AED Arlington Economic Development

AFSCME American Federation of State, County and Municipal Employees

AHC Arlington Housing Corporation

AHIF Affordable Housing Investment Fund

AID TO LOCALITIES Financial assistance in the form of grants, reimbursements for

personnel services, local portions of fee and tax revenues, and any other monies allocated to local jurisdictions by the Commonwealth

of Virginia.

AIRE Arlington Initiative to Rethink Energy

ALLOCATE To set apart or earmark for a specific purpose.

AOMF ART Operations and Maintenance Facility

ARPA The American Rescue Plan Act is a federal economic stimulus bill

passed on March 11, 2021 that provides funding, program changes, and tax policies aimed at mitigating the continuing effects of the COVID-19 pandemic. One component of ARPA is to provide \$350 billion to help states, counties, cities, and tribal governments cover increased expenditures, replenish lost revenue, and mitigate economic harm from the COVID-19 pandemic. Funding should cover costs incurred by December 31,

2024.

APPROPRIATION

A legal authorization approved by the County Board to expend or obligate a specific level of funds for an approved program. The County Board appropriates funds for programs by department or agency, and the County Manager has the authority to approve transfer of funds within a department or agency. The County Board sets an initial appropriation for each fiscal year and then may amend that appropriation during the course of the fiscal year, as it deems necessary (see Supplemental Appropriation).

APS

Arlington Public Schools

ARLINGTON **NEIGHBORHOODS PROGRAM**

Arlington Neighborhoods Program (ANP), Neighborhood Conservation Program, provides a mechanism for funding capital projects to address the needs of participating County neighborhoods. The Program is overseen by the Arlington Neighborhoods Advisory Committee (ArNAC), made up of representatives from all participating neighborhoods.

ART

Arlington Transit

ASSESS OR ASSESSMENT (1) As a verb, the process of making the official valuation of property for purposes of taxation. (2) As a noun, the value set for a particular piece of property by the assessor.

EQUIVALENTS (FTEs)

AUTHORIZED FULL TIME The full count of staff positions approved by the County Board.

BALANCED BUDGET

The County Manager annually proposes, and the County Board adopts, a budget or financial plan for the upcoming year in which the revenues available (including any available fund balance from prior years) match or exceed the projected expenditures. The County also executes the budget each year so that expenditures will not exceed revenues.

BASE BUDGET

Terminology used in the Proposed Budget document referring to the budget as proposed by the County Manager. It does not include Program Change Proposals, Strategic Initiatives, or Policy Priorities that have not been funded within the base budget.

BID

Business Improvement District. A designated portion of the County in which the property owners are levied a special tax assessment to fund improvements and enhancements in that area. The first BID to be designated was in Rosslyn in 2002. A second BID in Crystal City was designated in 2006 (re-named to National Landing in 2020), and a third in Ballston was established in January 2011.

BOND FINANCING

Refers to the method of financing capital improvement projects. Arlington County generally sells capital improvement general obligation bonds. The bonds are issued for a 20-year period and repaid on a level principal basis. Arlington County must seek voter approval to issue general obligation bonds in November of even-numbered calendar years.

BPOL Business, Professional, and Occupational License Tax

BUDGET A specific plan which identifies a plan of operations for the fiscal

year, states the expenditures required to meet that plan of operations, as well as identifies the revenues necessary to finance the plan. The annual County budget is established by County

Board resolution.

BUDGET GUIDELINE The explicit dollar amount given to each department or agency for

its operating budget ceiling. The budget guidelines are calculated initially by the Department of Management and Finance (DMF), and approved and agreed upon by each department or agency. Each guideline is developed considering the issues facing the department as well as the overall financial position of the County

government.

BUDGET PLANNING

ESTIMATE

Budget guidance founded upon projected revenues, established by the County Board, directing the County Manager's preparation of the Proposed Budget, including a transfer for the School Board.

BUDGET REDUCTION Items, programs, or positions specifically identified within a

department or division which have been removed from the department or division's base budget to generate savings to the General Fund or other funds. Budget reductions may also be achieved through revenue increases, which reduce the reliance on

net tax support.

CAPITAL PROJECT Purchase or construction of an item or system that generally has

a value of at least \$100,000 and has a useful life of 10 years, or purchase of an information technology system enhancement with

a value of at least \$25,000.

CAO County Attorney's Office

CARRYOVER Refers to the process of transferring specific funds, encumbrances,

and obligations previously approved by the Board from the end of

one fiscal year to the next fiscal period.

CARES The Coronavirus Aid, Relief and Economic Security Act

CBO County Board Office

CDCAC Community Development Citizens Advisory Committee

CDBG Refers to the Community Development Block Grant program

funded by the United States Department of Housing and Urban Development (HUD) to improve the housing, neighborhood, and economic conditions of Arlington County's low- and moderate-income residents through a comprehensive approach to

planning and implementing programs and activities.

C&I Commercial and Industrial Property Tax

CMO County Manager's Office

CHARGE OUT/BACK Refers to the process by which departments assess the costs that

pertain to capital project design and implementation contained in their budgets to pay-as-you-go and bond funds. This procedure

removes the expense from the department's budget.

CIP Capital Improvement Plan

COLA Cost of Living Adjustment

COLLECTIVE BARGAINING Collective bargaining is a process of negotiation between

employers and a group of employees aimed at agreements to regulate working salaries, working conditions, benefits, and other

aspects of workers' compensation and rights for workers.

COLLECTIVE BARGAINING

AGREEMENT

A collective bargaining agreement (CBA) is a contract reached as a result of negotiations between representatives of a union and

the employer.

CONSTITUTIONAL OFFICES Refers to the offices or agencies directed by elected officials whose

positions are established by the Constitution of the Commonwealth of Virginia or its statutes. In Arlington, the Sheriff, Treasurer, Commissioner of Revenue, Clerk of the Circuit Court, and Commonwealth's Attorney are the five Constitutional Officers.

CONTINGENT Funds set aside to provide for unforeseen expenditures or new

projects initiated after the fiscal year has begun, e.g., General Fund General Contingent or Affordable Housing Investment Fund

Contingent.

COOP BUDGET The annual allocation from Virginia Department of Health (VDH)

to the Arlington Health District as one of the thirty-five health districts in the Commonwealth. The budget supports services mandated in a cooperative agreement between VDH and us as a

local administrated health district.

COVID-19 Coronavirus Disease 2019

CPHD Department of Community Planning, Housing and Development

CPI Consumer Price Index. This measure, which is produced by the

United States Bureau of Labor Statistics, estimates the average price of consumer goods and services purchased by households.

CRITICAL MEASURE A type of outcome measure that indicates how well a program is

performing key services to achieve program goals and objectives.

CSA Comprehensive Services Act for Youth and Families

CSB Community Services Board (also known as the ACSB, Arlington

Community Services Board). A County Board appointed board which has by authority of the code of Virginia oversight over mental health, intellectual disability, and substance abuse services

in the County.

CSBG Community Services Block Grant

CY Calendar Year

DCJS Department of Criminal Justice Services

DEBT SERVICE The amount of principal and interest that the County pays on its

bond financing.

DEPARTMENT An entity, such as the Department of Human Services, that

coordinates services in a particular area.

DEPRECIATION A systematic accounting method used to decrease an assets' value

on the books in pace with its condition as its used over its expected

life span.

DES Department of Environmental Services

DHS Department of Human Services

DMF Department of Management and Finance

DPR Department of Parks and Recreation

DPSCEM Department of Public Safety Communications and Emergency

Management (formerly called the Office of Emergency

Management - OEM)

DROP Deferred Retirement Option Program

DTS Department of Technology Services

ELIMINATED FTE A full-time equivalent position specifically identified within a

department or division which has been removed from the department or division's base budget and is no longer authorized

to be filled.

ENCUMBRANCES Funds set aside to pay for contracted goods and services.

Encumbrances represent the dollar amount to be paid upon

completion of the contract.

ENTERPRISE FUND Enterprise funds are used to account for the financing of services

to the general public where the operating expenses involved are usually recovered in the form of charges to users. The Utilities Fund and the CPHD Development Fund are the County's two

primary enterprise funds.

EOP The Emergency Operations Plan (EOP) specifies actions to be

taken during an emergency.

ERMS Electronic Records Management System

ET3 Program The Fire department's Triage Treat and Transport (ET3) program

that provides telemedicine and in-person qualified healthcare

practitioner consultations.

EXPENDITURES Outflows of cash or liabilities incurred as a result of rendering

services or carrying out other activities that constitute the entity's

ongoing or major operations.

FISCAL YEAR In Arlington County, the 12 months beginning July 1 and ending

the following June 30th. (The federal government's fiscal year

begins October 1.)

FRINGE BENEFITS The fringe benefit expenditures included in the budget are the

County's share of the costs above base salary for employees, due to additional benefits provided or federally mandated costs. Major fringe benefits provided by Arlington County include: retirement, FICA, health insurance, life insurance, and transit subsidies. The amount of the fringe benefit is based on a percentage of an employee's salary or a set amount. Other County benefits include unemployment and worker's compensation and disability insurance. Fringe benefits costs are borne by the County and the

employee in most cases.

FROZEN FTE The number of full-time equivalent positions for which the

resources to support the positions are not included in the budget. In order to meet budget guidelines, some departments elect to hold positions vacant for the coming fiscal year. In doing this, the authorization for the position remains with the department, but the dollars needed to fund the position have been removed from the base budget. County Departments' are prohibited from hiring

these positions.

FSA A flexible spending account (FSA) is an account that allows an

employee to set aside a portion of earnings to pay for qualified expenses, most commonly for medical expenses and dependent care. Money deducted from an employee's pay into an FSA is not

subject to payroll taxes.

FULL-TIME EQUIVALENT

(FTE)

The measure of authorized personnel. It is calculated by equating 2,080 hours of work per year (2,600 for uniformed firefighters as of FY 2023 and 1,950 for uniformed police officers as of FY 2024) with the full-time equivalent of one position (referred to in the

budget as an FTE).

FUND

A separate accounting unit comprised of its own specific revenues and expenditures, and assets and liabilities. Each fund in the County's accounting structure is established to segregate a particular set of fiscal activities. Separate funds, established by the County, include the General Fund, which is the general operating fund of the County and is used to account for general government revenues and expenditures; the School Operating Fund, which details revenues and expenditures for the County's public school system; and the Utilities Fund, which details the fiscal activities of the County's water, sewer, and wastewater treatment plant. Other funds are established to isolate capital expenditures as well as inter-governmental service organizations, which sell their services (as would private enterprise) to other County agencies.

FUND BALANCE

The balance of resources remaining at the end of a fiscal year, calculated by taking the beginning balance as of the beginning of the fiscal year, adding in all revenues received during the year, and subtracting that year's expenditures. Fund balance is available to support the spending needs of the fund.

FUNDED FTES

The number of full-time equivalent positions for which the resources to support the positions have been included in the budget. The count of funded FTEs is calculated as the number of authorized FTEs less the number of frozen FTEs.

FUND TRANSFER

Movement of resources from one fund to another, which is authorized by the County Board. This is primarily done between the General Fund and other operating funds, for example, General Fund transfer to the Automotive Equipment Fund for new vehicles authorized by the County Board.

FY

Fiscal Year

GASB

The Governmental Accounting Standard Board (GASB) is the primary standard-setting body for governmental accounting and financial reporting.

GENERAL FUND (GF)

A fund type used to account for the ordinary operations of County government that are financed from taxes and other general revenues and are not accounted for in other funds. This is the most important fund in the Arlington County budget, and it is comprised primarily of local tax revenues and fees.

GRANTS

Contributions or gifts of cash or other assets from another government or private entity to be used or expended for a specified purpose or activity.

HCD

Housing and Community Development

HCV

Housing Choice Vouchers

HIV

Human Immunodeficiency Virus

HOMF The HOME Investment Partnership Act, a federal housing program

HRD Human Resources Department

HUD United States Department of Housing and Urban Development

IAFF International Association of Fire Fighters

IDA **Industrial Development Authority**

INDIRECT COST Expenditures that are required in the production of a good or

service which cannot be directly traceable to the good or service.

