

Lorcom Lane Safety Project

Please share your feedback with us!

The Lorcom Lane safety project will deliver multimodal safety improvements on Lorcom Lane from 24th Rd North / North Quebec Street to Nelly Custis Drive. Since March 2021 as part of a pilot project, temporary parking restrictions provide a walking path on the north side of Lorcom Lane between N Quebec Street and N Oakland Street.

Existing Conditions

Temporary walkways on the north side of Lorcom Lane as part of the Vision Zero pilot walkability project. Photo shown is southeast of the intersection of Lorcom Lane and N Quebec Street.

An example of the condition of curb ramps on Lorcom Lane. Photo shown is southeast of the intersection of Lorcom Lane and N Quincy Street.

Constraints

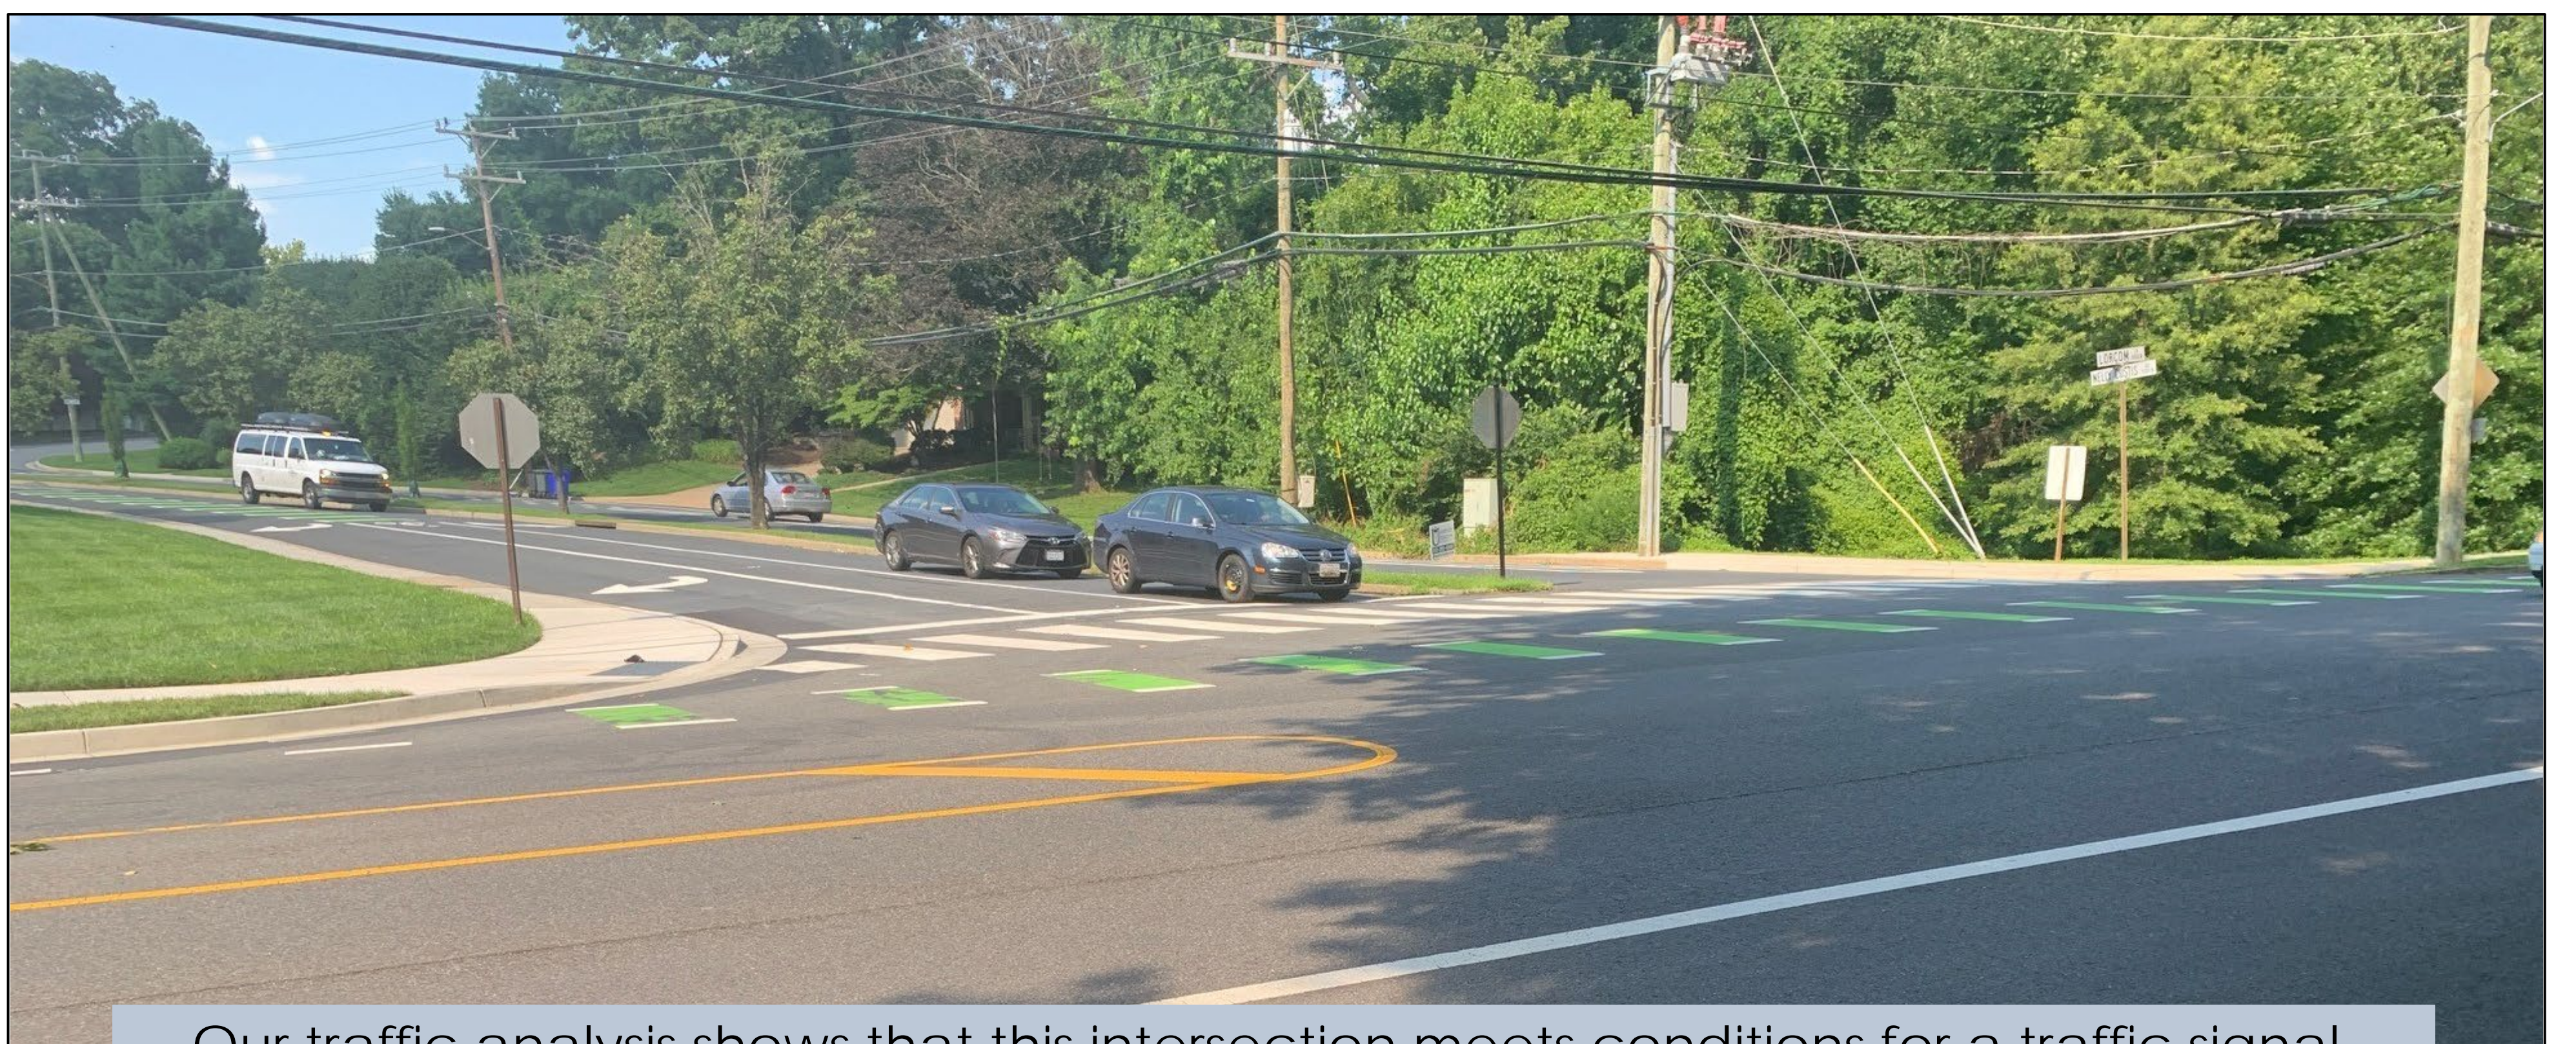

Retaining wall in photo above located south of the intersection of Lorcom Lane and N Nelson Street.

Utility pole in photo above located northwest of the intersection of Lorcom Lane and Nelly Custis Drive.

Intersection: Lorcom Lane and Nelly Custis Drive

Our traffic analysis shows that this intersection meets conditions for a traffic signal.
