title to the Facility only when principal and interest on the outstanding revenue bonds or any subsequent refinancing revenue bonds have been paid in full. The Agreement also entitles the Authorities to repossess the Facility if revenue bond debt service payments are not made.

In connection with this transaction, the Corporation entered into a Facility Agreement dated as of October 1, 1986, obligating it to construct the Facility and to provide waste disposal services to the City of Alexandria, Arlington County, and the Authorities for 20 years. Under the Facility Agreement, the County has a guaranteed annual tonnage of acceptable waste commitment to the Facility. The commitment is based on a percent of solid waste the County expects to collect. The Facility charges a fee on each ton based on defined costs, and the County has met its maximum requirement for annual tonnage each year.

In July 1998, the Authorities advance refunded \$55,025,000 of the outstanding revenue bonds (Series 1998 A bonds) for the Facility to take advantage of lower interest rates. In November 1998, the Arlington Industrial Development Authority issued \$48,550,000 in new retrofit revenue bonds (Series 1998 B bonds) to cover the cost of new pollution abatement equipment at the Facility required by federal law. The proceeds of the Series 1998 B bonds were lent to Authorities to construct the equipment. A promissory note was issued by the ASWA in the amount of \$27,651,000 as part of this construction financing. The Series 1998 A bonds matured in January 2008, and the plant was sold to Covanta for \$10.00 per bill of sale which was dated February 28, 2008.

Because the ASWA Board is essentially the same as the Arlington County Board and the financing agreements require the capital assets built with the Series 1998 B bonds to belong to the ASWA (60% ownership), the County had to record these assets in its financial statements for FY 1999 and FY 2000. Cash, capital assets (construction-in-progress), and the promissory note signed by the ASWA were displayed with the County's Enterprise Funds. The retrofitting of the Facility's boiler units with certain air pollution control equipment was made necessary by the EPA regulations adopted pursuant to the 1990 Clean Air Act Amendments which imposed more stringent emission limitations on waste-to-energy facilities. The Corporation has agreed to design, construct, start-up, and test the equipment so that it passes the Acceptance tests.

Since Acceptance testing on each unit was completed in November 2000, the Operating Lease agreement between the ASWA and the Corporation took effect in January 2001. Since in essence the lease is a capital lease, the capital assets completed and covered by the lease and the promissory note are removed from the County records and are now considered a part of the plant. In FY 2010 they have been recorded in the same manner, as is the rest of the plant.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### D. Alexandria/Arlington Waste Disposal Trust Fund

The Alexandria/Arlington Waste Disposal Trust Fund ("the Trust") is a private purpose trust fund of Arlington County, Virginia and, accordingly, the financial position and results of operations of the Trust are reflected in the comprehensive annual financial report of Arlington County, Virginia. The City of Alexandria, Virginia and Arlington County, Virginia each have a 50% ownership interest in the Trust; however, because Arlington County performs the administrative functions for the Trust, it is reflected in the Arlington County reporting entity. As part of the Conditional Sale and Security Agreement, the Corporation made a payment of \$1,000,000 to the Trust, which was to be used as a reserve for future expenditures.

The Trust Fund derives its revenue from the following sources: a portion of the annual property tax assessment by the City of Alexandria, interest on invested funds and a portion of special revenues generated on contract waste. Revenues of \$944,560 were collected and project-related expenditures of \$3,483,499 were incurred in FY 2010.

Expenditures such as capital costs of repairs, replacement/changes to the facility, and waste recycling programs/activities which benefit the two jurisdictions are eligible for reimbursement through the Trust. In FY 2010, the Trust has been used to pay consulting fees to an engineering firm for operations and maintenance audits of the facility and for oversight of any remaining capital issues.

The Trust also has been used to subsidize the difference between the contractual tipping fee paid by haulers under special contracts and the standard tipping fee and to cover deficiencies arising in the "income-available-for-debt-service" calculations mandated by the Facility Agreement between the Corporation, the jurisdictions, and the Authorities. In June 2001, the City of Alexandria, with the concurrence of Arlington County took responsibility for the investment of Trust fund monies.

#### E. Arlington Regional Jail

On June 22, 1994, the County and the Treasury Board of the Commonwealth of Virginia signed a regional jail financing agreement. In this agreement, the Commonwealth agreed to provide, subject to appropriation by the General Assembly, reimbursement of certain debt service costs of the new Arlington Regional Jail, totaling \$35,400,000 through the year 2013. In FY 2010 \$1.8 million was received from the Commonwealth. The Arlington Regional Jail's assets and debt are recorded in the financial statements of the County.

#### F. Industrial Development Authority Ice Skating Facility

The County is committed to encouraging continuing economic development, including the area around Ballston, inducing the relocation to the County of private businesses to strengthen the business climate, and to making sports and recreation facilities available to the citizens of the County. To further these ends, on December 14, 2004, the County Board approved a resolution to assist the Washington Capitals Hockey Club (the "Capitals"), a professional team of the National Hockey League, in the development and construction of a skating facility and related improvements (the "Skating Facility"). The Skating Facility was built on the eighth (top) level of the existing Ballston Public Parking Garage (the "Garage"), which is owned by the County, adjacent to the Ballston Commons Mall. In 1984, the County had assisted in the development of Ballston Commons Mall, by constructing the existing seven-level parking garage. Under the current arrangements, the County leases the land on which the Garage is built and owns certain rights in the Garage pursuant to a ground lease between the Federated Department Stores, Inc.(FDS), as lessor, and the County, as lessee.

The Skating Facility contains approximately 95,000 square feet of constructed space and houses, among other amenities, two ice sheets suitable for National Hockey League use, one of which is convertible to host sports and events that do not require the ice surface; locker rooms and other training facilities for the Capitals; changing rooms for youth and adult hockey teams and figure skaters; a pro shop; rooms for public use; and corporate office space for the Capitals. The development also includes public parking (the "Parking Facilities").

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

As part of the agreement, the County agreed to construct an eighth level slab (the "Eighth Level Slab") on top of the Garage, to lease the Eighth Level Slab to the Industrial Development Authority of Arlington County, Virginia (the "IDA"), and to acquire the rights necessary to assist the development and construction of the project on the Garage pursuant to a Skating Facility Agreement (the "Skating Facility Agreement"), among the County, FDS, and certain other parties. The County has also constructed public parking (the "Parking Facilities") on the Eighth Level Slab.

The IDA agreed to acquire the rights necessary to undertake development and construction of the Skating Facility pursuant to the Deed of Lease and Grant of Air Rights, and, as third party beneficiary, under the Skating Facility Agreement. The County is currently leasing the Eighth Level Slab to the IDA and the IDA is leasing back to the County a portion of the Eighth Level Slab on which the County is operating the Parking Facilities.

