

| Section | Variable | Definition |
|-------------------|--|---|
| Population | Total People | All people living in a given geographic area. For this application the total represents Arlington County or civic association(s). |
| | Percent of Total | The percent of Arlington’s total population living in the selected geography. |
| | Percent with Bachelor’s Degree or Higher | The percent of the population age 25-years and older with a bachelor’s degree or higher. |
| | Persons Below Poverty | The percent of the population, of which poverty has been determined, that is below the poverty level. More information on the US Census Bureau’s poverty thresholds. |
| | Race and Ethnicity | <p>The self-identification of the person’s race. Ethnicity refers to the ethnic origin of the Hispanic or Latino population.</p> <p>The race and ethnic categories reflected are guidelines provided by the U.S. Office of Management and Budget (OMB) and utilized by the U.S. Census Bureau. The racial categories included in the census questionnaire generally reflect a social definition of race recognized in this country and not an attempt to define race biologically, anthropologically, or genetically.</p> |
| | Age | The length of time in completed years that a person has lived. |
| Households | Total Households | The total number of occupied housing units for a geographic area. A household includes all the people who occupy a housing unit (such as a house or apartment) as their usual place of residence. |
| | Percent of Total | The percent of Arlington’s total households in the selected geography. |
| | Average Household Size | A measure obtained by dividing the number of people in households by the total number of households. |

| | | |
|-----------------------------|-----------------------------------|---|
| Households Continued | Average Household Income | A measure obtained by dividing aggregate household income by the total number of households. |
| | English Limited Households | Percentage of households that do not speak English very well or at all. |
| | Household Type | Household classified by time according to the presence of relatives. A family includes a householder and one or more people living in the same household who are related to the householder by birth, marriage, or adoption. A nonfamily household consists of a householder living alone (a one-person household) or where the householder shares the home only with people to whom he/she is not related (e.g., a roommate). |
| | Persons Per Household | The total number of people living in a housing unit. |
| | Percent of Households by Income | The percentage distribution of households based on the sum of the income of all people 15 years and older living in the household. |
| | | |
| Housing | Total Units | A house, townhome, duplex, side-by-side, condo, apartment, a mobile home or trailer, a group of rooms, or a single room occupied as separate living quarters, or if vacant, intended for occupancy as separate living quarters. |
| | Percent of Total | The percent of Arlington’s total housing units in the selected geography. |
| | Housing Unit Type | Unit type refers to the different types of housing structures: Single Family Detached, Single Family Attached, and Multi-Family. |
| | Housing Unit Occupancy | Housing occupancy refers to the relationship between the property owner and habitants. |
| | Housing Cost as Percent of Income | The percentage of household income spent on housing. |

| | | |
|--------------------------|---------------------------------|---|
| Housing Continued | | For owners this includes common utilities, any applicable condominium and mobile home fees, taxes, insurance, mortgages and home loans. For renters this includes gross rent plus utilities. |
| | Owner Occupied Units | Housing unit is occupied by owner of unit. |
| | Renter Occupied Units | Housing unit is occupied by renter. |
| | | |
| Employment | Civilian Labor Force | The labor force includes all people classified in the civilian labor force, plus members of the U.S. Armed Forces (people on active duty with the United States Army, Air Force, Navy, Marine Corps, or Coast Guard). The civilian labor force consists of people classified as employed or unemployed. |
| | Percent of Total | The percent of Arlington’s total civilian labor force in the selected geography. |
| | Labor Force Participation Rate | Represents the proportion of the population that is in the labor force. |
| | Unemployment Rate | Represents the number of unemployed people as a percentage of the civilian labor force. |
| | Place of Work | The usual geographic location at which workers carried out their occupational activities during the employment status reference week. The terms worksite, workplace, and place of work are interchangeable. |
| | Means of Transportation to Work | The principal mode of travel or type of conveyance, by distance rather than time, that the worker usually used to get from home to work during the employment status reference week. |