INTERNAL SERVICE FUNDS Funds established to finance and account for services furnished by

> a designated County agency to other agencies, where the service is provided on a cost reimbursement basis. Internal Service Funds

include Printing and Automotive Equipment.

JFAC Joint Facilities Advisory Committee

JTPA Job Training Partnership Act

LIB Department of Libraries

LINE OF BUSINESS A subset of a County department that has a uniquely identifiable

budget, staff, and function.

LIVING WAGE The living wage is a strategy used to raise the incomes of low-paid

> employees to a level sufficient to provide adequate food, housing, and health care. Arlington implemented a living wage policy for County employees and certain contractors in FY 2004 and was updated in FY 2017 (to \$14.50 per hour), in FY 2019 (to \$15.00 per hour), and in FY 2022 (to \$17.00 per hour). The living wage rate is reviewed on an annual basis as part of the budget process.

MARKET PAY An overall increase in the County's employee pay scale, expressed **ADJUSTMENT**

on a percentage basis, based on an assessment of the County's

pay scale in relation to other area jurisdictions.

Market Rate Affordable Units **MARKS**

MC Maintenance Capital, previously called Capital Assets Preservation

> Program (CAPP), is funded through the capital portion of the budget. This is a program intended to prolong the useful life of existing capital assets by ensuring they are maintained, updated

and renewed as necessary.

METRO Washington Metropolitan Area Transit Authority

MISSION STATEMENT A short, succinct statement that describes why a program or

department exists.

NET TAX SUPPORT (NTS)

The amount of local taxes required to finance a particular program

or set of programs. The net tax support is determined by subtracting all state and federal aid, fees, charges and other directly attributable revenues from the total cost of the program

or set of programs.

NON-PERSONNEL

EXPENSES

Includes the cost of contractual services, supplies, and materials

and equipment. Also referred to as "Operating Expenses."

NSA Neighborhood Strategy Area

NVTA Northern Virginia Transportation Authority

OBJECTIVE Refers to a strategic position to be attained or a purpose to be

achieved.

OCCP Office of Climate Coordination and Policy

OPEB Other Post-Employment Benefits

OPERATING EXPENSES Includes the cost of contractual services, supplies, and materials

and equipment. Also referred to as "Non-Personnel Expenses."

OPERATING RESERVE A portion of County revenues that are received and set aside for

use in financing unforeseen major revenue shortfalls.

OSHA Occupational Safety and Health Administration

OUTCOME MEASURE Results oriented measure that demonstrates the achievement of

a department or program's mission.

PAY-AS-YOU-GO (PAYG) Refers to the method of financing capital projects. The

Pay-As-You-Go Capital projects are funded from annual

appropriations as part of the adopted operating budget.

PCI Pavement Condition Index

PERFORMANCE MEASURES A listing of a department, division, or program's measures that

reflect information pertaining to relative overall outcomes or

customer, process, financial, or work force measurements.

PERSONAL PROPERTY A category of property, other than real estate, identified for

purposes of taxation. It is comprised of personally owned vehicles as well as corporate property and business equipment. Examples include automobiles, motorcycles, trailers, boats, airplanes, business furnishings, and manufacturing equipment. Goods held for sale by manufacturers, wholesalers, or retailers are not

included in this category.

PERSONNEL EXPENSES Refers to the costs of salaries, wages, and fringe benefits such as

the employer's share of retirement contributions, Social Security (FICA) contributions, health insurance, life insurance, and

employee transit subsidies.

POLICY PRIORITY Program enhancements identified by the County Manager for

County Board consideration as part of the proposed budget. These are not funded within the base budget but are proposed as options to add to the base budget. Also referred to in some years as

"Program Change Proposals."

PPG Police Practices Work Group

PPTRA Personal Property Tax Relief Act of 1998

PREA Prison Rape Elimination Act

PRODUCTIVITY/EFFICIENCY

SAVINGS

Items, programs, and tasks identified by each department or agency that have been altered or eliminated to produce a more

efficient use of resources.

PRIIA The Passenger Rail Investment and Improvement Act of 2008

PROGRAM A part of an organization with definable and unique functions,

goals, or objectives. Two examples are the Residential Refuse and Recycling Program within the Department of Environmental Services and the Madison Adult Day Health Care Center within the

Department of Human Services.

PROGRAM CHANGE A policy or program alternative (representing a change from PROPOSAL (PCP) current operations) identified by the County Manager for County

current operations) identified by the County Manager for County Board consideration. PCPs are not included as recommended items financed within the base budget; rather, these proposals are options to add or subtract from the budget as proposed. Also referred to in some years as "Policy Priorities" or "Strategic

Initiatives."

PROGRAM GOAL A general statement of purpose. A goal provides an operating

framework for each program unit and reflects realistic constraints

upon the unit providing the service.

PSC Public Service Corporation

REAL PROPERTY Real estate, including land and improvements (buildings, fences,

pavements, etc.) classified for purposes of assessment.

REEP Arlington Education and Employment Program

REVENUE Income that Arlington County collects and receives into the

treasury for public use. Taxes, fees for services, and grants are

sources of revenue, for example.

REVISED BUDGET A presentation of the budget sometimes used for comparative

purposes, which includes the budget adopted by the County Board, plus specific supplemental appropriations approved by the

Board during the course of the fiscal year.

SCAAP State Criminal Alien Assistance Program

SHORT-TERM FINANCING Short-term financing is a financing mechanism with a short

maturing rate used to acquire equipment, rolling stock, furniture and technology purchases that have useful lives ranging from three to ten years. The County had previously used master lease

financing as the tool for these types of purchases.

SLT Skilled Laborer and Trades

SPECIAL REVENUE FUND Funds established to segregate resources restricted to

expenditures for a specific purpose. The Rosslyn Business Improvement District fund is an example of a special revenue

fund.

STATE SHARE Revenue in the Department of Human Services which flows

through a variety of state agencies to the County in support of human service programs. The funding may originate as state or federal funds, but all comes through the state, often as a block

grant or on a formula basis.

SUPPLEMENTAL An increase to a department's budget (spending authority)
APPROPRIATION approved by the County Board during the course of the fiscal year.

approved by the County Board during the course of the fiscal year. It generally involves appropriation of a grant or other outside

revenue.

SUPPORTING MEASURE A type of output measure that indicates the amount of services a

program provides and supports the achievement of critical measures. Outputs are the amount of services a program provides. These services support the program achieving its

desired results or the outcome.

TANF Temporary Assistance for Needy Families

TAX BASE The total market value of real property (land, buildings, and

related improvements), public service corporation property, and personal property (cars, boats, and business tangible equipment)

in the County.

TAX RATE The level of taxation stated in dollars. For example, the adopted

FY 2024 real estate tax rate of \$1.013 per \$100 of assessed valuation (excluding the stormwater tax) on a \$400,000 house would result in a real estate tax bill of \$4,052 per year (\$400,000

X 0.01013 = \$4,052).

TCF Transportation Capital Fund

TIF Tax Increment Financing

TOAH Transit Oriented Affordable Housing

TRUST AND AGENCY

ACCOUNT

Accounts used for contributions from private donors and other miscellaneous sources which are restricted for various purposes.

Funds in these accounts are not reflected in the County's operating

budget.

TSS Transportation Safety Specialist

USDOJ United States Department of Justice

VHDA Virginia Housing & Development Authority

¹ Certain portions of fund balance have been reserved or designated by the County Board for specific purposes (See ACFR). The FY 2023 beginning and ending fund balance includes the GASB 84 adjustment shown in the FY 2023 ACFR. The FY 2024 adopted beginning balance is restated to reflect the actual FY 2023 ending balance.

² Revenue and expenditure detail for Other Funds can be found in the fund statements contained in the Enterprise, Special Revenue, and Internal Service Fund section of this budget book.

³ Contingents - General/Other includes costs for the General Contingent, Stabilization Reserve, and COVID-19 Response.

⁴ Miscellaneous revenues and operating expenses in FY 2023 include GASB 87 and 96 adjustments. See the GASB 87 and 96 summary in the Budget Summaries section of the adopted budget book for departmental details.

The County does not budget for its Stores function in the Auto Fund as it buys and charges other County departments for inventory items like vehicle parts and fuel. The Stores function generates revenue to cover its expenses by charging other County departments.

5c The County does not budget for its Postage function in the Print Fund. The Postage function generates revenue to cover its expenses by charging other County departments.

⁷ The Stormwater program will be funded by Stormwater Utility fees starting from CY 2024, which requires the County to move this program from Governmental to Enterprise Fund. Hence, the County set up new enterprise funds to track the Operating and Capital Stormwater budget and actual transactions separately beginning FY 2024. The FY 2024 budget was revised following adoption.

NOTES:

⁽¹⁾ Includes County and Schools General Obligation and Subject to Appropriation bonded debt but excludes debt paid from Enterprise Funds.

⁽²⁾ Resident Population reflects U.S. Census Bureau Intercensal Estimates for FY 2014 through FY 2019 and annual population estimates for FY 2020 and FY 2021. FY 2022 actuals through FY 2024 Adopted numbers reflects Arlington County CPHD Estimate as of January 1, 2024. The FY 2025 CPHD estimate is based on residential development under construction on or before October 1, 2024.

⁽³⁾ At-Place Employment FY 2015 - FY 2020 reflect estimates published in the annual Arlington County Profile.

⁽⁴⁾ At-Place Employment numbers for FY 2021 - FY 2021 reflect CPHD's employement estimation methodology utilizing development statistics and office vacancy rates at the time of estimation. FY 2025 holds FY 2024 estimate constant and adds Amazon HQ2 jobs estimate for 2025. Employment estimated also reflects office vacancy rates but does not capture temporary and permanent changes in work location such as teleworking due to COVID-19.

⁽⁵⁾ School enrollment is as of September 30 during the FY; enrollment is projected for the upcoming FY.

TAX & FEE COMPENDIUM

Arlington County provides services benefitting the entire community, individual residents, and businesses – all of which are funded through a variety of revenue streams including taxes, fees, rents, grants, and Federal and State aid.

Beginning in FY 2016, the County began a compilation of tax and fee tools that the Board has at its disposal, either on its own authority or as governed by the Commonwealth. The compilation of taxes and fees, (available <u>in more detail online</u>) includes information on fees in both the General Fund and other funds.

Local Taxes

In the FY 2025 Proposed Budget, local taxes total \$1.3 billion, 85% of the ongoing General Fund budget. More detail on each of these local taxes can be found in the Revenue section. Because Virginia is a Dillon law state, on many of the taxes, the State dictates what taxes can be charged and the tax rates. Arlington County has rates set either at the maximum rate or at rates that help us maintain our economic competitiveness in the region.

The only local tax that the County has not adopted, but legally could, is the Admissions tax. This is a tax on admissions paid for particular events including admissions on events sponsored by public and private educational institutions, admissions charged for sporting events, etc. Very few jurisdictions across the Commonwealth charge this tax and receipts are negligible for those that do. Staff believes this would generate minimal revenue for the County and could be administratively burdensome.

Fees

The fees listed in the compilation of taxes and fees (<u>found online</u>) include funds collected for Licenses, Permits, General Fees, Fines, Rent, and Fees for Charges for Services. Fees more often relate directly to payment for a service or product. The County uses fees to help fund services that meet particular criteria:

- 1. Fall within statutory or regulatory restrictions;
- 2. Contribute to providing efficient services; and
- 3. Either provide some individual benefit or promote common community values including safety (i.e., building and fire permits).

County fees are set based on many factors including the level of individual benefit, the cost of the service being provided, and the fee levels in comparable jurisdictions. Fees charged for services bear a reasonable relationship to the service for which the fee is imposed. Each department conducts an annual review of their fee levels and proposes changes when appropriate during the annual budget process.

The Opioid Settlement Reserve may only be used on approved opioid abatement purposes.