In 2005, the IDA negotiated with the Capitals a Development Agreement under which the IDA developed and constructed the Skating Facility. The IDA issued \$35,700,000 Series 2005 IDA Skating Facility Taxable Revenue Bonds (the "Bonds") to provide financing for the Skating Facility and, if necessary, the Parking Facilities.

On April 22, 2010 the IDA issued \$30,120,000 Series 2010 IDA Taxable Revenue Refunding Bonds ("Refunding Bonds") with an average interest rate of 5.37% to refund \$35,200,000 of outstanding Bonds. The net proceeds of \$29,781,467 (after payment of \$338,533 in underwriting fees, insurance, and other issuance costs) plus an additional \$5,418,533 debt service reserve fund and debt service fund monies were used as payment on the Bonds. The 2005 Bonds were issued as a floating rate obligation, with interest payable monthly based off of a spread to the London Interbank Offered Rate (LIBOR). The Bonds were redeemed in full at par on May 3, 2010 without penalty and there would not be any Net Present Value (NPV) savings given that the Bonds were floating rate obligation callable at any time.

A Cooperation Agreement between the County and the IDA states that, subject to appropriation of funds by the County Board, the County will deliver to the IDA sufficient funds so that the IDA can, among other things, make payments with respect to the Bonds and otherwise carry out its obligations under the Development Agreement if necessary. To further secure its obligations to make payments with respect to the Bonds, the IDA will, if required, grant a lien on and security interest in all of its right, title and interest in the Project, including its leasehold interest in the Eighth Level Slab, under a Leasehold Deed of Trust and Security Agreement between the IDA and certain individual trustees for the benefit of the trustee for the Bonds.

The IDA owns the Skating Facility and is currently leasing it to the Capitals, or an affiliate, pursuant to a Deed of Lease (the "Capitals Lease"), between the IDA and the Capitals, under which the Capitals have furnished, equip and operate the Skating Facility. Under the Capitals Lease, the Capitals will make monthly payments of rent that are approximately equal to debt service on the Bonds. Under the Cooperation Agreement, the IDA will agree to remit to the County all revenues received from the leasing of the Skating Facility, including those derived under the Capitals Lease. In FY 2010, 2.4 million was received from the Capitals.

Construction on the project started in April of 2005 and the ice rinks opened to the public and the Capitals on November 10, 2006.

#### G. Industrial Development Authority Affordable Housing Project

AHC Limited Partnership-10 ("AHC-10") and AHC Limited Partnership-11 ("AHC-11") (collectively the "Gates Partnership")

Debt (Series 2006) was issued by the Industrial Authority of Arlington County, Virginia and the proceeds loaned to the Gates Partnership in order to acquire, rehabilitate, and equip a 464-unit multifamily apartment complex for rental to individuals and families of low-income known as the Gates of Ballston (the Project). The debt is projected to be repaid from the revenues generated by the Project. AHC-10 owns the Project, is the borrower on the debt, and leases the Project to AHC-11 under a master lease agreement; AHC-11 rents the Project units to subtenants, pays all operating expenses, and is responsible for making monthly lease payments to AHC-10. The Gates Partnership also has a mortgage note with the Virginia Housing Development Authority and a promissory note with the County. Subject to appropriation, the County will only be responsible for reimbursement of the debt service payments to the extent that the debt service reserve of the Gates Partnership is insufficient to make the required debt service payments.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### H. Closure Care Costs – Department of Human Services (DHS) Laboratory

State and federal laws and regulations require the County to pay for the closure and processing/removal of any medical waste on site at the DHS laboratory when it stops accepting waste to be processed by the steam sterilizer at the laboratory. Although closure costs will be paid only near or after the date that the laboratory is closed, the County reports a portion of the closure costs as an operating expense in each period based on a formula provided by the Virginia Department of Environmental Quality. The County has chosen the use of the annual operating budget as the method for funding the closure cost. Because the County satisfies the requirements of section 9VAC20-70-210 of the Virginia General Assembly legislative Information System administrative code, the reported liability for the closure at June 30, 2010 is \$1.

#### I. Litigation

The County is a defendant in lawsuits concerning various matters; in the opinion of the County Attorney, the resulting liability from these lawsuits is not expected to be material.

#### **NOTE 14. Joint Ventures**

#### A. Northern Virginia Criminal Justice Academy

The County participates in a joint venture with Loudoun County and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park to provide training for sworn law enforcement and correctional officers to satisfy requirements mandated by the Commonwealth of Virginia. The Industrial Development Authority of Loudoun County, Virginia issued \$6,585,000 Northern Virginia Criminal Justice Academy Lease Revenue Bonds, Series 1993, to finance the acquisition, renovation, and equipment of the Academy Training Center. The County, the City of Alexandria, and Loudoun County have entered into a capital lease with the Industrial Development Authority of Loudoun County. The County maintains an equity interest only in the land and building of the Academy, which is reflected in the County's General Capital Leases. The County does not maintain an equity interest in the Academy's operations.

In addition, the County pays the Northern Virginia Criminal Justice Academy for operating costs based on the pro-rata share of officers trained. In FY 2010, the County paid \$487,289 for capital and operating costs. Financial statements for the Academy may be obtained from the Northern Virginia Criminal Justice Academy, 45299 Research Place, Ashburn, Virginia, 22011-2600.

#### B. Peumansend Creek Regional Jail Authority

In 1992, the County entered into an agreement with the Counties of Caroline, Prince William and Loudoun, and the City of Alexandria to form an Authority to construct and operate a regional jail in Caroline County. The regional jail is used primarily to hold prisoners from each member jurisdiction. The Authority is composed of two representatives, the Chief Administrative Officer and the Sheriff, from each participating jurisdiction. The City of Richmond, which was not party to the original agreement, is now a part of the project.

The regional jail is currently designed with the capacity for 336 prisoners. The County is guaranteed a minimum of 60 beds. Current cost projections anticipate a total project cost of approximately \$27 million with 50% of the eligible construction cost (\$23.8 million) to be reimbursed by the Commonwealth. The Authority issued \$10.22 million in revenue bonds and \$12 million in grant anticipation notes in March 1997. The County has no equity in the jail and is not responsible for repayment of the bonds or notes. The County's portion of the project costs includes approximately \$3.8 million over the 20-year period of debt (1997-2017). In FY 2010, the County paid \$780,889 for capital and operating costs. Financial statements may be obtained from the Peumansend Creek Regional Jail Authority, P. O. Box 1460, Bowling Green, Virginia, 22427.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### **NOTE 15. Deferred Compensation Plan**

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all County employees, excluding School Board employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

All amounts of compensation under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are solely the property and rights of the plan participants and their beneficiaries. Participants' rights under the plan are in an amount equal to the fair market value of the deferred account for each participant. Investments in the plan are valued at market. All defined contribution plan assets are invested as directed by the individual employee and the plan is administered by ING.

