SUBJECT: Year-End Report 2013

Dear Board Members:

The following summarizes the Planning Commission's efforts for 2013. Established in 1956, the Arlington County Planning Commission is a citizen advisory board authorized by the Virginia State Code to promote the orderly development of the locality and its environs by advising the Arlington County Board on land use matters.

The Commission, currently comprised of 11 members, changed its composition in 2013 with two new appointments, one resignation, and one scheduled term completion. Jane Siegel was appointed on March 19, 2013, and Erik Gutshall on June 18, 2013. Charles Monfort resigned effective October 31, 2013. Peter Fallon's third term ended on October 31, 2013.

As of December 31, 2013, the Planning Commission consisted of:

Planning Commission Representation on Other Committees:

Individual Planning Commissioners have volunteered their time, provided valuable input, and represented the Planning Commission on various additional groups. In particular, Commission members contributed planning efforts and time to the Realize Rosslyn-Rosslyn Sector Plan Update and the Columbia Pike Neighborhoods Special Revitalization District Form Based Code. During 2013, the Public Facilities Review Committee (PFRC), chaired by Charles Monfort through October 31, 2013, followed by Steve Sockwell, held a total of 15 meetings to review three APS projects (the Ashlawn Elementary School expansion, a new elementary school on the Williamsburg Middle School campus (New ES#1), and the McKinley Elementary School Expansion) and the ART Bus Maintenance Facility in Crystal City. With deferral of the proposed Latitude Site Plan in July 2013, the Ad-Hoc Planning Commission Committee was established to review the relationships between the Virginia Square Sector Plan and the Latitude Site Plan. Commissioner Monfort chaired the three meetings of the Ad-Hoc Committee that were held in September through October 2013. Two meetings were convened by the UCMUD Review Committee in November and December 2013, to review the 10th Street Flats UCMUD. These meetings were chaired by Commissioner Kumm. Also during 2013, the public process for the Julia Lee URD was chaired by Commissioner Siegel. The attached list of Planning Commission Liaison Assignments identifies the many other Commissions and Committees on which Planning Commissioners served.

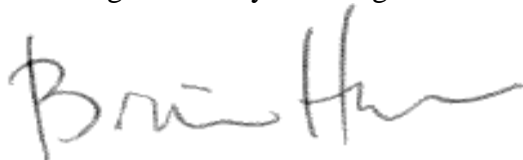

Beyond their participation in organized committees and task forces, Planning Commissioners have continued to provide advice and consultation on planning issues of particular interest to them individually, including Commissioner Malis’ work on the Neighborhoods Special Revitalization District Form Based Code, Commissioner Cole’s work on the Site Plan Review Working Group, and Commissioner Harner’s work on the Rosslyn Process Panel for the Rosslyn Sector Plan Update. By leading and engaging in discussions on these more focused topics, Commissioners helped Arlington citizens develop a broader perspective on relevant issues and their long term impacts.

For reference and public record purposes, the Commission's web page <http://www.arlingtonva.us/Departments/Commissions/plancom/PlancomMain.aspx> includes all of the meeting minutes, recommendation letters and other information for the Commission's 2013 endeavors.

The Commission would also like to express its continued appreciation for the support of County staff, across multiple departments, who are involved in the planning process. The staff's commitment to good planning has been instrumental in educating and assisting the Planning Commission in the making of recommendations to the County Board. The Planning Commission is especially indebted to Freida Wray and Gizele Johnson, for their direct, responsive support of the Commission's business.

On behalf of all members of the Planning Commission, I want to thank the County Board for the opportunity to serve Arlington County. 2013 saw an increase in active site plan and special exception redevelopment applications, use permits for County and Schools public facilities, and Zoning Ordinance amendments including the reformat of the Zoning Ordinance. Even during these difficult economic times, Arlington County, with its commitment to Smart Growth principles and progressive planning efforts, continues to be a place where businesses want to be and people want to live.

Respectfully Submitted,
Arlington County Planning Commission