OPIOID SETTLEMENT RESERVE

As a participating jurisdiction to various nationwide settlement agreements with opioid distributors, Arlington County is eligible to receive:

- Direct payments from the <u>settlement administrators</u>
- An allocation from the <u>Virginia Opioid Abatement Authority</u> (OAA)
- Competitive grants from the OAA

The funding in the Opioid Settlement Reserve may only be used on approved opioid abatement purposes. In the FY 2024 adopted budget, the County Board appropriated its first use of the settlement funding to expand the County's Office-Based Opioid Treatment Program (OBOT) in the Department of Human Services by adding a Behavioral Health Therapist (\$128,345, 1.00 FTE) and consultant funds (\$45,000) to conduct a program evaluation of OBOT. The additional therapist funded by the settlement reserve allowed the OBOT program to expand its reach to more participants providing more access to critical medication assisted treatment and therapy. The consultant funding for program evaluation ensured the most appropriate services are being provided. The FY 2025 proposed budget continues funding the therapist added in the FY 2024 adopted budget. Future appropriations from the reserve are subject to County Board approval and OAA requirements.

Office-Based Opioid Treatment Program (OBOT)

OBOT is comprised of psychiatrists, therapists, peer specialists, and nurses. Treatment combines the use of contingency management, motivational interviewing, group therapy, medications for opioid use disorders, and urine drug screens. Funding for positions is provided from the State Opioid Response grant (a full-time Peer Recovery Specialist and a part-time nurse), Opioid Settlement funding (a full-time therapist), and local funding.

OBOT is one of several substance use programming efforts under the broader <u>Opioid Response Program</u>, which is managed by the Behavioral Healthcare Division of the Department of Human Services. Performance measures for OBOT and other substance use programs are available online: http://departments.arlingtonva.us/dhs/dhs-performance-measurement-program/

OPIOID SETTLEMENT RESERVE FINANCIAL SUMMARY (1)

| | FY 2023 ACTUAL | FY 2024 PROJECTED | FY 2025 PROJECTED |
|-------------------------------------|-------------------|----------------------|----------------------|
| Beginning Balance, July 1 | - | \$410,762 | \$533,593 |
| Direct Distribution Payments | | | |
| Distributors (2) | \$153,231 | 78,519 | 73,708 |
| Janssen | 243,109 | - | - |
| Mallinckrodt | 14,422 | 16,967 | - |
| Direct Distribution Subtotal | 410,762 | 95,486 | 73,708 |
| Virginia Opioid Abatement Authority | | | |
| Annual Allocation (3) | - | 200,690 | 61,128 |
| Competitive Grants | - | - | - |
| Virginia Opioid Abatement Subtotal | - | 200,690 | 61,128 |
| | | | |
| Total Revenue | 410,762 | 296,176 | 134,836 |
| T. (10) | 440.740 | 70 / 000 | //0.400 |
| Total Revenue and Balance | 410,762 | 706,938 | 668,429 |
| Personnel | | | |
| Virginia Opioid Abatement Authority | - | 128,345 | 61,128 |
| Distributors | - | - | 80,711 |
| Operating | | | |
| Virginia Opioid Abatement Authority | - | 45,000 | - |
| Total Expenditures | - | 173,345 | 141,839 |
| Closing Balance, June 30 | \$410,762 | \$533,593 | \$526,590 |

- (1) Projected revenues reflect estimates provided by the settlement administrators and OAA at the time of publication. The total funding awarded to the County will continue to evolve as more settlement agreements are reached. The projected expenditures are subject to County Board appropriation and OAA requirements.
- (2) The Distributors' settlement refers to three wholesale distributors of prescription opioid medications: McKesson, Cardinal Health, and Amerisource Bergin. The FY 2024 projected amount differs from the published amounts in the OAA website accessed on February 9, 2024, due to the October 2023 reconciliation of the attorney's fees and costs fund (the "Deficiency Fund").
- (3) The OAA Annual Allocation includes the OAA's additional 25 percent Gold Standard incentive payment. The FY 2024 projected amount reflects the total Arlington allocation published on the OAA's website accessed on February 9, 2024. The County's FY 2024 grant application was submitted and approved in the spring of 2023 before the OAA increased the FY 2024 allocation amount to \$200,690 in January 2024. The remaining available balance may be distributed in FY 2025 (\$27,345) resulting in a total FY 2025 allocation of \$61,128.

BUDGET PROCESS

The County Manager develops budget guidelines for operating departments for the upcoming fiscal year. These guidelines are based, in part, on revenue and expenditure estimates developed by the Department of Management and Finance (DMF), Budget Section. This Section also prepares the necessary instructions and forms for use by departments in preparing budgets and distributes budget preparation forms to the departments. The budget preparation forms are completed in Oracle's budgeting cloud solution, known as Enterprise Planning and Budgeting Cloud Service (EPBCS).

Operating departments prepare expenditure and revenue budgets. The DMF Budget Section is chiefly responsible for developing revenue budgets for taxes and other revenues not directly under the control of an operating department.

The County Board develops budget planning estimates, which set limits on expenditure levels based on preliminary revenue and expenditure forecasts developed by the Budget Section of DMF. The County Manager is in charge of presenting a proposed budget within the planning estimates established by the County Board.

After proposed budgets are submitted by departments, the DMF Budget Section, the County Manager, the Deputy County Managers, and the Executive Leadership Team review and discuss the proposed departmental budgets and, after negotiations, agree on a final amount for presentation to the County Board in the County Manager's proposed budget.

The proposed budget includes a pay-as-you-go capital budget funded from current operations. A multi-year capital improvement program is developed and approved separately from the operating budget. The School Board prepares a separate operations budget, supported to a large degree by transfers from the County's General Fund.

The County Board conducts budget work sessions with the departments and advisory commissions, holds public hearings prior to final adoption of the budget for the upcoming fiscal year, and sets tax rates for the current calendar year.

After adoption, the budget is updated in the budget system and then loaded to the accounting system into a chart of accounts. Annual appropriations are adopted for the general, enterprise, special revenue, capital projects, and internal service funds. Appropriations are controlled at the department level in the General Fund, although appropriations are loaded to cost center, natural account, project, source of funds, and task levels within the department.

The County Board must approve changes to adopted appropriation levels. These changes can be in the form of allocations from previously established contingent accounts, appropriations from new or additional revenues, especially grants from the state or federal government, and from reappropriations from a previous fiscal year. These changes, when approved by the County Board, are loaded to the financial system by doing budget revisions which are approved through DMF, which acts as the control for supplemental appropriations. Approved supplemental appropriations are noted in the County Board minutes for the particular County Board meeting. DMF tracks these adjustments on a balancing spreadsheet.

Operating departments, as well as DMF staff, regularly monitor financial reports and on-line financial tables by comparing actual results to budgeted amounts. Special detailed financial reviews are completed and presented to the County Board at mid-year (mid-year review), third-quarter

(third-quarter review), and at the end of the fiscal year (closeout report). Funds not spent in one fiscal year may be reappropriated in a subsequent fiscal year.

Departments are charged with making sure that approved budget levels reflect any supplemental appropriations approved by the County Board. In addition, with DMF concurrence, funds may be moved within a department's budget as long as the total departmental appropriation is not changed. No County Board approval is required for these internal reallocations.

A graphical representation of the annual budget cycle is shown on the following page.

Budgetary Basis

The budgets of the general government fund types, which include the General Fund, Special Revenue Funds, and General Capital Projects Funds, are prepared on a modified-accrual basis of accounting. Under this basis, expenditures are recorded when the associated liabilities are incurred, but revenues are generally recognized if they are measurable and available. For this purpose, the County considers revenues to be available if they are received within 45 days of the end of the fiscal year.

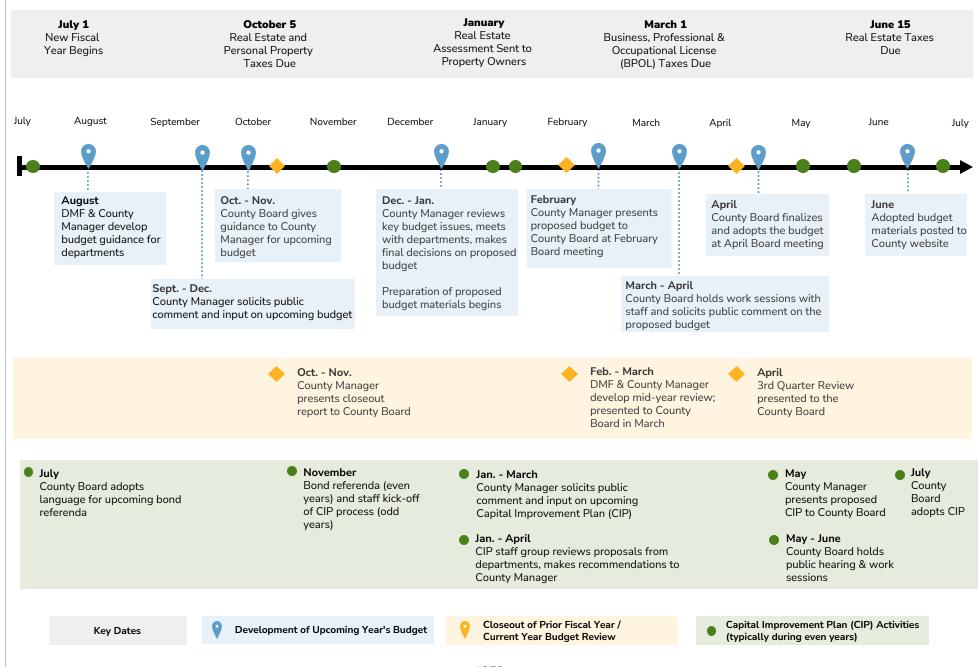

The Enterprise Funds (such as Utilities, Ballston Public Parking Garage, and CPHD Development Fund), Internal Service Funds, and Trust and Agency Funds are recorded using the accrual basis of accounting – where revenues are recorded when earned and expenditures are recorded when the associated liabilities are incurred.

The Annual Comprehensive Financial Report (ACFR) shows the status of the County's finances on the basis of Generally Accepted Accounting Principles (GAAP). In accordance with the GAAP basis and GASB standards, the County is required to display its financial statements in two ways. In one set of statements, the "Government-wide Financial Statements," all funds are reported using the accrual basis of accounting, similar to the Enterprise Funds. In the other set of statements, the "Fund Financial Statements," the governmental fund types (General, Special Revenue Funds, and Capital Projects Funds) are reported using the modified-accrual basis of accounting.

In most cases, the Government-wide financial statements conform to the way the County prepares its budget. Exceptions include the following:

- Depreciation expense is recorded on a GAAP basis only.
- Compensated absence liabilities, expected to be liquidated with expendable available financial resources, are accrued as earned by employees (GAAP) as opposed to being expended when paid (budget).
- Principal payments on long-term debt are applied to the outstanding liability on a GAAP basis as opposed to being expended on a budgetary basis.
- Capital outlays within the Enterprise Funds are recorded as assets on a GAAP basis and expended on a budgetary basis.

Annual Budget Cycle and Related Events

FINANCIAL AND DEBT MANAGEMENT POLICIES

Budgeting, Planning, and Reserves

Balanced Budget: Arlington County will adopt an annual General Fund budget in which the budgeted revenues and expenditures are equal (a balanced budget). Any one-time revenues will be used for one-time, non-recurring expenses such as capital, equipment, special studies, debt reduction, and reserve contributions.

Long-Term Financial Planning: The County will annually develop a six-year forecast of General Fund revenues, expenditures and will maintain a biennially updated, ten-year Capital Improvement Plan (CIP). The ten-year forecast will incorporate projected reserve levels and impact of the CIP on the County's debt ratios.

General Fund Operating Reserve: An Operating Reserve will be maintained at no less than five and one-half percent of the County's General Fund budget. The Operating Reserve shall be shown as a designation of total General Fund balance. Appropriations from the Operating Reserve require County Board approval and may only be made to meet a critical, unpredictable financial need. Any draw on the operating reserve will be replenished within the subsequent three (3) fiscal years.

Self-Insurance Reserve: The County will also maintain a self-insurance reserve equivalent to approximately one to two months' claim payments based on a five-year rolling average. Any draw on the self-insurance reserve requires County Board approval and will be replenished within the subsequent two (2) fiscal years.