#### **NOTE 16. Employee Retirement Systems**

The County maintains a single-employer, defined benefit pension plan, the Arlington County Employees' Retirement System ("System"), which covers substantially all employees of the County Board. The County also participates in the Virginia Retirement System ("VRS") that covers most School Board employees and some County employees associated with state agencies. The System was established under Chapters 46, 35, and 21 of the Arlington County Code.

The pension plan financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. The County's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the system. All plan investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price on the County's balance sheet date. Securities without an established market are reported at estimated fair value.

Complete financial statements of the system may be obtained from the Arlington County Employee Retirement System, 2100 Clarendon Boulevard, Suite 511, Arlington, Virginia, 22201. Complete financial statements of the VRS may be obtained from the Virginia Retirement System, Attn: William Sullivan, P. O. Box 2500, Richmond, Virginia, 23218.

#### A. Arlington County Employees' Retirement System

#### **Plan Description and Provisions**

The System is a single employer public employee retirement pension plan. The System provides retirement benefits as well as disability benefits. Membership is required of all employees except certain employees hired prior to February 8, 1981, seasonal or temporary employees, employees hired at age 62 or older (52 for uniformed employees) and elected officials who do not elect to participate within 60 days of assuming office.

All benefits vest after 5 years of credited service. Accumulated employee contributions plus interest are usually refunded to the employee or designated beneficiary if an employee leaves County employment prior to vesting. Benefits are calculated as a percentage of average annual compensation, as defined by County code.

At July 1, 2009, the date of the most recent actuarial valuation, System membership consisted of the following:

	<u>General</u>	<u>Uniformed</u>	<u>School</u>	<u>Total</u>
Current Employees:				
Vested	1,677	586	92	2,355
Non-Vested	993	243	-	1,236
Total	2,670	829	92	3,591
Vested Deferred	116	15	98	229
Retirees and Beneficiaries	1,718	688	1,135	3,541

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

While the County has not expressed any intent to discontinue the System, it is free to do so at any time providing that benefits accrued to the date of termination are adequately funded.

#### **Funding Policy**

The System's funding policy provides for periodic County and employee contributions at actuarially determined rates that, expressed as a percentage of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due. Contribution rates are determined using the entry age actuarial cost method. The System also has used the level percentage of payroll method to amortize any over -funded / unfunded liability over an open period of 15 years rolling.

Contributions totaling \$53,719,391 (\$42,908,044 of Employer contributions, \$10,763,748 of Employee contributions, and \$47,599 other contributions) were made in accordance with actuarially determined contribution requirements determined through an actuarial valuation performed as of July 1, 2009. Member contributions are established by Arlington County Code, and are deducted from the members' salaries. For FY 2010, the member contribution rates varied up to 6.62% of their salary depending on the chapter of the plan they were covered under.

#### **Annual Pension Cost**

Net pension obligation represents the difference between the annual pension costs and the actuarially required contributions. The County had no unfunded pension obligation at June 30, 2009. Three-year trend information is presented below.

#### Schedule of Employer Contributions

Year Ended	Annual Pension	Percentage
<u>June 30</u>	Cost (ARC) (in millions)	<u>Contributed</u>
2008	30.0	100.0%
2009	37.1	100.0%
2010	42.9	100.0%

The Arlington County Code requires the System to have an actuarial valuation at least biannually. The annual required contribution for the current year was determined as part of the July 1, 2009 actuarial valuation.

#### **Actuarial Assumptions**

The information presented below are the significant actuarial assumptions.

Valuation date	07/01/09
Actuarial cost method	Entry Age Normal
Remaining amortization period	17.68 years
Amortization method	Level % Open
Asset valuation method	5 year, smoothed
Actuarial assumptions	
Assumed inflation rate	4.5%
Investment rate of return	80%
Projected salary increases	4.5%

#### Cost of living adjustments

Chapter 21	1.5%
Chapter 46	100% CPI-U increase
	to a maximum of 3%
	plus ½ CPI-U increase

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

for next 9% (max 7 ½% increase for 12% increase in CPI-U)

#### **Three-Year Trend Information**

Three-year historical trend information about the System is presented below as required supplementary information. This information is intended to help users assess the System's funding status on a going-concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other public employee retirement systems.

#### Schedule of Funding Progress (\$ in millions)

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (b)	Unfunded Actuarial Accrued Liabilities (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b-a)/c]
7/1/07	1,348.1	1,290.8	(57.3)	104.4%	242.2	(23.7)%
7/1/08	1,449.2	1,380.5	(68.7)	105.0%	224.1	(30.7)%
7/1/09	1,375.8	1,474.0	98.2	93.3%	220.8	44.5%

Analysis of the dollar amounts of plan net assets, actuarial accrued liability, and unfunded actuarial accrued liability in isolation can be misleading. Expressing plan net assets as a percentage of the actuarial accrued liability provides one indication of the system's funding status on a going-concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the system. Trends in the unfunded actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the System's progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the system. In addition, the actuarial valuation of assets is determined by smoothing the asset gain or loss over a period of time.

#### B. Virginia Retirement System (VRS)

#### **Plan Description**

Professional employees of Arlington County Public Schools participate in the VRS Statewide teacher cost-sharing pool. There are 146 school system participating employers in this pool. VRS is administered by the State, which bills the County for the employer's share of contributions. In accordance with the requirements established by State statue, the VRS provides retirement and disability benefits, annual cost-of-living adjustments, and deaths benefits to plan members and beneficiaries. The VRS issues a publicly available annual report that includes financial statements and required supplementary information for the VRS; this report can be obtained by writing the Virginia Retirement System, Attention: William Sullivan, P.O. Box 2500, Richmond, Virginia, 23218-2500.

#### **Funding Policy**

Retirement benefits are funded by employer contributions and by investment earnings. In accordance with State statute, the County is required to contribute at an actuarially determined rate. State statute may be amended only by the Commonwealth of Virginia General Assembly. In FY 2010, the contribution rate was 14.85%. The County's contributions to the VRS for the years ended June 30, 2010, 2009 and 2008 were \$29.7 million, \$34.4 million and \$35.4 million respectively, which were equal to the required contributions for each year.

