The Arlington County Board
Arlington, Virginia 22201

Dear Arlington County Board members:

On multiple occasions you noted that you were interested in hearing from the Green Valley Civic Association regarding the aesthetics of the proposed ART Bus Operations and Maintenance Facility. While we have communicated about the need for electric vehicles, site optimization, environmental considerations, parking, improved community engagement, etc., we write to you today about a specific aesthetic proposed by staff.

The County is proposing to place a large, lit ART logo on the top of a tower facing the Green Valley residential community. There is no need for such garish signage for a supposedly low-key, secure campus. Plus, other signage is visible on the buildings. It is wholly unacceptable to have such signage face the residential community. We have requested this change repeatedly to staff, but to no avail. Your assistance would be appreciated in convincing them to remove this unnecessary display.

Sincerely,

Portia Clark	Dr. Alfred O. Taylor, Jr.	Julie Siegel
Amanda Lukoff	Cicely Whitfield	Rob Perino
Kim Roberts	LaVerne Langhorn	Terron Sims, II