Stabilization Reserve: Consistent with past practice, the County will maintain a stabilization reserve to address unexpected, temporary events, such as major weather events or a local/regional emergency requiring immediate incurrence of cost in response; revenue declines; new/unfunded state, regional or federal programs; unexpected capital expenditures; and local or regional economic stress. Amounts, in most instances, would be used for one-time (versus on-going) needs in the course of a fiscal year, and are not intended to be a source of funds to balance the budget during the annual budget development process.

Use of reserve monies requires approval by the County Board. The minimum amount of the contingent will be 1 percent of the General Fund Budget and will be revisited annually as part of the budget process. Any draw on the stabilization reserve will be replenished within the subsequent two (2) fiscal years.

Retirement System Funding: The County will use an actuarially accepted method of funding its pension system to maintain a fully-funded position. The County's contribution to employee retirement costs will be adjusted annually as necessary to maintain full funding. If the County reaches its actuarial-required contribution (defined as County and employee contributions that when expressed as a percent of annual covered payroll are sufficient to accumulate assets to pay benefits when due), the County may reduce its contribution provided that the amount reduced from the annual actuarial requirement will only be used for one-time, non-recurring expenses in order to provide the ability to increase contributions as may be required by future market conditions.

Other Post-Employment Benefits (OPEB) Funding: The County will use an actuarially accepted method of funding its other post-employment benefits to maintain a fully-funded position. The County's contribution to other post-employment benefit costs will be adjusted annually as necessary

to maintain full funding. If the County reaches its actuarial-required contribution (defined as County and employee contributions that when expressed as a percent of annual covered payroll are sufficient to accumulate assets to pay benefits when due), the County may reduce its contribution provided that the amount reduced from the annual actuarial requirement will only be used for one-time, non-recurring expenses in order to provide the ability to increase contributions as may be required by future market conditions.

Capital Improvement Plan

- 1. The County Manager will biennially submit a ten-year Capital Improvement Plan (CIP) to the County Board. The CIP will address all known facility and infrastructure needs of the County, including the needs of the Arlington County Public Schools.
- 2. The CIP shall include a detailed description of each capital project, identifying every source of funding, including pay-as-you-go (PAYG), bond financing, and master lease financing. The source of funding will largely be determined based on the useful life of the project. Bond-funded projects will typically have a useful life at least as long as the period over which the bonds will be repaid (generally twenty years). Master lease-financed projects will generally have useful lives of three to ten years and typically include furniture, equipment, rolling stock and technology purchases. PAYG funds provide greater flexibility and will be appropriated annually from general fund revenues.
- 3. Each project budget shall identify the financial impact on the operating budget, if any.
- 4. In general, capital projects estimated to cost \$100,000 or more should be included in the CIP, including technology and equipment purchases.
- 5. The County will balance the use of debt financing sources against the ability to utilize PAYG funding for capital projects. While major capital facility projects will generally be funded through bonds, the County will attempt to maintain an appropriate balance of PAYG versus debt, particularly in light of the County's debt capacity and analysis of maintenance capital needs. As part of each biennial CIP process, the County will conduct a comprehensive assessment of its maintenance capital needs.
- 6. The CIP will include an analysis of the impact the CIP has on the County's debt capacity, debt ratios and long-term financial plan.
- 7. Voter referenda to authorize general obligation bonds should only be presented to voters when the analysis of the County's debt capacity demonstrates the ability of the County to fund the debt service for the bonds based on the County's "Financial and Debt Service Policies." Absent a compelling reason to do otherwise, the County should have the capacity to initiate construction projects within the two-year period before the next bond referendum. There should also be a demonstrated capability for the County to complete any project approved by referendum within the eight-year time period mandated under state law for sale of authorized bonds. The term "County" in this specific policy includes the Arlington County Government and any entity that receives bond funding from the County (such as the Arlington County Public Schools and the Washington Metropolitan Area Transit Authority).
- 8. In the off-years of the biennial CIP process, the County will conduct a needs assessment that will reflect, as appropriate, existing master plans and assessments (e.g., the Master Transportation Plan and others.) Given the significant size and diversity of the County's

infrastructure responsibilities, this assessment process will be implemented over the next four to six years.

Debt Management

The County will prudently use debt instruments, including general obligation bonds, revenue bonds, industrial development authority (IDA) revenue bonds, and master lease financing in order to provide re-investment in public infrastructure and to meet other public purposes, including inter-generational tax equity in capital investment. The County will adhere to the following debt affordability criteria (excluding overlapping and self-supporting debt).

- 1. The ratio of net tax-supported debt service to general expenditures should not exceed ten percent, within the ten-year projection.
- 2. The ratio of net tax-supported debt to full market value should not exceed three percent, within the ten-year projection.
- 3. The ratio of net tax-supported debt to income should not exceed six percent, within the ten-year projection.
- 4. Growth in debt service should be sustainable and consistent with the projected growth of revenues. Debt service growth over the ten-year projection should not exceed the average ten-year historical revenue growth.
- 5. The term and amortization structure of County debt will be based on an analysis of the useful life of the asset(s) being financed and the variability of the supporting revenue stream. The County will attempt to maximize the rapidity of principal repayment where possible. In no case will debt maturity exceed the useful life of the project.
- 6. The County will refund debt when it is in the best financial interest of the County to do so. When a refunding is undertaken to generate interest rate cost savings, the minimum aggregate present value savings will be three percent of the refunded bond principal amount.

Variable Rate Debt

- 1. Variable rate debt exposure should not exceed twenty percent of total outstanding debt.
- 2. Debt service on variable rate bonds will be budgeted at a conservative rate.
- 3. Before issuing variable rate bonds, the County will determine how potential spikes in the debt service will be funded.
- 4. Before issuing any variable rate bonds, the County will determine the impact of the bonds on the County's total debt capacity under various interest rate scenarios; evaluate the risk inherent in the County's capital structure, giving consideration to both the County's assets and its liabilities; and develop a method for budgeting for debt service.

Moral Obligation Debt or Support

On an infrequent basis, the County provides its "moral obligation" support for partners, including regional public safety agencies and affordable housing partners, among others. A moral obligation exists when the County Board has made a commitment to support the debt of another entity to prevent a potential default. The County's moral obligation will only be authorized after an evaluation of the risk to the County's balance sheet and stress testing of the financial assumptions underlying the proposed project.

Derivatives

Interest rate swaps and options (Swaps or Derivatives) are appropriate management tools that can help the County meet important financial objectives. Properly used, these instruments can help the County increase its financial flexibility, provide opportunities for interest rate savings or enhanced investment yields, and help the County reduce its interest rate risk through better matching of assets and liabilities. The County must determine if the use of any Swap is appropriate and warranted given the potential benefit, risks, and objectives of the County.

- 1. The County may consider the use of a derivative product if it achieves one or more of the following objectives:
 - Provides a specific benefit not otherwise available;
 - Produces greater than expected interest rate savings or incremental yield over other market alternatives;
 - Results in an improved capital structure or better asset/liability matching.
- 2. The County will not use derivative products that are speculative or create extraordinary leverage or risk; lack adequate liquidity; provide insufficient price transparency; or are used as investments.
- 3. The County will only do business with highly rated counterparties or counterparties whose obligations are supported by highly rated parties.
- 4. Before utilizing a Swap, the County, its financial advisor, and legal counsel shall review the proposed Swap and outline any associated considerations. Such review shall be provided to the Board and include analysis of potential savings and stress testing of the proposed transaction; fixed versus variable rate and swap exposure before and after the proposed transaction; maximum net termination exposure; and legal constraints.
- 5. Financial transactions using Swaps or other derivative products used in lieu of a fixed rate debt issue should generate greater projected savings than the typical structure used by the County for fixed rate debt.
- 6. The County will limit the total notional amount of derivatives to an amount not to exceed twenty percent of total outstanding debt.
- 7. All derivatives transactions will require County Board approval.

Special Revenue / Enterprise Funds

It is the general policy of the County to avoid designation of discretionary funds in order to maintain maximum financial flexibility. The County may, however, create dedicated funding sources when there are compelling reasons based on state law or policy objectives, as described below. The Utilities Fund was created as a self-sustaining, fee-based enterprise fund under state code to support and maintain development of the County's water and sewer infrastructure. The Transportation Capital Fund was adopted pursuant to state legislation for new transportation funding. The Stormwater Management Fund was initially adopted in CY 2008 to be funded through a sanitary District Tax. Starting in CY 2024, it was converted to a self-sustaining, fee-based enterprise fund under state code to support the County's stormwater management program, including operations and capital infrastructure. The CPHD Development Fund was created as a self-sustaining, fee-based enterprise fund. Tax Increment Funds were established to support redevelopment and preservation objectives associated with the County's adoption of master plans, (e.g., the Crystal City Sector Plan adopted in 2010 and the Columbia Pike Neighborhoods Plan adopted in 2013).

Utilities Fund

- 1. The County will annually develop a six-year forecast of projected water consumption, revenue, operating expenditures, reserve requirements and capital needs for the Utilities Fund. The six-year forecast will show projected water-sewer rate increases over the planning period.
- 2. The County will implement water-sewer rate increases in a gradual manner, avoiding spike increases whenever possible.
- 3. The County will meet or exceed all requirements of any financing agreements or trust indentures.
- 4. The Utilities Fund will maintain a reserve equivalent to three months' operations and maintenance expenses. The reserve may be used to address emergencies and unexpected declines in revenue. If utilized, the reserve will be replenished over a three-year period to the minimum reserve level. This reserve is in addition to any financing agreement-required debt service reserve funds.
- 5. The Utilities Fund will maintain debt service coverage of at least 1.25 times on all debt service obligations.
- 6. The Utilities Fund will be self-supporting.

Transportation Capital Fund

- 1. New revenue shall not be used to supplant existing transportation funding commitments, and capital investments shall be compliant with state law restrictions on non-supplanting and maintenance of effort requirements.
- 2. Operating program enhancements (outside base program) that clearly document transportation benefits may be eligible for support from the Transportation Capital Fund.
- 3. No more than three to five percent of annual expenditures should be used for project administration, indirect & overhead costs to support capital projects.
- 4. A reserve equivalent of ten to twenty percent of annual budgeted revenue will be established.

- 5. A five to ten-year financial plan and model will be developed that integrates project cashflow forecasts, revenue projections, and financial / debt management policies and will factor in other non-County funding sources, including federal, state, regional, and private funding.
- 6. The County will prudently balance the use of new transportation funding sources between pay-as-you-go funding and leveraging through new bond issuance. Use of leveraging will be dependent on project size, cash flow, and timing projections.
- 7. If the County chooses to issue debt supported by dedicated transportation funding sources, such debt will be structured to be self-supporting and will not count against the County's general tax supported obligation debt ratios or capacity. Debt service coverage on such debt will range from 1.10 to 1.50 times, depending on the type of debt issued. The term on such bonds will not exceed the average useful life of the assets financed, and amortization will be structured to match the supporting revenue stream.
- 8. The Transportation Capital Fund will be self-supporting.

Tax Increment Funds

- 1. The intended use of TIF monies will be specified at the time of TIF creation; changes or additional uses will be determined as part of the annual budget process.
- 2. The assessed value of TIF areas will not exceed 25 percent of the County's total assessed valuation. As of January 1, 2016, existing TIF assessed valuation totaled 20 percent of County-wide assessed valuation.
- 3. The percent of TIF revenue available for the intended uses within a TIF area will be established at the creation of the TIF and will be less than or equal to 40 percent. This percent will be evaluated annually as part of the budget process.
- 4. The County will prudently balance the use of PAYG funding and leveraging through TIF bond issuances. Use of leveraging will be dependent on project type, size, cashflow and timing projections. Leveraging will only be used for capital projects that meet useful life and other requirements for bond issuance.
- 5. If the County leverages TIF revenue on its own behalf, it will target a minimum debt service coverage ratio of 2.0 times and establish an appropriate level of debt service reserves and / or other contingencies.
- 6. The County will establish additional policies pertaining to the leverage of TIF revenue by a private development entity prior to any such issuance.
- 7. A reserve equivalent to ten percent of annual budgeted revenue will be established.