#### **NOTES TO FINANCIAL STATEMENTS**

#### **JUNE 30, 2010**

#### Schedule of Funding Progress (\$ in millions)

Actuarial Valuation Date June 30	Actuarial Value of Assets (a)	Actuarial Accrued Liability Entry Age (b)	Unfunded Actuarial Accrued Liabilities (UAAL (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll (b-a)/(c)

2006	302	424	122	71.3%	54	225.9%

#### NOTE 17. Other Post-Employment Benefits (OPEB)

#### A. County OPEB

#### **Plan Description**

In addition to the pension benefits described in Note 16, the County administers a single-employer defined benefit healthcare plan. The plan provides post-employment health care benefits to all eligible permanent employees who meet the requirements under the County's pension plans. Eligibility is contingent upon the retiree participating in one of the County's current health plans at the time of retirement. The plan does not issue a publicly available financial report.

#### **Funding Policy**

The contribution requirements of plan members are established and may be amended by the County Board. Funding for these benefits is currently made on a pay-as-you-go basis; however, the County intends to fund the annual required contribution (ARC) in future years. For full career employees, the County currently contributes 80% towards the cost of medical and dental health premiums and 100% of premiums for a fixed coverage for life and accidental death insurance. For FY 2010 the County contributed \$9,594,488 and \$296,011 towards health and life plans respectively. Plan members receiving benefits contributed \$2,588,054 and \$296,011 towards health and life plans respectively. The County contributed an additional \$6,868,438 in pre-funding contributions towards health and life plans for retirees.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### **Annual OPEB Cost and Net OPEB Obligation**

The County's annual OPEB cost (expense) is calculated based on the ARC of the employer, an amount that was actuarially determined by using the Entry Age Actuarial Cost Method, an amount actuarially determined in accordance with the parameters of GASB Statement 45. Under this method, the normal cost rate is the percentage of pay contribution which would be sufficient to fund the plan benefits if it were paid from each member's entry into the plan until termination or retirement. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year. Management has chosen to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components to the plan, and changes in the County's net OPEB obligations:

Annual required contribution	\$16,698,955
Interest on net OPEB obligation	24,249
Adjustment to annual required contribution	(16,899)
Annual OPEB cost (expense)	16,706,305
Contributions made	16,758,937
Decrease in net OPEB obligation	(52,632)
Net OPEB obligation-beginning of year	303,107
Net OPEB obligation- end of year	\$250,475

The County's annual OPEB cost, the percentage of annual OPEB cost contributions to the plan, and the net OPEB obligations for the years ended June 30, 2010 and 2009 were as follows:

		Percentage of Annual				
Year Ended	Annual OPEB Cost	OPEB Cost Contributed	Net OPEB Obligation			
6/30/2009	15,700,000	150%	303,107			
6/30/2010	16,706,305	100.3%	250,475			

#### **Funded Status and Funding Progress**

As of June 30, 2010, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$214.4 million and the actuarial value of assets was \$15.0 million, resulting in an unfunded actuarial accrued liability of \$199.5 million. The covered payroll (annual payroll of active employees covered by the plan) was \$221.9 million, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 89.9 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2010, actuarial valuation, the entry age normal actuarial cost method was used. The actuarial assumptions included an 8 percent investment return, salary increases of 4.5 percent (plus merit scale), and an annual healthcare cost trend rate of 8.75 percent initially, grading to 5.5 percent over thirteen years. The unfunded actuarial accrued liability is being

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

amortized as a level percentage of projected payroll on an open basis. The remaining amortization period as of June 30, 2010 is thirty years.

Three year information about the plan is presented below as required supplementary information. This information is intended to help users assess whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### Schedule of Funding Progress (\$ in millions)

Actuarial <u>Valuation Date</u>	Actuarial Value of Assets (a)	Actuarial Accrued Liability (b)	Unfunded Actuarial Accrued Liabilities (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll <u>(c)</u>	UAAL as a Percentage of Covered Payroll [(b-a)/c]
1/1/08	\$10.0	\$281.0	\$271.0	3.6%	\$152.3	178%
1/1/09	\$16.0	\$226.0	\$210.0	7.1%	\$243.4	86%
1/1/10	\$14.9	\$214.4	\$199.4	7.0%	\$221.9	90%

#### **B. Schools OPEB**

#### **Plan Description**

In addition to the pension benefits described in Note 16, the Schools administer a single-employer defined benefit healthcare plan. The plan provides post-employment health care benefits to all eligible permanent employees who meet the requirements under the Schools' pension plans. Eligibility is contingent upon the retiree participating in one of the Schools' current health plans at the time of retirement. The plan does not issue a publicly available financial report.

#### **Funding Policy**

The contribution requirements of plan members are established and may be amended by the School Board. Funding for these benefits is currently made on a pay-as-you-go basis; however, the School Board intends to fund the annual required contribution (ARC) in future years. For full career employees, the Schools currently contributes between 58% and 77%, based on coverage selected, towards the cost of medical premiums. Dental insurance for retirees is paid 100% by the retiree. Life insurance for retirees is covered by the Virginia Retirement System. For FY 2010 the Schools' contributed \$5,095,289 and an additional \$4,735,656 in prefunding contributions towards health plans for retirees. Plan members receiving benefits contributed \$2,156,422 towards health plans.

#### **Annual OPEB Cost and Net OPEB Obligation**

The Schools' annual OPEB cost (expense) is calculated based on the ARC of the employer, an amount that was actuarially determined by using the Entry Age Actuarial Cost Method, an amount actuarially determined in accordance with the parameters of GASB Statement 45. Under this method, the normal cost rate is the percentage of pay contribution which would be sufficient to fund the plan benefits if it were paid from each member's entry into the plan until termination or retirement. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year. Management has chosen to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components to the plan, and changes in the School's net OPEB obligations:

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

Annual required contribution	\$8,986,982
Interest on net OPEB obligation	1,518,935
Adjustment to annual required contribution	(1,058,512)
Annual OPEB cost (expense)	9,447,405
Contributions made	(9,830,945)
Increase in net OPEB obligation	(383,540)
Net OPEB obligation-beginning of year	18,986,686
Net OPEB obligation- end of year	\$18,603,146

The Schools' annual OPEB cost, the percentage of annual OPEB cost contributions to the plan, and the net OPEB obligations for the fiscal years ended June 30, 2010 and 2009 were as follows:

	Annual	Percentage of	
Year	OPEB	Annual OPEB	Net OPEB
Ended	Cost	Cost Contributed	Obligation
06/30/10	\$9,447,405	109.4%	\$18,603,146
06/30/09	15,200,000	48.6%	18,986,686

#### **Funded Status and Funding Progress**

As of June 30, 2010, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$98.7 million, of which \$1.5 million was funded. The covered payroll (annual payroll of active employees covered by the plan) was \$234.1 million, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 41.5 percent. The Schools contributed an additional \$4.7 into the Retiree Welfare Benefit Trust during FY 2010 and have a \$.7 million health care reserve for future contributions.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the 2009/2010 actuarial valuation, the entry age normal actuarial cost method was used. The actuarial assumptions included an 8.0 percent investment return, salary increases of 4.5 percent (plus merit scale), and an annual healthcare cost trend rate of 8.75 percent initially, grading to 5.5 percent over thirteen years. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period as of June 30, 2010 is thirty years.

