KIDS GAMES! PLANT TOURS! ASK AN EXPERT!

Drop by our family-friendly open house to learn about Arlington Re-Gen, a major improvement project at the Water Pollution Control Plant. Construction begins this fall!

To learn more about the facility upgrades visit:
arlingtonregen.com

DID YOU KNOW?

This project will replace aging plant equipment with **state-of-the-art technology**. The upgrades will allow Arlington County to recover two key resources from wastewater:

Class A Biosolids

A nutrient-rich soil amendment that can be used for agriculture, gardens, forests, and landscaping.

Biogas

An energy source that can be used as renewable natural gas in place of fossil fuel-based natural gas or as a renewable vehicle fuel.