Stormwater Fund

1. The County will annually develop a six-year projection of stormwater operating and capital expenses. The six-year forecast will show projected stormwater utility rate increases over the planning period.

- 2. <u>The County will implement stormwater utility rate increases in a gradual manner, avoiding</u> spike increases whenever possible.
- 3. The County will meet or exceed requirements of any financing agreement of trust indentures.
- 4. The Stormwater Fund will maintain a reserve equivalent to three months' operations & maintenance expenses. The reserve may be used to address emergencies and unexpected declines in revenue. If utilized, the reserve will be replenished over a three-year period to the minimum reserve level. This reserve is in addition to any financing agreement-required debt service reserve funds.
- 5. The Stormwater Fund will maintain debt service coverage of at least 1.25 times on all debt service obligations. Such debt will be structured to be self-supporting and will not count against the County's general obligation debt ratios or capacity as long as annual net debt service coverage remains above 1.25 times.
- 6. Prior to each new issuance of G.O. stormwater debt, the County will prepare a projection of net debt service coverage demonstrating that the forecasted future net debt service coverage at currently adopted rates or schedules will be no less than 1.25 times over the life of the bonds.
- 7. Stormwater financial policies will be reviewed on a periodic basis.
- 8. The Stormwater Fund will be self-supporting.

CPHD Development Fund

- 1. A contingent reserve will be established equivalent to thirty percent of the Fund's total operating budget based on the fiscal year. This amount is equivalent to three to four months of annual operating expenditures. The reserve may be used to address emergencies and unexpected declines in revenue only after authorization from the County Board.
- 2. The CPHD Development Fund will be self-supporting.

Ballston Garage and Ballston Garage 8th Level Funds

- 1. The County will annually develop a multi-year forecast of garage revenue, operating expenses, and capital maintenance costs to be updated with each County CIP cycle.
- 2. An economic stability reserve equivalent to three months of annual parking revenues will be established to address potential revenue variability, ramping up to this level over a four-year period beginning in FY 2019. Any draws upon this reserve will be replenished within the subsequent three (3) fiscal years.
- 3. A maintenance reserve will be established based on an assessment of expected capital renewal needs over a 10-year period.
- 4. A reserve will be established for the ensuing year of debt service on the Series 2016B Ballston Quarter CDA bonds allocable to garage improvements.
- 5. The County will meet or exceed all requirements of any financing agreements or trust indentures.

6. The County will target self-sufficiency in consideration of limits imposed on parking user fee raising ability in the garage by the 1984 documents governing original and ongoing development of the garage.

COMPREHENSIVE PLAN SUMMARY

Background

The Code of Virginia requires all governing bodies in the Commonwealth to have an adopted Comprehensive Plan. Arlington County's Comprehensive Plan was established by resolution of the County Board on August 27, 1960. This resolution called for the preparation of Arlington County's Comprehensive Plan, which originally included the following five elements: General Land Use Plan, Water Distribution System Master Plan, Sanitary Sewer System Master Plan, Storm Sewer Plan, and Major Thoroughfare and Collector Streets Plan. In later years, additional elements were added to the Comprehensive Plan, and some were replaced by new plans. For example, the Major Thoroughfare and Collector Streets Plan was replaced in 1986 by the Master Transportation Plan. Elements added to the Comprehensive Plan over time include the Recycling Program Implementation Plan and Map, the Chesapeake Bay Preservation Plan and Preservation Area Map, the Open Space Master Plan (now the Public Spaces Master Plan, containing the Public Art Master Plan), the Historic Preservation Master Plan, the Community Energy Plan, the Affordable Housing Master Plan, and the Forestry and Natural Resources Plan.

The Comprehensive Plan provides guidance during the year for County efforts in conjunction with the annual budget.

Goals and Objectives

The Comprehensive Plan was established in order that Arlington County may remain a safe, healthy, convenient, and prosperous community and an attractive place in which to live, work, and play, with stable or expanding values and potentialities for growth and continued economic health. The purpose of the Comprehensive Plan is to guide the coordinated and harmonious development of Arlington County through the provision of high standards of public services and facilities based on general principles adopted by the County Board in 1960. Updates to various Plan elements adopted by the Board since 1960 have greatly expanded and modernized these principles, goals, and objectives, responding to more advanced and comprehensive community expectations about program delivery and sustainability; local, state, and federal regulatory requirements; and other factors—as highlighted in the Plan element summary section below.

These are the general principles adopted by the Board in 1960:

- Retention of the predominantly residential character of the County, and limitation of intense development to limited and defined areas;
- Promotion of sound business, commercial, and light industrial activities in designated areas appropriately related to residential neighborhoods;
- Development of governmental facilities, which will promote efficiency of operation and optimum public safety and service, including the areas of health, welfare, culture, and recreation;
- Provision of an adequate supply of water effectively distributed;
- Maintenance of sewage disposal standards acceptable to the immediate County area and its neighbors in the entire Washington Metropolitan Area and consistent with the program of pollution abatement of the Potomac River;
- Provision of an adequate stormwater drainage system; and

Provision of an adequate system of traffic routes, which is designed to form an integral part
of the highway and transportation system of the County and region, assuring a safe,
convenient flow of traffic, thereby facilitating economic and social interchange in the County.

In addition, the County Board has endorsed a land use policy, which has evolved from an extensive citizen participation process and is designed to ensure that Arlington is a balanced community that provides residential, recreational, educational, health, shopping, and employment opportunities with good transportation supported by a strong tax base and the effective use of public funds. An overarching theme of many of Arlington's initiatives, from land use to transportation to stormwater management, is that of sustainability and transit-oriented development. In support of Arlington's overall policy goals, the following adopted land use goals and objectives have been incorporated into the Comprehensive Plan:

- Concentrate high density residential, commercial, and office development within designated Metro Station Areas in the Rosslyn-Ballston and U. S. Route 1 Metrorail transit corridors. This policy encourages the use of public transit and reduces the use of motor vehicles.
- Promote mixed-use development in Metro Station Areas to provide a balance of residential, shopping, and employment opportunities. The intent of this policy is to achieve continuous use and activity in these areas.
- Increase the supply of housing by encouraging construction of a variety of housing types and prices at a range of heights and densities in and near Metro Station Areas. The Plan allows a significant number of townhouses, mid-rise, and high-rise dwelling units within designated Metro Station Areas.
- Preserve and enhance existing single-family and apartment neighborhoods. Within Metro Station Areas, land use densities are concentrated near the Metro Station, tapering down to surrounding residential areas to limit the impacts of high-density development. Throughout the County, the Neighborhood Conservation Program and other community improvement programs help preserve and enhance older residential areas and help provide housing at a range of price levels and densities.
- Preserve and enhance neighborhood retail areas. The County encourages the preservation and revitalization of neighborhood retail areas that serve everyday shopping and service needs and are consistent with adopted County plans. The Arlington County Retail Plan (2015) provides the policies and guidance to support retail in Arlington County.

Other goals and objectives have been incorporated into the Comprehensive Plan through the years, including the provision of an adequate supply of beneficial open space which is safe, accessible, and enjoyable, as outlined in the Public Spaces Master Plan, energy goals as described in the Community Energy Plan, and targets for affordable housing as set forth in the Affordable Housing Master Plan.

Elements of the Comprehensive Plan

Arlington County's Comprehensive Plan is currently comprised of the following twelve elements:

- General Land Use Plan
- Master Transportation Plan
- Stormwater Master Plan
- Water Distribution Master Plan
- Sanitary Sewer Collection System Plan
- Recycling Program Implementation Plan

- Chesapeake Bay Preservation Plan
- Public Spaces Master Plan (Containing sub-element: Public Art Master Plan)
- Forestry and Natural Resources Plan
- Historic and Cultural Resources Plan
- Community Energy Plan
- Affordable Housing Master Plan

Although the Planning Division in the Department of Community Planning, Housing and Development is responsible for the overall coordination and review of the Comprehensive Plan, several agencies within Arlington County are responsible for the review of the specific elements that make up the Comprehensive Plan. A web version, which includes the plan elements, can be found on the Comprehensive Plan web page, a part of the Department of Community Planning, Housing and Development's website. The "Essential Guide to Arlington County's Comprehensive Plan" was produced in 2017 and provides specific details on how the Comprehensive Plan is used and reviewed. The Guide illustrates the relationship of the individual elements and sub-elements to the overarching goals of the Comprehensive Plan, and outlines the purpose, goals, history, and implementation of each element and sub-element. This is accompanied by a one-page overview and 22-page technical resource compiling the specific goals and objectives from each Comprehensive Plan element and sub-element.

The Code of Virginia requires all governing bodies in the Commonwealth to review the Comprehensive Plan at least once every five years. Following acceptance of the 2020 Five-Year Review, a related review process began in 2023.

A description of each element and the name of the department responsible for that element follows:

General Land Use Plan

The General Land Use Plan (GLUP) is the primary guide for the future development of the County. The plan establishes the overall character, extent, and location of various land uses and serves as the guide to communicate the policy of the County Board to citizens, businesses, developers, and others involved in the development of the County. In addition, the General Land Use Plan serves as a guide for the County Board in its decisions concerning future development.

The County first adopted a General Land Use Plan in 1961. Since then, the plan has been updated and periodically amended to more clearly reflect the intended use for a particular area. The plan is amended either as part of a long-term planning process for a designated area or as the result of an individual request for a specific change, typically evaluated through a Special GLUP Study. Since its initial printing, there have been numerous updates and amendments to the General Land Use Plan. The County Board adopted an updated General Land Use Plan map and booklet in June 2023, and the web version will continue to show amendments and other minor updates on a bi-annual basis. More information on the GLUP can be found on the GLUP web page.

Department: CPHD

Master Transportation Plan

The Master Transportation Plan (MTP) establishes the policies to guide the development of transportation facilities necessary to address future transportation needs and challenges in Arlington County. The Master Transportation Plan provides:

- The overall rationale for developing transportation facilities (transit, roads, walkways and/or bikeways) to meet future travel needs;
- A basis for establishing County transportation-related program priorities;
- A framework for advising other agencies responsible for transportation in this area; and
- An overall direction to guide transportation projects in Arlington County.

Arlington's original transportation plan was the Major Thoroughfare and Collector Streets Plan. Since its adoption in 1941, the plan has been updated and expanded to address multiple travel modes. For streets, the initial plan of 1941 was updated in 1960 and 1975 and became part of the 1986 Master Transportation Plan. For bikeways, the initial plan adopted in 1974 was updated in 1977, 1986, and again in 1994, as part of the Master Transportation Plan. The initial Master Transit Plan adopted in 1976 was partially updated in 1989 with the inclusion of the Paratransit Plan. The 1978 Master Walkways Policy Plan was also updated in 1986 as a part of the Master Transportation Plan and in 1997 as the Pedestrian Transportation Plan.

A comprehensive update of the Master Transportation Plan began in 2004 with the following eight sub-elements adopted by the County Board that now comprise the Master Transportation Plan:

- 1) Goals and Policies Element (2007, updated 2017), 2) Map Element (2007, updated 2023), 3) Bicycle Element (2008, updated 2019), 4) Pedestrian Element (2008, amended 2011),
- 5) Transportation Demand and System Management Element (2008), 6) Transit Element (2009, updated 2016), 7) Parking and Curb Space Management Element (2009), and 8) Streets Element (2011, amended 2016). Amendments to the MTP Map have frequently been made, largely in conjunction with other County land use and transportation planning efforts.

The process to re-envision the MTP is anticipated to begin in CY 2024 and would span multiple years. This planning effort would result in a plan reorganization from the current element-based structure to one comprehensive document to achieve better coordination of modal needs and priorities across Arlington's transportation network. The plan will have policies that recommend how future investments to the multimodal transportation network will be prioritized.

Department: DES

Stormwater Master Plan

Originally adopted in 1957 with a primary focus on drainage, the Stormwater Master Plan has been updated in both 1996 and 2014 to incorporate water quality and regulatory goals, objectives, and requirements. The Board adopted a comprehensive update to the Plan in 2014 that included an evaluation of the elements that make up the County's built and natural stormwater conveyance systems as well as challenges and strategies to respond to the aggressive regulatory requirements to clean up the Chesapeake Bay. These elements include: 1) a storm sewer capacity analysis to assess the County's storm sewer infrastructure and prioritize capacity, 2) a County-wide stream assessment to evaluate and prioritize stream and storm sewer outfall conditions, and, 3) a watershed retrofit assessment that identifies locations to add new stormwater treatment facilities and assets to help slow down and filter stormwater runoff.