Three year information about the plan is presented below as required supplementary information. This information is intended to help users assess whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### NOTES TO FINANCIAL STATEMENTS

#### **JUNE 30, 2010**

#### Schedule of Funding Progress (\$ in millions)

Actuarial <u>Valuation Date</u>	Actuarial Value of Assets (a)	Actuarial Accrued Liability (b)	Unfunded Actuarial Accrued Liabilities (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b-a)/c]
07/01/07	\$0.0	\$267.9	\$267.9	0.0%	\$221.8	121%

07/01/09	\$1.5	\$98.7	\$97.2	6.4%	\$234.1	36.5%

#### **NOTE 18. Subsequent Events**

#### A. General Obligation Public Improvement & Refunding Bonds, Series 2010 A, B and C

On August 11, 2010, the County issued \$139.3 million in 20 year General Obligation Public Improvement & Refunding bonds. The Bonds were authorized by previous referenda in 2004, 2006 and 2008. New money proceeds of \$73.4 million were used for various County projects, the construction of Yorktown High School and the design of Wakefield High School. \$65.9 million was issued for the refunding of certain outstanding high interest debt.

The bonds sale yielded a true interest cost (TIC) of 2.72%, with the refunding portion of the bond sale generating net present value savings of \$2.35 million, or 3.5% of the refunded bonds.

#### B. Washington Metropolitan Area Transit Authority

In July 2010, the Metro Matters Program was succeeded by the WMATA Capital Funding Agreement (the "Agreement"). This Agreement covers \$5.0 billion in capital funding needs throughout fiscal years 2011 - 2016. The FY 2011 - 2016 Capital Improvement Program (CIP) is a 6 year forecast, updated annually, that lays out the specific projects to be funded, along with the sources of funds, in accordance with the Agreement. The CIP may include any capital project or purchase eligible for capital funding and may include projects in such categories as: vehicles and vehicle parts, rail system infrastructure rehabilitation, maintenance facilities, systems and technology, tracks and structures, passenger facilities, maintenance equipment, other facilities, project management, safety and security projects, and preventative maintenance.

Arlington County's contribution of \$80.7 million in funding over a six –year period of this Agreement, is subject to annual appropriation of funds, and other limitations on expenditures or obligations under the applicable law. Arlington County is planning to use General Obligation Bonds and state grants to cover its share of the Capital Funding Agreement needs.

# OTHER SUPPLEMENTARY INFORMATION

The supplemental schedules are presented to reflect finance-related legal and contractual compliance, details of data summarized in the preceding financial statements and other information deemed useful for financial statements users in the analysis of the County's financial activities.

# **Combined Financial Statements - Overview**

The combined financial statements provide a summary level of reporting for the operating results and financial position of the County's various fund types and account groups.

These "general purpose financial statements" provide a broad financial overview for users requiring less detailed information than is presented in the individual statements for each separate fund and account group.

#### ARLINGTON COUNTY, VIRGINIA COMBINING BALANCE SHEET NON-MAJOR GOVERNMENTAL FUNDS JUNE 30, 2010

# **General Fund**

The General Fund is the primary operating fund of the County and is used to account for the majority of current operating expenditures of the general government. Financing is also provided for the operations of other funds, which include the County's public school system. Debt service expenditures for the payments of principal and interest on the County's general long-term debt (bond and other long-term debt not serviced by the Utilities Operating or School Debt Service Funds) are included in this fund.

The major sources of revenue include property taxes, other local taxes, licenses, permits, fees and other miscellaneous charges. Revenues and expenditures under a variety of State and Federal grant programs are also accounted for in this fund.

## **Capital Projects Funds**

The Capital Projects Funds are used to account for the purchase and/or construction of major capital facilities, including buildings, roads and other long-lived improvements, which are not financed by proprietary funds. Financing is provided primarily by bond issues, State and Federal grants, and General Fund transfers.

The capital projects for general government functions which are financed under the County's pay-as-you-go capital programs are accounted for in the General Capital Projects Funds. As required by law, separate funds are used to account for the capital project expenditures financed by the proceeds of general obligation bonds.

.

## **Enterprise Funds**

Utilities Fund – to account for the operations, maintenance and construction of the County's water and sanitary sewer system and for the capital asset improvements in the Waste-To-Energy facility. Revenues of this fund consist principally of charges for services to County residents. Debt service on the general obligation bonds issued to finance the construction of plant facilities is also accounted for in this fund.

Ballston Public Parking Garage Fund – to account for the financing of services to the general public where all or most of the operating expenses involved are recovered in the form of charges to users of such services.

*IDA Revenue Bond Funds* – to account for financing activities for the Emergency Communication Center, the Trade Center Project, the George Mason Center Project, and the Enterprise Resource Planning Project.

Eighth Level Ballston Public Parking Garage Fund- to account for financing of services to the general public where all or most of the operating expenses involved are recovered in the form of charges to users of such services.

CPHD Development Fund – to account for financing of the fee-supported units of the Inspection Services Division and Planning Division. Operating expenses involved are recovered in the form of charges to users of such services.

## **Internal Service Funds**

Automotive Equipment Fund – to account for the costs related to the operation and maintenance of automotive equipment used by County departments and agencies. The acquisition and replacement of automotive equipment is accounted for in this fund. Revenue is derived primarily from user charges to recover actual costs which include depreciation of equipment.

Printing Fund – to account for the costs of operating a central print shop which provides printing and duplicating services to County departments and agencies. Revenue is derived principally from user charges and specific services.

Jail Industries Fund – to account for the costs of providing various services to County departments and agencies by jail inmates, who in return develop useable job skills. Revenue is derived principally from user charges for specific services delivered.

## **Fiduciary Funds**

Fiduciary funds are used to account for the assets received and disbursed by the County government acting in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds.

**Pension Trust Fund** – to account for the operations of the Arlington Employee's Supplemental Retirement System.

Other Post-employment Benefits (OPEB) Fund – to account for the assets held in trust by the County for the employees / beneficiaries of its OPEB plan.

### **Private Purpose Trust Funds:**

Alexandria/Arlington Waste Disposal Trust Fund – to account for the Waste Disposal Trust Fund set up by the County and the City of Alexandria to provide a reserve for future expenditures for waste disposal.

*IDA- Ballston Skating Facility Fund* – to account for the Ballston Skating Facility which is funded and owned by the Arlington Industrial Development Authority.

IDA – Affordable Housing Investment Fund (AHIF+) – to account for affordable housing projects financed by loans obtained by the Arlington Industrial Development Authority.

