

## How to Register for Multiple Programs/Family Members at Once

- Select as many activities as you would like by clicking the Green Plus or the Brown Plus button.
- Once you've selected an activity, it will appear in a list in a green banner at the bottom of your screen.
- If you have selected an activity you no longer want, click the Blue Minus sign next to that activity. If you want to deselect everything listed in the green banner, click the "Clear Selection" button.
- You are welcome to do additional searches and select additional classes. The green banner at the bottom of the screen will remain.
- Once you have selected all the activities you are interested in, click the "Add to Cart" button in the green banner at the bottom of your screen.

### IMPORTANT

A Green Plus (+) means that the program had at least one spot available at the time of your search. The enrollment is not finalized until you have selected the participant(s) and answered any enrollment questions required to put the item in your cart. All spots could be filled before you complete this process, and you may be waitlisted.

For each member of your household, select the program(s) you are registering them for.

You can select all the programs, none of the programs, or any combination of programs.

When you have finished selecting the programs for each member of your household, click the "Continue" button.

Depending on the program(s) selected, you may proceed directly to the shopping cart, or you may be prompted to answer questions, select optional fees, and/ or sign waivers before the item is added to your shopping cart.

**Activity Registration**

For each family member listed, CHECK the box next to each activity in which you would like that family member enrolled. **You must do this even if there is only one family member listed and/or one activity listed.**

\*Note: if a family member is not shown or an activity is not listed under a given family member, that family member does not meet the eligibility requirements (age, gender, etc.) for that activity.