The overall goals of the County are to provide a comprehensive stormwater management system that balances the following goals: 1) to reduce the potential for stormwater threats to public health, safety, and property; 2) to mitigate the impacts of new and existing urban development on Arlington streams, the Potomac River, and the Chesapeake Bay; and, 3) to comply with State and federal stormwater, water quality, and floodplain management regulations.

To build on the adopted Stormwater Master Plan with more advanced analysis, a comprehensive risk assessment and management plan (RAMP) is under development and projected to be completed in FY 2024 to articulate more fully and respond to the growing challenges and needs of the program driven by climate-driven volatility and flooding. Updated climate projections and modeling for eight vulnerable watersheds forms the primary foundation of the RAMP, supplemented by long-term impacts from pre-regulated legacy development, increasing impervious surfaces, low-percolation soils, steep topography, limited drainage infrastructure, extensive undergrounding of Arlington's natural stream, and rapid development (1940-1970) without reservation for overland relief. The RAMP includes an asset inventory and condition assessment, vulnerability and risk assessments, a gaps analysis and sensitivity review, and recommended strategies and measures (with cost-benefit analyses) to prioritize the County's investments in this critical utility infrastructure.

Department: DES

Water Distribution System Master Plan

The Water Distribution System Master Plan, most recently adopted by the County Board in 2014, is the policy document that guides the operation, maintenance, and expansion of the County water system. The plan evaluates the existing water distribution system facilities and operation practices and determines the policy and facility improvements that will be necessary to provide and maintain the desired quality of service. In the 2014 update, key changes to the Plan were strategies to address the challenges of aging infrastructure by setting recommended investment and policy guidance. Earlier versions of the plan, dating to the mid-1950s, largely addressed the challenges of an expanding and developing community, then its transition to the commercial corridors in major updates completed in 1980 and 1992.

In 2023, a water resiliency plan was completed that evaluated options for securing emergency water supplies if the County's sole water source were interrupted. Implementation work on this plan is ongoing. A new Water Distribution System Master Plan update will commence in 2024 to evaluate the system's capacity to meet future demands and identify where improvements are needed to improve system redundancy, water quality, and system reliability. This plan update is anticipated to be adopted in 2025.

Department: DES

Sanitary Sewer Collection System Plan

The Arlington County sanitary sewer system collects and treats wastewater produced in Arlington County and some adjoining portions of Fairfax County, the City of Alexandria, and the City of Falls Church. The Sanitary Sewer Collection System Plan, anticipated to be adopted by the County Board in February 2024, incorporated a new comprehensive dynamic hydraulic model of the sanitary sewer system to model existing and future flows. The Plan found that no significant capacity, expansion, or corrective projects are necessary. The recommendations focused upon optimizing operational, maintenance, and infrastructure rehabilitation programs. Earlier major plan adoptions were completed in 1970, 1992, and 2002.

Department: DES

Recycling Program Implementation Plan and Map

In 2004, at the direction of the Commonwealth of Virginia, a twenty-year Solid Waste Management Plan (SWMP) that serves as the blueprint for waste reduction, recycling, and waste management was

prepared. Adopted by the County Board in 2004, the SWMP effectively replaces the Recycling Program Implementation Plan from 1990. Since its implementation, the County has achieved nearly all its objectives ahead of schedule. The next update to the SWMP is anticipated to be adopted by the County Board in May/June 2024. The new plan will replace the 2004 SWMP and guide the County in achieving its goal of diverting 90 percent of waste away from landfills and incineration by 2038. A map is also included that shows the location of existing recycling centers.

Department: DES

Chesapeake Bay Preservation Plan

Arlington County is required to maintain a current Chesapeake Bay element of its Comprehensive Plan under the provisions of 9VAC25-830-60. The Chesapeake Bay Preservation Plan satisfies this requirement of the Chesapeake Bay Preservation Area Designation and Management Regulations and is intended to ensure local land use policies protect water quality. The County Board adopted an update to the Chesapeake Bay Preservation Plan in February 2023. The update addresses the primary content areas required in the Regulations including waterfront access; "physical constraints to development" such as steep slopes and soils, stream erosion, land use, and existing and potential water pollution sources; and aligns with the current Chesapeake Bay Preservation Area Map. The plan details stormwater programs and policies to mitigate stormwater impacts from development activity and protect and restore stream valleys, mirroring the adopted Stormwater Master Plan (2014), and coordinates with the Forestry and Natural Resources Plan anticipated to be adopted December 2023.

The County Board adopted the current Chesapeake Bay Preservation Area Map in 2017, with an effective date of January 2018.

Department: DES

Public Spaces Master Plan

The County Board first adopted the Open Space Master Plan in 1994, updated and renamed it to the Public Spaces Master Plan (PSMP) in 2005, and adopted the most recent PSMP update in April 2019. The 2019 PSMP provides policy guidance for the future of the County's public space and outlines the vision, policies, and tools for the development and management of the diverse public spaces system, including parks, natural resources, and recreational assets. The plan is designed to establish the overall character, extent, and location of public space. The PSMP includes over 200 recommendations organized around six Strategic Directions: Public Spaces, Trails, Resource Stewardship, Fiscal Sustainability and Partnerships, Programs, and Operations and Maintenance. Additionally, the plan includes policies for land acquisition and level of service, athletic fields with synthetic turf and lighting, dog parks and dog runs, and privately owned public space design guidelines. The PSMP also includes inventories of existing public spaces and amenities and adopted park master plans, definitions and an action plan. The Action Plan lays out a plan for moving each of the 200 plus specific recommendations forward and identifies responsible parties, potential partners, funding sources, estimated time frames, and cost ranges.

Department: DPR

There is currently one sub-element of the PSMP: Public Art Master Plan.

The **Public Art Master Plan**, another element of the Public Spaces Master Plan, outlines a strategy for how public art, with elevated standards for design, architecture, and landscape architecture, will

improve the quality of public spaces and the built environment in Arlington for civic placemaking. The creation of Arlington's first Public Art Master Plan (2004) was stipulated by the Public Art Policy adopted by the County Board in September 2000 to help refine the policy's direction that public art should be sited in "prominent locations." The Public Art Master Plan defines prominent as areas that are a focus for economic development and civic life as well as public and private investment. The master plan provides guidance for project prioritization and implementation processes for public art County-funded projects, site plan/special exception community-initiated projects. The master plan's development included a survey of other planning processes and initiatives, including sector plans, Neighborhood Conservation Plans, and studies to ensure that its recommendations would be in support of these other policy tools. An update was completed in 2021 in response to the County's evolving priorities, including fostering equity, supporting its natural resources through sustainable practices, leveraging its innovative businesses and workforce, and creating a sense of place in its urbanizing corridors.

Department: AED

Forestry and Natural Resources Plan

The County Board adopted the Forestry and Natural Resources Plan (FNRP) in 2023. It updates and replaces two sub-elements of the Public Spaces Master Plan, the 2004 Urban Forest Master Plan and 2010 Natural Resources Management Plan, as a new element of the Comprehensive Plan. The 2023 FNRP provides an integrated perspective on environmental planning that emphasizes equity, a community-wide approach to conservation, and a focus on reconnecting nature to daily life. The plan includes over 80 recommendations organized into four Strategic Directions: Conservation; Climate Mitigation, Adaptation and Resilience; Biodiversity; and Operations. The FNRP also includes guidance on biophilic design in Arlington, seven appendices offering additional context and background for the plan's policy recommendations, and an Implementation Framework. The Implementation Framework provides a road map to achieve each of the plan's policy recommendations and identifies responsible parties, potential partners, estimated time frames, potential funding sources, and planning-level cost estimates.

Department: DPR

Historic and Cultural Resources Plan

The Historic and Cultural Resources Plan (HCRP), formerly known as the Historic Preservation Master Plan, is the primary guide for historic resources in the County. The purpose of this plan is to establish proactive priorities, goals, and objectives for County historic preservation activities that involve the historic built environment, cultural heritage, and County history in general. The document also serves as a guide to communicate the historic preservation policy of the County Board to property owners, residents, businesses, developers, and others. Additionally, the Historic Preservation Master Plan guides the County Board in its decisions concerning historic resources. Included in the Historic and Cultural Resources Plan is an implementation strategy outline to guide the various programs to be developed. The County adopted the Historic Preservation Master Plan in 2006 and updated November 2023.

Department: CPHD

Community Energy Plan

In June 2013, the County Board adopted the original Community Energy Plan (CEP) to serve as the County long-term climate and energy strategy, followed by a comprehensive update in September

2019. The purpose of the CEP is to define Arlington's energy goals and policies and identify action measures and practices that will drive Arlington to remain economically competitive, environmentally committed, and strategically served by secure, consistent, and reliable energy sources and programs that service constituents on an equitable basis. The CEP sets broad goals and policies for a sustainable community over the next thirty years, and covers all energy and energy-related sectors, including energy efficiency, renewables, low-to-zero emissions transportation, buildings, and resilience. It is intended to ensure that development in the County occurs in a coordinated manner that best promotes the health, safety, prosperity, and general welfare of the County's residents and businesses.

CEP implementation has been operationalized through the <u>Community Energy Plan Roadmap</u>, which lays out strategies, actions, programs, and initiatives to achieve the CEP's climate and energy goals and to execute Board-adopted climate and energy policies. The energy sector is rapidly evolving on a functional, operational, resource diversification, financial, and technological basis; therefore, the CEP Roadmap has been structured as a revolving action plan, based on cycles of Years 1-2, Years 3-5, Years 5-10, and Beyond 10-Years. The CEP Roadmap's revolving cycles keeps the CEP current with marketplace and technological changes, provides for measurability and accountability on a continuous basis, and engages stakeholders to integrate these developments and resources.

In addition to the CEP, the County has completed an Energy Assurance Plan (energy risk management portfolio) and ARTBus Zero Emissions Vehicles Feasibility Study and will complete the Carbon Neutral Transportation Master Plan in FY 2024.

The CEP secures the County's leadership role in the sector for services to constituents and ensures that execution of the CEP improves Arlington's economic competitiveness, climate, energy security, resilience, energy equity, and environmental commitments. Due to dramatic COVID-driven disruptions and suspensions in the greenhouse (GHG) inventory update process, the 2023 inventory is the first most-practical platform for an update to the CEP and will be delivered Q1 Calendar Year 2025. In the interim, DES staff will launch pre-modeling and benchmarking at the beginning of FY 2025, using the CEP Roadmap Years 3-5, consumption based GHG inventory strategies and other resources to prepare an updated CEP, tentatively scheduled for completion Q2 Calendar Years 2026. The CEP update will include civic engagement to reflect the CEP's broad and deep relationship with a wide variety of stakeholders and with all aspects of government and the community.

Department: DES

Affordable Housing Master Plan

In September 2015, the County Board adopted the Affordable Housing Master Plan (AHMP). The purpose of the AHMP is to define the County's affordable housing policy and enable Arlington to respond to the current and future needs of residents of all levels of income in the County. The plan includes the context for affordable housing in Arlington, an analysis of current and future housing needs, and the affordable housing policy. The policy is organized around three goals: having an adequate supply of housing for the community's needs; ensuring that all segments of the community have access to housing; and ensuring that housing efforts contribute to a sustainable community. The AHMP fulfills the Code of Virginia requirement that comprehensive plans address affordable housing to meet the current and future needs of residents of all levels of income in the locality. Accompanying the AHMP is the Affordable Housing Implementation Framework. The Affordable Housing Implementation Framework describes the existing and potential tools that will be the mechanisms for fulfilling the goals, objectives and policies of the AHMP. The framework provides guidance from the County Manager to staff for developing and overseeing specific policies and programs to meet the County's affordable housing needs. In 2019, the County Board launched Housing Arlington, an umbrella program that takes a proactive, expanded approach to reach an

equitable, stable, adaptive community. As part of <u>Housing Arlington</u>, a review of the Affordable Housing Master Plan concluded in 2022 with an updated <u>Affordable Housing Master Plan Implementation Framework</u>. The Framework identifies the activities and programs that the County will employ to achieve the goals, objectives, and policies of the Affordable Housing Master Plan.