Other Private Purpose Trust Funds – to account for contributions from private donors and other miscellaneous sources which are restricted for various recreational and other community service programs.

#### **Agency Funds:**

Commonwealth of Virginia Fund – to account for the collection and remittance of State taxes and fees by the County as an agency for the Commonwealth of Virginia.

*Urban Area Security Initiative Fund* – to account for funding provided by the U.S. Department of Homeland Security to develop and implement plans for terrorism prevention, preparedness, response and/or recovery.

Drug Task Force Fund – to account for the support of anti-drug enforcement operations in the Baltimore-Washington Metropolitan area including Northern Virginia.

Other Agency Funds – to account for contributions from private donors and other miscellaneous sources which are restricted for various recreational and other community service programs.

## **Discretely Presented** ARLINGTON Component Unit -**Schools**

School Operating Fund - to account for the general operations of the County's public school system. Financing is provided primarily by transfers from the General Fund and from State and Federal grants to be used only for education programs.

School Cafeteria Fund - to account for the operations of the School food services programs for student meals. Revenue is provided by fees, State financing and other miscellaneous sources to be used for School food service operations.

School Community Activities Fund - to account for the operations of various community service programs, which include aquatic centers and day care facilities. Financing is provided primarily by General Fund transfers and fees collected for specific activities.

School Special Grant/ Debt Service Funds - to account for the operations of various special school programs, which are financed by limited term grants under State and Federal aid Debt Service expenditures for the payment of principal and interest on school bonds are also accounted for in these funds.

School Capital Project Funds – to account for purchase and /or construction of major capital facilities for the schools. The capital projects which are financed under the County's Pay-As-You-go Capital Programs are accounted for in the School Capital Projects Pay-As-You-Go Fund. As required by law, a separate fund, the School Capital Projects Bond Fund, is used to account for the capital project expenditures financed by the proceeds of general obligation bonds.

School Comprehensive Services Act Fund - to account for expenditures for at-risk youth by the Department of Human Services- Foster Care, Juvenile and Domestic Relations District Court and the Schools. The State reimburses 55% of these expenditures.

Arlington County School Board Retiree Welfare Benefit Plan Trust – to account for the assets held in trust by the School Board for the employees / beneficiaries of its OPEB plan.

# ARLINGTON COUNTY, VIRGINIA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - COMPONENT UNIT-SCHOOLS TO STATEMENT OF ACTIVITIES - COMPONENT UNIT SCHOOLS FOR THE YEAR ENDED JUNE 30, 2010

Net change in fund balances - component unit-Schools		(\$12,168,932)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets.  Add: Capital acquisitions  Less Depreciation expense	45,414,799 (15,274,330)	30,140,469
Lease proceeds provide current financial resources to the governmental funds, but capital leases increases long-term liabilities in the Statement of Net Assets. Repayment of capital leases is an expenditure in the governmental funds, but the repayment reduces long term liabilities in the Statement of Net Assets.		
Add: Repayment of capital leases Less Proceeds from capital leases	2,833,752 (3,132,234)	(298,482)
OPEB expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds		383,540
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds such as compensated absences and workers compensation	_	(1,758,517)

Change in net assets of component unit-Schools

#### NOTES:

The amounts of delinquent real and personal property taxes receivable at June 30, 2010 are presented on the basis of the County's fiscal years during which such taxes became due.

The delinquent real estate taxes for the fiscal year consist of all taxes which were levied for the prior calendar year, and for the fifteen years preceding, which remain uncollected as of the close of the fiscal year.

The delinquent personal property taxes for the fiscal year consist of all taxes which were levied for the prior calendar year, and for the four years preceding, which remain uncollected as of the close of the fiscal year.

The amounts of delinquent taxes include the original levy and subsequent adjustment for penalties. The penalty balances for real and personal property taxes totaled \$36,515 and \$731,120, respectively.

# **STATISTICAL** (Unaudited)

This part of the Arlington County Comprehensive Annual Financial Report ("CAFR") presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time (Table A, Table B, Table C, Table D, Table E and Table F.).

# **Revenue Capacity**

These schedules contain information to help the reader assess the County's most significant local revenue source, the property tax (Table G, and Table H).

# **Debt Capacity**

These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and its ability to issue additional debt in the future ( Table I , Table J1 and Table J2 ).

# **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place (Table K and Table L).

# **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the County's CAFR relates to the services the County provides and the activities it performs (Table M, Table N, and Table O).

### Other

These schedules contain information needed for NRMSIRs and other disclosures. (Tables P-W).

# ARLINGTON COUNTY, VIRGINIA DESCRIPTION OF THE WASTEWATER & WATER SYSTEM & WASTEWATER & WATER RATES June 30, 2010

#### **Wastewater System**

#### Description of System

The County began its pollution abatement program in 1933 with the approval of a bond referendum for a county-wide sewage system to include 100 miles of sanitary sewers and a water pollution control plant (the "Plant") providing primary treatment. The Plant was placed in service in 1937. In response to continued growth, the Plant has been repeatedly expanded, with upgrades providing for advanced treatment, new preliminary treatment, a new dewatering building, and a new equalization tank to minimize fluctuation of flow to the Plant.

The County's system presently consists of 465 miles of gravity sewer lines, eleven pumping stations, three ejector stations, two meter stations and the Plant. The Plant has a rated capacity of 30 million gallons per day (MGD). Current flows average 26.1 MGD.

#### Plant Upgrade & Expansion

In April 2001, County staff and an external engineering team were assembled to update the 1988 Master Plan to address wet weather external bypasses, new and foreseen regulations, aging infrastructure and capacity requirements with respect to the Wastewater System. The result of this effort is the Master Plan Update 2001 ("MP01"). The MP01 provides for the goal of minimization of wet weather external bypasses, increased redundancy, expansion of capacity to handle flows to approximately 2020 + and a positive environmental impact for Four Mile Run, the Potomac River, and the Chesapeake Bay. The MP01 features a two phase design process and three construction contracts as well as program management and engineering services. Major facilities included in the MP01 include two new aeration tanks, two new equalization tanks, a new biofilter facility, and three new secondary clarifiers.

The total cost of all phases of the MP01 is estimated to be \$568 million. County ratepayer's share is estimated to be 82 percent; Inter-Jurisdictional Partners' share is 18 percent. Financing to date for the County's share has been provided by several sources. There have been eight Wastewater System & Water System Revenue bonds totaling \$300 million issued to the Virginia Water Facilities Revolving Loan Fund Program (the "VWFRF") which is administered by the Virginia Resources Authority ("VRA"). General Obligation bonds of the County were issued in Spring 2007 for \$48.5 million, and in 2008 for \$27.4 million. Grant funds from the Water Quality Improvement Fund under the Department of Environmental Quality Chesapeake Bay Program for approximately \$96 million were authorized in February 2007. The County anticipates that the balance of MP01 will be funded by additional general obligation bonds.

