Plan/Study	Description	Housing Commission and County Board Meetings
<p>Multifamily Reinvestment Study (Formerly Housing Conservation District [HCD])</p>	<p>The HCD was established by the County Board in December 2017 to preserve affordable housing resources in areas of the County with market rate affordable housing. An update report was published in May of 2019 containing analysis and preliminary recommendations.</p> <p>As part of the planning work related to the Housing Conservation District (HCD), staff is examining the bonus density and height provisions for Article 6 Multiple-Family (RA) districts comprehensively (both within the HCD and more broadly) following the adoption of a zoning amendment related to bonus density in November 2019. The anticipated Multi-family Reinvestment Policy/Zoning Tool is a refined approach to implement adopted HCD policy goals while also modernizing standards for other areas of Arlington County planned and zoned for multi-family housing not identified in previous steps in the HCD study. This new approach would streamline standards to provide guidance for multifamily development in RA districts, based on newly established, common expectations for density, building placement, affordability, parking, housing diversity, and height.</p>	<p>CB Approved Policy Framework, GLUP Amendments, AHMP Amendments</p>
<p>Plan Langston Boulevard</p>	<p>The purpose of the study is to develop a comprehensive vision and policy framework for the future of this important corridor and its surrounding areas. Arlington's planning team is developing a Preliminary Concept Plan (PCP) for the Langston Boulevard corridor. The PCP will describe planning goals, policies, and recommendations for private and public investment within the study area for review by the community and the County. The PCP will be based on previously shared planning ideas and input from the community. There will be opportunities for additional public feedback, and the plan will be updated again before review and adoption.</p>	<p>HC September 2023</p>