SUMMARY OF HOUSING PROGRAMS

In keeping with its vision for a diverse and inclusive community, Arlington County supports a variety of housing programs to ensure a range of housing choices for households of all types and income levels. This section pulls information about housing programs from throughout the budget and consolidates summary information on all housing programs in one place. The Funding Summary shows that approximately \$110 million in funding is being allocated for FY 2025 programs to preserve affordable housing and assist persons to meet their housing needs. Local tax dollar support for these programs totals approximately \$77 million, or eight percent of County government operations (General Fund excluding School's transfer). These figures do not include additional funds outside the County budget that contribute to the affordable housing effort.

County residents continue to struggle to meet housing costs, especially during difficult economic times. A significant gap persists between the number of lower income households and the number of housing units that are affordable to lower income households. In addition, continued development in the Rosslyn-Ballston, Richmond Highway, and Columbia Pike corridors will make it even more critical for the County to be strategic in allocating resources.

All of these housing programs are part of a comprehensive County effort to preserve and enhance affordable housing, governed by Arlington's Affordable Housing Principles and Goals. Affordable housing has for many years been a budget priority, and these different County programs target different aspects of the housing challenge ranging from rental assistance to acquisition of committed affordable housing, to homeownership, to code enforcement, and tenant assistance. This summary provides Arlington's Affordable Housing Principles and Goals and multi-year budgeted expenditures.

The Affordable Housing Master Plan (AHMP) was adopted in 2015 as an element of the County's Comprehensive Plan. Its overarching goals of increasing housing supply, facilitating access to housing, and promoting sustainability of the County's housing stock and financial portfolio are being implemented through a variety of programs and projects. Completed in March 2022, a review of the AHMP resulted in an updated analysis of current and future housing needs, an Affordable Housing Master Plan 5-Year Report, and a 2022 Affordable Housing Master Plan implementation framework which identifies the activities and programs the County will employ to achieve the goals, objectives, and policies of the AHMP.

In addition to the progress made with the Affordable Housing Master Plan (AHMP), significant investments in FY 2025 to various housing programs include:

- 1) Arlington's Affordable Housing Investment Fund (AHIF) is funded at a level of \$20.5 million, of which \$9.7 million is ongoing General Fund funding, \$10.0 million is one-time General Fund funding, and \$0.8 million is Federal HOME funding budgeted in the Community Development Fund.
- 2) The FY 2025 proposed budget includes an additional \$15 million in one-time funds for the preservation of affordable units at Barcroft Apartments in order to continue the paydown of outstanding debt (\$15 million in one-time funds from FY 2023 close-out were used in FY 2024). In addition, \$2 million in ongoing funding from the Columbia Pike TIF is dedicated to the debt service costs of the Barcroft Apartments.
 - The Barcroft Apartments are a 1,334-unit apartment complex which is the County's largest investment in preserving affordable housing along Columbia Pike. Funding from AHIF, the Columbia Pike TIF, and other one-time sources pay principal and debt service on the \$150 million loan provided by the County in December 2021 to support acquisition of the property by Jair Lynch Real Estate Partners. This County loan, in combination with

- a \$160 million low-rate loan from the Amazon Housing Equity Fund will support the preservation of all Barcroft apartments as affordable units.
- In addition, the Columbia Pike TIF will continue to fund two positions within the Community Planning, Housing, and Development's (CPHD) Housing Division, a Principal Development Specialist and Compliance Coordinator (Principal Planner) (\$323,392).
- 3) The FY 2025 proposed tax rate increase provides an additional \$1,653,716 of ongoing funding for eviction prevention, resulting in a total program budget of \$2,326,442. The additional ongoing funds in FY 2025 will help to meet the continued demand for this service since the onset of the COVID-19 pandemic and adds two additional full-time positions for increased caseloads.
- 4) The total funding for the Housing Grant Program in the FY 2025 proposed budget is \$15,077,676. This includes \$3,266,708 in additional ongoing funding from the FY 2025 proposed tax rate increase, where \$3.0 million is for rental subsidies and \$0.2 million for adding two new full-time positions. Additionally, a new time-limited Housing Grants eligibility category for youth aging out of foster care will start in FY 2025 (\$101,232). The Housing Grants subsidy for this new eligibility category will last up to three years. This was one of staff's recommendations from the Housing Grants Study. With this additional ongoing funding in FY 2025, 12 additional clients are projected to be served in this new program.
- 5) An additional \$0.5 million is included in the FY 2025 proposed budget to support shelters for the homeless, short-term transitional housing, and for survivors of domestic violence. This additional funding will enhance case management at these shelters and increase bed capacity, resulting in a total program budget of \$4.9 million.

ARLINGTON'S AFFORDABLE HOUSING PRINCIPLES & GOALS

Adopted by the County Board in September 2015

The <u>Affordable Housing Master Plan</u> is consistent with, and contributes to, achievement of the Vision for Arlington County. The Housing Principles form the core philosophical foundation of Arlington's approach to affordable housing within the context of the County's total housing stock, economic base, and social fabric. These principles provide direction for Arlington's affordable housing goals, objectives, and policies.

Principle 1: Housing affordability is essential to achieving Arlington's vision.

Principle 2: Arlington County government will take a leadership role in addressing the

community's housing needs.

Principle 3: A range of housing options should be available throughout the County affordable

to persons of all income levels and needs.

Principle 4: No one should be homeless.

Principle 5: Housing discrimination should not exist in Arlington.

Principle 6: Affordable housing should be safe and decent.

The Affordable Housing Policy responds to the current and future needs and is articulated in goal, objective and policy statements. Three broad goal areas aid in organizing the various policies into a framework which is further detailed by objectives that respond to these goals, and policies which will direct County efforts in fulfilling each objective.

The first goal relates to housing supply, which is fundamental to addressing all housing needs. However, housing supply alone is not sufficient to ensure that the housing needs of households of all incomes can be met; the second goal addresses access to housing. And finally, it is imperative that as housing needs are addressed that these efforts contribute to a sustainable community.

Goal 1: Arlington County shall have an adequate supply of housing available to meet community needs.

Goal 2: Arlington County shall ensure that all segments of the community have access to

housing.

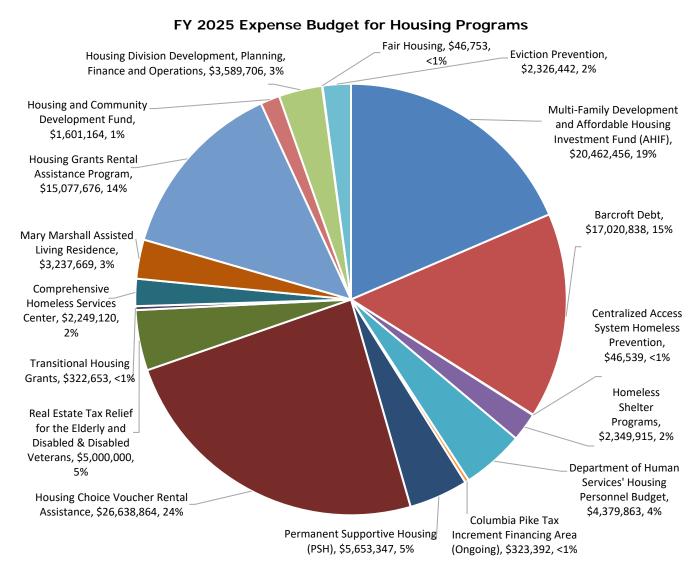

Goal 3: Arlington County shall ensure that its housing efforts contribute to a sustainable

community.

FUNDING SUMMARY

The County's housing programs are funded with a variety of local, state, and federal funding, and are managed through the Department of Human Services and the Department of Community Planning, Housing, and Development. Housing funding totals approximately \$110 million for all funds in FY 2025; additional funds from developer contributions and AHIF loan repayments are also expected to be spent on housing support.

The General Fund net tax support equals approximately \$77 million of the General Fund budget. This section provides a comprehensive summary of the housing program efforts and the funding dedicated to them including summary charts and table as well as descriptions of each program area.

⁽¹⁾ The PSH budget includes the grant-funded personnel costs in the program.

⁽²⁾ The County conducts a Fair Housing study every two years which costs approximately \$50,000. The last study was performed in FY 2024.

⁽³⁾ The Eviction Prevention budget from FY 2020 to FY 2023 are actual expenditures of client payments and excludes the cost of staff time for managing the program. The FY 2024 and FY 2025 amount reflects the adopted budget in FY 2024 and the proposed budget in FY 2025. The FY 2025 proposed budget is all ongoing funding and reflects a new contract budget made effective during FY 2024.

⁽⁴⁾ Budgeted amount shown in the table only includes the rental subsidy budget of the program. It excludes the staffing budget for managing the program and miscellaneous operating supplies.

⁽⁵⁾ Multi-Family Development and Affordable Housing Investment Fund (AHIF) includes \$10.5 million in ongoing funds and \$10 million in one-time funds.

⁽⁶⁾ The DHS personnel budget is a new measure added in FY 2025 to reflect the personnel cost of operating housing programs within the Department of Human Services. The FY 2025 amount excludes the grant-funded personnel in the PSH program.

⁽⁷⁾ The budgeted amounts shown for the Housing Choice Voucher Rental Assistance Program reflects the program's entire personnel and non-personnel budget. This program is budgeted in its own fund separate from the General Fund.

⁽⁸⁾ Barcroft Debt includes funding for debt service costs to preserve the affordability of Barcroft Apartments. Starting in FY 2024, funding from the Columbia Pike TIF was dedicated to this effort. FY 2025 includes an additional \$15 million in one-time.

⁽A) "Net Tax Support" is program expense less revenue; revenue is not shown but has been factored into the calculation.

ARLINGTON COUNTY PROFILE

OVERVIEW OF ARLINGTON

Arlington County is located in northern Virginia, directly across the Potomac River from Washington, D.C. The County encompasses 25.8 square miles of land, which was originally split off from Fairfax County in 1801 and ceded by Virginia to be included in the ten-mile square Federal District. In 1847, however, Congress allowed the land to return to the jurisdiction of Virginia following a vote in favor of retrocession by its members. This area was then known as Alexandria City and Alexandria County. In 1920, to avoid confusion, the county was renamed Arlington County.

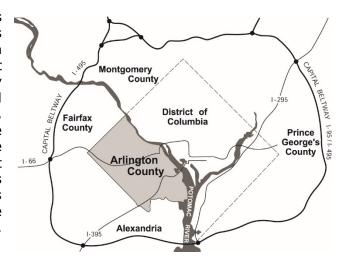

Annexation of any part of Arlington County by neighboring jurisdictions is prohibited by present law unless the entire County is annexed with the approval of County voters. There are no jurisdictions with overlapping debt or taxing powers. The water and sewage systems are operated on a self-supporting basis by the County government.

Arlington's location in the center of the Washington metropolitan region, just five minutes from Washington by car or Metrorail, has made the County a highly desirable business and residential location. Arlington has maintained high-quality residential neighborhoods while supporting well-managed growth. High-density commercial and residential development is focused around Metro stations in the Rosslyn-Ballston corridor and the Richmond Highway corridor, which includes both Pentagon City and Crystal City.

Arlington County has an estimated 2024 population of 240,900, an increase of 0.9% since the 2020 decennial census count of 238,643. Additionally, Arlington is home to an estimated 221,400 jobs, as of January 1, 2024.

Almost all land in Arlington County has been developed. This development consists of extensive single-family residential areas as well as commercial, office, and multi-family residential structures.

Economic activity in Arlington County historically been closely associated with numerous activities governmental of the Washington Metropolitan region. In 2024, about 20.0 percent (or about 44,300) of the jobs in Arlington County are with the numerous federal, state, or local government agencies. In recent years, however, the private employment base, particularly in the service sector, has increased and surpassed the government sector. The 2024 estimates show that sectors of the professional and technical services (26.8 percent and 59,400 jobs) and other services (20.1 percent and 44,400 jobs) have become the top industries for employment in Arlington County.