#### Major Customers

The County's wastewater system serves residents and businesses in the County. A list of the top ten retail wastewater customers is included in Table T of the Statistical Section. On a wholesale basis, the County's wastewater system serves Alexandria Sanitation Authority; the City of Alexandria, Virginia; the City of Falls Church, Virginia; and Fairfax County, Virginia (together, the "Inter-Jurisdictional Partners" or "IJ Partners"). Arlington has contractual agreements for wastewater conveyance and treatment with the IJ Partners that set forth the terms of these relationships, including the calculation of both operating and capital charges. A summary of each IJ Partner contract is included in the table below; additional information on the contracts can be requested from the County's Department of Environmental Services, Utilities Service Office at (703)228-3601.

IJ Partner	Share of Plant Capacity	Agreement Expiration Date
Fairfax County	3.0 MGD	30-Jun-04
		Fairfax provided written notification that contract will be honored until new agreement is negotiated
. ,	3.0 MGD	30-Jun-87
Authority (ASA)	MGD	Agreement provides that it is binding until Arlington system is not in existence and as long as either party is not in default.  ASA provided written notification that contract will be honored until new agreement is negotiated
City of Falls Church	0.8 MGD	09-Sep-12
	Peak flow capacity of 2.0 MGD	

#### **Water Distribution System**

#### Description of System

Arlington County purchases water on a wholesale basis from the Washington Aqueduct, a branch of the U.S. Army Corps of Engineers. The water system was established in 1927 after an Act of Congress, approved April 14, 1926, authorized Arlington County to receive water from a water supply pumping station at the Dalecarlia Reservoir Water Treatment Plant in northwest Washington, D.C. Average daily production at Dalecarlia, which also serves the District of Columbia, the City of Falls Church, the Pentagon, and Reagan National Airport, is 90 MGD. Average daily production for the entire Washington Aqueduct system is 155 MGD.

The County's water distribution system presently consists of approximately 500 miles of pipes with diameters of up to 48 inches, five pumping stations, and 32 million gallons of finished storage. Current daily average flow is 23.2 MGD to approximately 37,000 service accounts. The system serves residents and businesses in the County but does not provide water to the Pentagon or Reagan National Airport except under emergency situations, during construction, or other unusual circumstances.

#### Washington Aqueduct Agreement

The County entered into an agreement dated as of July 17, 1997 (the "Water Sales Agreement") with the United States of America acting through the Secretary of the Army providing for the sale and furnishing of water to the County from the Washington Aqueduct. The County has pledged the revenues derived from the ownership and operation of its water system to secure its pro rata share of Aqueduct operating costs, including operations and maintenance, the cost of any water purchases for resale, and debt service on certain loans made by the Secretary of the Treasury to the District of Columbia and the Secretary of the Army and debt service on certain bonds previously issued by the District of Columbia., all of which were incurred to finance improvements to the Secretary of the Army's water system. Additional information on the Water Sales Agreement can be requested from the County's Department of Environmental Services, Utilities Service Office at (703)228-3601.

#### Wastewater & Water Rates

Retail rates for fiscal years 2006 through 2011 are shown in the following table. The typical residential customer pays \$68.50 per month, assuming annual consumption of 70,000 gallons. Historically, rate increases have been effective on May 1 prior to the start of the fiscal year.

FY 2006 – FY 2011 Wastewater & Water Rates Per 1,000 Gallons of Metered Water Usage

Fiscal				Percent
Year	Water	Wastewater	Total	Change
2006	\$3.02	\$4.11	\$7.13	15%
2007	\$3.21	\$4.79	\$8.00	12%
2008	\$3.34	\$5.86	\$9.20	15%
2009	\$3.35	\$7.19	\$10.54	15%
2010	\$3.42	\$7.78	\$11.20	6%
2011	\$3.50	\$8.24	\$11.74	5%

The County also charges a variety of other water and wastewater fees to its retail customers, including infrastructure availability fees, connection fees, pretreatment fees, late charges, and new account fees, among others.

#### **Outstanding Debt**

As of June 30, 2010, general obligation debt outstanding attributable to the Utilities Fund totaled \$105,459,880. As of June 30, 2010, outstanding debt for Wastewater System and Water System Revenue Bonds issued through the VWFRF to the VRA totaled \$256,458,343. The following table shows future debt service on these obligations.

Fiscal Year	TOTAL EXIS	STING GO DEB	T SERVICE		VRA BONDS			TOTAL

Historical debt service coverage can be found in Table J-2 of the Statistical Section, and additional information on debt attributable to the Utilities Fund can be found in Exhibit S-3, the Combined Schedule of Long-Term Obligations.

#### Other Financial & Legal Information

Additional financial information on the Utilities Fund can be found in Exhibits D-1, D-2, and D-3 and the accompanying Notes to the Financial Statements, including a statement regarding significant litigation, if any. Information on insurance coverage can be found in Table P of the Statistical Section. Required certificates from the County and its independent engineer can be found in Tables S and V of the Statistical Section. Information on management of the County and the Department of Environmental Services and the Department of Management and Finance can be found in the Introductory Section.

ACWPCB Program Management Master Plan 2001 Update

#### PM-AC-00713

October 14, 2010

Mr. Larry Slattery Arlington County Water Pollution Control Bureau 3402 South Glebe Road Arlington, VA 22202

Dear Mr. Slattery,

Pursuant to Section 5.2 of the Financing Agreement dated as of June 28, 2005 (the "Financing Agreement") between the Virginia Resources Authority as administrator of the Virginia Revolving Loan Fund, and Arlington County ("the County"), the undersigned states the following based on my inquiry of the person or persons who manage the system and whose directly responsible for gathering the information:

- 1. I am a representative of the Consulting Engineer to the County for the project financed through the Virginia Resources Authority.
- 2. For the fiscal year ended on June 30, 2010, the County satisfied the Rate Covenant.
- 3. For the fiscal year that will end on June 30, 2011, the projected net revenues will satisfy the Rate Covenant.

Dated: October 14, 2010

Professional Engineer VA # 04020 19737

Representative of Earth Tech/AECOM

cc: Elizabeth Craig, Management & Budget Specialist, ACWPCB Document Control

# FEDERALLY ASSISTED PROGRAMS

In June 1996, the U.S. Office of Management and Budget revised OMB Circular A-133, "Audits of States, Local Governments, and Non-profit Organizations." The underlying concept of this circular is to establish uniform audit requirements for state, local government, and non-profit organizations that receive federal awards.

Contained in this section are the following independent Auditor's Reports on:

- Schedule of Expenditures of Federal Awards;
- Compliance and on Internal Control over Financial Reporting; and
- Compliance with requirements applicable to each major program and internal control over compliance in accordance with OMB Circular A-133

# Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Honorable Members of the County Board Arlington County, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Arlington County, Virginia (the County) as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements and have issued our report thereon dated October 28, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

# **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We did not identify any significant deficiencies in internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County in a separate letter dated October 28, 2010.

This report is intended solely for the information and use of the County, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Baltimore, Maryland October 28, 2010

Clifton Gunderson LLP

# Independent Auditor's Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

The Honorable Members of the County Board Arlington County, Virginia

## Compliance

We have audited the compliance of the Arlington County, Virginia (the County) with the types of compliance requirements described in the Office of Management and Budget (OMB) Circular A-133, Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County's compliance with those requirements.

In our opinion, the County complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. However, the results of our auditing procedures disclosed instances of noncompliance with the suspension and debarment requirement for subrecipients, which are required to be reported in accordance with OMB Circular A-133 and is described in the accompanying schedule of findings and questioned costs as item 2010-02.

# **Internal Control Over Compliance**

The management of the County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as items 2010-01 and 2010-02. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

#### **Schedule of Expenditures of Federal Awards**

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County as of and for the year ended June 30, 2010, and have issued our report thereon dated October 28, 2010. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the County's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of the Board, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties

# ARLINGTON COUNTY, VIRGINIA NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30. 2010

#### NOTE 1. BASIS OF PRESENTION

The schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting in all material respects and includes all expenditures of federal awards administered by the County. Several programs are funded jointly by the Commonwealth of Virginia and the County in accordance with matching requirements of the various federal grants. Costs incurred for such programs are applied to Federal grant funds in accordance with the terms of the related Federal grants with the remainder applied to funds provided by the Commonwealth of Virginia and the County.

All costs charged to Federal Awards are determined based on the applicable Federal grants and OMB Circular A-87. Costs Principles Applicable to Grants and Contracts with State and Local Governments. The County's Federal grants are also managed in accordance with the requirements of OBM Circular A-102, Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments.

#### **NOTE 2. FEDERAL COGNIZANT AGENCY**

The Federal cognizant agency for the County is the U.S. Department of Health and Human Services.

# **II.** Financial Statement Findings

None

# III. Federal Award Findings and Questioned Costs

Finding No 2010-01: Supervisory review of case files was not evident

**Finding Type:** Internal control over compliance finding

**Federal Program:** Child Care Cluster, CFDA 93.575, 93,596, 93.713

Adoption, CFDA 93,569

Condition: The County's procedures for supervisory review of child care and

adoption case files were not consistently performed.

Criteria: The Internal Control Integrated Framework (COSO Report), requires

review of eligibility documents, evidenced by authorized signatures (manual or electronic), to ensure the accuracy of the information used to

determine eligibility.

Cause: During fiscal year 2010, the County experienced a high turn-over of staff

which resulted in the inconsistent application of the established

procedures.

**Effect:** The County may not be compliant with federal program requirements.

**Context:** 8 out of 40 child care case files and 31 out of 40 Adoption case files did

not have evidence of supervisory review of participant's eligibility

determination.

Questioned Costs: None noted. All case files selected for testing were in compliance with the

federal program requirements.

**Recommendation:** We recommend that the County consistently follow established procedures

to ensure compliance with grantor requirements.

Management's

**Response:** Procedures will be created to ensure supervisory or designee signature on

the service application to ensure appropriate case review and accuracy of

the information used to determine eligibility.

Finding No 2010-02: The County's suspension and debarment verification procedures

were not performed for subrecipients.

**Finding Type:** Compliance and internal control over compliance finding

Federal Program: Community Development Block Grant (CDBG), CFDA 14.218

Condition: Suspension and debarment verification was not performed for

subrecipients participating in the CDBG program

Criteria: Under non-procurement suspension and debarment rules in effect prior to

November 26, 2003, covered transactions included procurement contracts for goods or services equal to or in excess of \$100,000 (the "small purchase" or "simplified acquisition threshold"). As of November 26, 2003 "covered transactions" include those procurement contracts for goods and services awarded under a non-procurement transaction (e.g., grant or cooperative agreement) that are expected to equal or exceed \$25,000 or meet certain other specified criteria. \$\_\_.220 of the government-wide non-procurement debarment and suspension common rule contains those additional limited circumstances. All non-procurement transactions (i.e., sub-awards to subrecipients), irrespective of award amount, are considered covered transactions. This was the case prior to

November 26, 2003, and was not changed by the revised rules.

The COSO Report, requires review of eligibility documents, evidenced by authorized signatures (manual or electronic), to ensure the accuracy of the

information used to determine eligibility.

Cause: The County was not aware that the suspension and debarment requirement

was applicable to subrecipients.

Effect: The County is not in compliance with the federal suspension and

debarment requirements.

**Context**: For 2 out of 2 subrecipient's tested, the suspension and debarment status

was not verified.

**Ouestioned Costs:** None noted. None of the sub recipients were suspended or debarred.

Recommendation: We recommend that the County's amend their current suspension and

debarment verification procedures to include subrecipients.

Management's Response:

We currently do not verify that subrecipients providing non-procured services above \$25,000 such as housing counseling or youth services are de-barred or suspended. This step can be added to our procedure for determining eligibility for CDBG and HOME funding each year prior to funding an activity.

Finding No 2009-01: Arlington County Public Schools (APS) provided Title I services to

ineligible school students. The Schools did not have adequate controls in

place to detect errors in student status.

**Finding Type:** Internal control over compliance and compliance finding

**Federal Program:** Title I, CFDA 84.010

**Condition:** Based on testing of twenty-five students, APS identified five students who

exited the program in school year 2008 as receiving services in school year 2009. As such, these students never actually received services in

2009.

**Current Status:** Resolved

Finding No 2009-02: The County procedures for determining participant eligibility were not

consistently performed. The County was not in compliance with the

eligibility compliance requirement.

Finding Type: Internal control over compliance and compliance finding

**Federal Program:** Adoption Services, CFDA 93.659

**Condition:** One out of 25 children tested was determined ineligible for the adoption

subsidy.

**Current Status**: Resolved

Finding No 2009-03: The County's procedures for supervisory review of child care service

applications were not consistently performed.

**Finding Type:** Internal control over compliance finding

**Federal Program:** Child Care Cluster, CFDA 93.575, 93,596, and 93.713

**Condition:** 24 out of 25 cases selected did not contain evidence of supervisory review

of the service application, as required by the County's procedures.

Current Status: Not resolved, repeated as item 2010-01