ORGANIZATION OF ARLINGTON COUNTY GOVERNMENT

The government of Arlington County has been organized according to the County Manager Plan of Government since 1932. Arlington County was the first jurisdiction in the United States to adopt a manager form of government by popular vote.

The five members of the County Board are elected at large for staggered, four-year terms. No more than two members are elected at one time. The Chairman of the County Board is elected annually by the members.

The County Board is responsible for several appointments. The County Board appoints a County Manager to serve as the chief executive and administrator of the County. The County Manager serves at the pleasure of the County Board, implements its policies, directs business and administrative procedures, and appoints department directors.

Assisting the County Manager are six Deputy County Managers and Assistant County Managers as well as the Directors of 12 departments: Fire; Police; Public Safety Communications and Emergency Management; Environmental Services; Human Services; Economic Development; Community Planning, Housing and Development; Parks and Recreation; Management and Finance; Libraries; Human Resources; and Technology Services.

The County Board also appoints an Auditor to complement and augment the County's existing internal auditing program. The auditor, and an advisory committee, report directly to the County Board and focus on tightening financial oversight and deepening program performance review.

Finally, the County Board appoints a County Attorney. The County Attorney provides legal services to the County Board, County agencies and personnel, elected County officials, independent County boards and commissions.

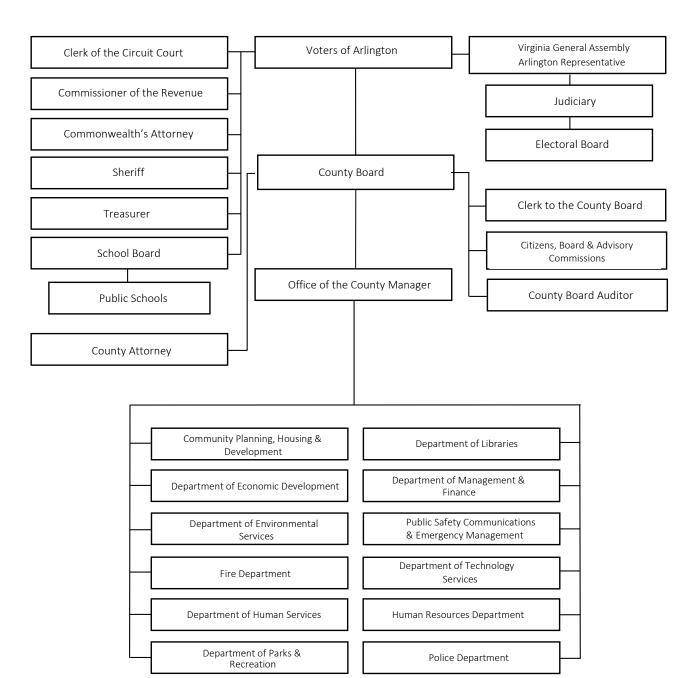

The operation of public schools in Arlington County is the responsibility of a five-member School Board. School Board members serve staggered, four-year terms in a sequence similar to that of County Board members.

A 1992 revision of the State Code provided a local option to elect the School Board; Arlington voters chose to exercise that option via a November 1993 referendum. As of November 1994 and continuing each year thereafter, School Board members are elected.

The Superintendent of Schools is appointed by the School Board for a four-year term; the Superintendent administers the operations of the County's public schools. The local share of the cost of operating public schools in the County is met with an appropriation and transfer by the County Board from the County's General Fund. Operations of the School Board, however, are independent of the County Board and the County administration as prescribed by Virginia law.

In addition to the County Board, other elected County officials include the Commonwealth's Attorney, Sheriff, Commissioner of the Revenue, Treasurer, and Clerk of the Circuit Court. The Judges of the Circuit Court, the General District Court, and the Juvenile and Domestic Relations District Court are appointed by the State legislature.

The structure of Arlington County's Government is depicted in an organizational chart on the following page.

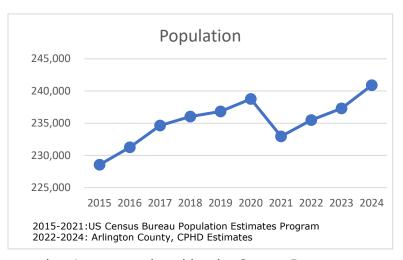

ORGANIZATION OF ARLINGTON COUNTY GOVERNMENT

DEMOGRAPHICS

The Department of Community Planning, Housing and Development (CPHD) estimates Arlington County's 2024 population to be 240,900. Arlington continues to be among the most densely populated jurisdictions in the Country. The County's population has grown since 2014 with a slight decline in population in 2021 following the COVID-19 pandemic. The population has surpassed that of the 2020 Census and is expected to increase going forward.

The new 2020 Estimation model utilizes the Master Housing Unit Database (MHUD) (updated twice a year), most recent vacancy data from Costar and the American Community Survey, and average household size factors from the American Community Survey. The MHUD provides a complete snapshot of all housing in Arlington. This new method applies a vacancy/occupancy rate and average household size factor to each housing unit and estimates the population for each unit or multifamily complex. In developing this methodology, the estimates were

compared to the decennial count and intercensal estimates produced by the Census Bureau.

CPHD estimates that 18.7 percent (44,990 persons) of the population are under the age 20. Individuals between the ages of 20-24 make up 7.2 percent or 17,410 persons. Those between the ages of 25-34 make up the largest share of the population at 24.3 percent or 58,530 persons. Persons between the ages of 35-44 represent 16.6 percent of the population (or 39,890 persons), those between the ages 45-64 make up 22.2 percent (or 53,390 persons), those between the ages of 65-84 make up 9.8 percent (or 23,700 persons), and those 85 and over represent 1.3 percent of the population (or 3,020 persons).

RACIAL/ETHNIC COMPOSITION

Arlington County takes pride in, and gains vitality from, the diversity of its population. CPHD estimates 59.4 percent of Arlington residents are white, 15.2 percent are Hispanic, 8.9 percent are black or African-American, 10.9 percent are Asian or Other Pacific Islanders, less than one percent are American Indian or Alaska Native, and 5.4 percent identified as another race or two or more races. (Note: percentages may not add due to rounding.)

CPHD estimates that the aggregate population of Arlington increased by 16.0 percent between 2010 and 2024. From 2010 to 2024, the largest increase in population among the racial/ethnic groups was an increase of about 10,139 among the White population. Among other groups, the Asian population and the population of two or more races also increased substantially, by 6,338 and 6,204 persons, respectively. The Hispanic population increased by over 5,200 persons. The following table shows the change in population among various racial/ethnic groups from 2010 to 2024. The 2010 are from the Decennial Census and 2024 are from CPHD Estimates.

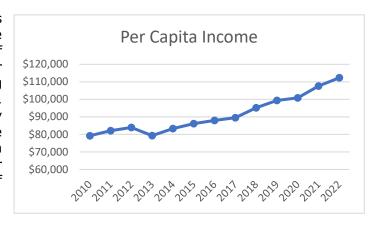

| Racial/Ethnic Group | 2010 | 2024 | % Change |
|---|---------|---------|----------|
| Non-Hispanic/Latino | | | , |
| White | 132,961 | 143,100 | 7.6% |
| Black or African American | 17,088 | 21,500 | 25.8% |
| American Indian or Alaska Native | 394 | 400 | 1.5% |
| Asian | 19,762 | 26,100 | 32.1% |
| Native Hawaiian or Other Pacific Islander | 133 | 200 | 50.4% |
| Some Other Race | 611 | 1,500 | 145.5% |
| Two or More Races | 5,296 | 11,500 | 117.1% |
| | | | |
| Total Non-Hispanic/Latino | 176,245 | 204,300 | 15.9% |
| | | | |
| Hispanic/Latino | 31,382 | 36,600 | 16.6% |
| | | | |
| TOTAL | 207,627 | 240,900 | 16.0% |

EDUCATION

Arlington's population is among the most highly educated in the country. According to the U.S. Census Bureau 2022 American Community Survey, 95.6 percent of all household residents age 25 and older were high school graduates, 77.7 percent were college graduates, and 41.4 percent had graduate or professional degrees. Of the Arlington Public School (APS) class of 2023, 92 percent planned to pursue higher education, and the average expenditure per pupil was expected to be \$23,521 in fiscal year 2024.

PERSONAL INCOME

The educational achievements of Arlington's population are reflected in the County's income statistics as well. For 2022, the Bureau of Economic Analysis reported that Arlington's per capita personal income was \$112,313. According to the U.S. Census American Community Survey, the median household income in Arlington County in 2022 was \$137,387. The Per Capita Income graph above shows the growth in per capita personal income since 2010. Income figures for 2010 through 2020 are from the U.S. Bureau of Economic Analysis.

HOUSING

According to CPHD estimates, there are 123,700 total housing units in Arlington as of January 2024. A housing unit is a multi-family dwelling, a single-family dwelling attached to other dwellings, or a single-family detached dwelling. The majority (72 percent or 89,100) of housing units in Arlington are multi-family. There are an estimated 27,570 single-family detached (22 percent), and 7,030 single-family attached housing units (six percent) in Arlington. Between January 2020 and January

2024, 6,403 new multi-family units have been completed (an increase of 7.7 percent), compared to a net of 37 single-family attached units. There has been a net loss of 125 single family detached units during the same time span. According to CPHD estimates, owners occupy 37.4 percent and renters occupy 62.6 percent of occupied housing units.

HOUSEHOLD COMPOSITION

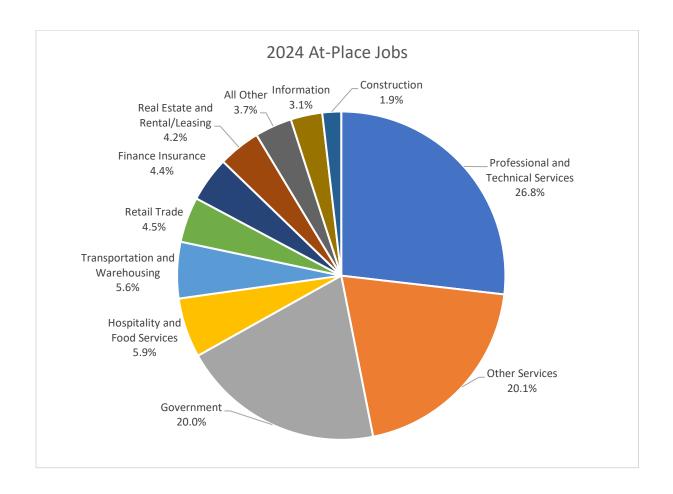

All persons living in a housing unit are termed a household. As of January 2024, CPHD estimates that there are 117,700 households in Arlington County. According to the 2020 Census, the average household size is 2.14 persons. The 2022 American Community Survey estimates 43.8 percent of Arlington households were family households and 56.2 percent were non-family households.

COMMUNITY FACILITIES IN ARLINGTON

| County Owned Parkland | 939 acres | Rectangle Fields | 44 |
|--|-----------|-------------------------------------|----|
| NOVA Parks | 136 acres | Libraries | 8 |
| Multi-Use Trails (Off-Street) | 52.3 | Nature Centers | 3 |
| County Owned Parks | 148 | 55+ Centers | 5 |
| Tennis and Basketball Courts | 191 | Indoor Facilities | 19 |
| Diamond Fields | 33 | Fire Stations | 9 |

AT-PLACE EMPLOYMENT

According to Arlington County estimates, the total number of jobs in the County decreased by about 0.1 percent between 2020 and 2024. The service sector comprises a significant share of jobs in Arlington. About 26.8 percent of all jobs are in the professional and technical services sector. Another 20.1 percent of jobs are in other service sectors, including administrative, education, and health. The government sector also continues to comprise a large share of Arlington jobs. About 20.0 percent (44,300 jobs) of the County's January 2024 employment is estimated to be in government. 2023 was the first year that the government sector dropped from second to third largest sector for at-place jobs in Arlington County.
